VII. ADJOURNMENT

NOTES:

MEETING FORMAT

The Planning Commission uses the consent agenda to approve non-controversial or routine matters by a single motion and vote. If a member of the Planning Commission, the Planning Staff or the general public wants to discuss an item on the consent agenda (at the beginning of the meeting), that item is removed from the consent agenda and considered during the meeting. The Planning Commission then approves the remaining consent agenda items.

Persons wishing to speak on an agenda item are requested to sign the item's sign-in sheet located at the back of County Council Chambers. Meeting attendees are usually given two (2) minutes to speak; the time limit is at the discretion of the Chair of the meeting and may be limited when appropriate.

Speakers' comments should be addressed to the full body. Requests to engage a Commission Member, County staff or applicants in conversation will not be honored. Abusive language is inappropriate.

After persons have spoken, the hearing is closed and brought back to Commission level for discussion and action. There is no further comment permitted from the audience unless requested by the Commission.

ZONING PUBLIC HEARING

The Planning Commission is a recommending body to Richland County Council. Recommendations for "Approval" or "Disapproval" are forwarded to County Council for their consideration at the next Zoning Public Hearing. The Zoning Public Hearing is another opportunity to voice your opinion for or against a rezoning or amendment to the Land Development Code and is open to the public. The County Council Zoning Public Hearing is usually scheduled for the 4th Tuesday of the month at 7:00 p.m. Check the County's website for dates and times.

Planning & Development Services Department**

Map Amendment Staff Report

PC MEETING DATE: February 5, 2017
RC PROJECT: 16-41 MA
APPLICANT: Robert F. Fuller

LOCATION: Clemson Road

TAX MAP NUMBER: R20200-03-45
ACREAGE: 10.38 acres
EXISTING ZONING: RU
PROPOSED ZONING: OI

PC SIGN POSTING: January 24, 2017

Staff Recommendation

Approval

Background

Zoning History

The original zoning as adopted September 7, 1977 was Rural District (RU).

The subject property was part of a previous zoning request under case number 14-29MA from RU to GC. The request was denied by County Council.

Zoning History for the General Area

The Neighborhood Commercial District (NC) parcels west of the subject site were approved under Ordinance No. 073-07HR (case number 07-31MA).

The Neighborhood Commercial District (NC) parcel further west of the subject site was approved under Ordinance No. 008-12HR (case number 12-03MA).

The Planned Development District (PDD) parcel further northwest of the subject site was approved under Ordinance No. 112-95HR (case number 95-026MA).

Zoning District Summary

The Office and Institutional District (OI) is intended to accommodate office, institutional, and certain types of residential uses in an area whose characteristics are neither general commercial nor exclusively residential in nature. Certain related structures and uses required to serve the needs of the area are permitted outright or are permitted as special exceptions subject to restrictions and requirements.

No minimum lot area, except as determined by DHEC.*In calculating the maximum number of dwelling units, site characteristics, restrictions, land used for installation of infrastructure (which often amounts to 20-30% of the site), or application of open space provisions are not taken into consideration.

Direction	Existing Zoning	Use
<u>North:</u>	PDD/RS-MD	Commercial Development/Undeveloped
<u>South:</u>	RM-HD	Residential Subdivision (Brookfield)
<u>East:</u>	RS-LD/ RS-LD	Drive to Brookfield/Residential Subdivision (Copperfield)
<u>West:</u>	RM-HD	Residential Subdivision (Brookfield)

Discussion

Parcel/Area Characteristics

The parcel contains frontage along Clemson Road and is currently undeveloped. Clemson Road is a five lane undivided Minor Arterial with sidewalks. The immediate area west is primarily characterized by retail commercial uses near the intersection of Hardscrabble Road. The section of Clemson Road east of the Hardscrabble Road and Clemson Road intersection moving east up to North Springs Road remains mostly residential in nature. South and adjacent west of the subject parcel is a fully-developed, single family residential subdivision, Brookfield. East of the subject parcel is fully-developed, single family residential subdivision, Copperfield. North of the subject parcel is an undeveloped Residential Single-Family Medium Density (RS-MD) District parcel and northwest is a commercial PDD.

The parcel along the eastern section of the subject parcel will be utilized for a South Carolina Department of Transportation (SCDOT) project to provide primary access to the Brookfield Subdivision due to the widening project for Hardscrabble Road. The road will be constructed to SCDOT standards and will be deeded to the county for maintenance.

Public Services

The subject parcels are within the boundaries of School District Two. Killian Elementary School is 1.2 miles west of the subject parcel on Clemson Road. North Springs Elementary School is 1.1 miles east of the subject parcel on Clemson Road. Water and sewer service would be provided by the City of Columbia*. There is one fire hydrant located west of the property on Clemson Road. The Elders Pond fire station (station number 34) is located on Elders Pond Drive, approximately 0.5 miles north of the subject parcel.

*Being within a service area is not a guarantee that services are available to the parcel.

Plans & Policies

The 2014 Richland County Comprehensive Plan, **“PUTTING THE PIECES IN PLACE”**, designates this area as **Neighborhood Medium Density** and is specifically located in a **Neighborhood Activity Center**.

Neighborhood Medium Density

Land Use and Character

Areas include medium-density residential neighborhoods and supporting neighborhood commercial scale development designed in a traditional neighborhood format. These neighborhoods provide a transition from Neighborhood (Low-Density) to more intense Mixed Residential (High-Density) urban environments. Multi-family development should occur near activity centers and within Priority Investment Areas with access to roadways with adequate capacity and multimodal transportation option. Non-residential development may be considered for location along main road corridors and within a contextually-appropriate distance from the intersection of a primary arterial.

Desired Development Pattern

The primary use within this area is medium density residential neighborhoods designated to provide a mix of residential uses and densities within neighborhoods. Neighborhoods should be connected and be designated using traditional grid or modified grid designs. Non-residential uses should be designed to be easily accessible to surrounding neighborhoods via multiple transportation modes.

Neighborhood Activity Center

Land Use and Design

A Neighborhood Activity Center should provide the commercial and institutional uses necessary to support the common day-to-day demands of the surrounding neighborhood for goods and services. The Neighborhood Activity Center should also supply limited local office space demanded by neighborhood businesses, and may provide medium-density housing for the neighborhood, conveniently located near the center's shopping and employment. A grocery store or drug store will normally be the principal establishment in neighborhood activity centers, but could also include restaurants, coffee shops, dry cleaners, small banking facilities, and other convenience retail.

Traffic Characteristics

The 2015 SCDOT traffic count (Station #440) located adjacent to the subject parcel on Clemson Road identifies 24,900 Average Daily Trips (ADT's). Clemson Road is classified as a four lane undivided minor arterial road, maintained by SCDOT with a design capacity of 21,600 ADT's. This segment of Clemson Road is currently operating at Level of Service (LOS) “D”.

There are planned improvements for this section of Clemson Road through the County Penny Sales Tax program (sidewalk and bikeway enhancements), but none scheduled through SCDOT. Hard Scrabble Road, which intersects Clemson Road near this location, is scheduled to be widened from Clemson Road to Lake Carolina Boulevard through SCDOT (COATS road widening).

Conclusion

The proposed rezoning would be consistent with the objectives outlined in the Comprehensive Plan. The proposed district is in character with the land uses and desired development pattern recommended in the 2014 Comprehensive Plan.

Although the site is located east of the commercial development found at the intersection of Hardscrabble Road and Clemson Road, staff believes approving the OI District would be an appropriate transitional zoning district moving east of the intersection.

Further, approval of the rezoning request would be in character with the existing residential and commercial development patterns and zoning districts along this section of Clemson Road.

For these reasons, staff recommends **Approval** of this map amendment.

Map Amendment Staff Report

PC MEETING DATE: February 6, 2017
RC PROJECT: 16-042 MA
APPLICANT: Hugh A. Palmer

LOCATION: Corner of Longtown Road East and Rimer Pond Road

TAX MAP NUMBER: R20500-04-27(Portion of)
ACREAGE: 5.23 acres (portion of a 31.23 acre tract)
EXISTING ZONING: RS-MD
PROPOSED ZONING: RC

PC SIGN POSTING: January 24, 2017

Staff Recommendation

Approval

Background

Zoning History

The original zoning as adopted September 7, 1977 was Rural District (RU).

The subject parcel was part of a previous zoning request from Residential Single-Family Medium Density (RS-MD) District to Rural Commercial District (RC) (case number 015-043MA). The case was denied by County Council.

The subject parcel was also part of another previous zoning request from Residential Single-Family Medium Density (RS-MD) District to Rural Commercial District (RC) (case number 015-09MA). The case was withdrawn by the applicant.

The subject parcel was rezoned from RU to Residential Single-Family Medium Density (RS-MD) District under ordinance number 081-08HR (case number 08-29MA).

Zoning History for the General Area

A parcel east of the site with frontage along Rimer Pond Road was rezoned from RU to Residential Single-family Low Density (RS-LD) District under case number 16-044MA.

The parcel adjacent east of the site was rezoned from RU to Residential Single-Family Medium Density (RS-MD) District under ordinance number 080-08HR (case number 08-28MA).

The parcels southwest of the site along Longtown Road West were rezoned from RU to Residential Single-Family Low Density (RS-LD) District under ordinance number 062-11HR (case number 11-14MA).

Zoning District Summary

The Rural Commercial District (RC) recognizes the need to provide for areas within Richland County where residents of the more isolated agricultural and rural residential districts and residents located beyond the limits of service of the municipalities can receive convenience merchandising and services. It is intended to be a flexible district allowing a mixture of uses in order to accommodate commercial and service activities oriented primarily to serving the needs of persons who live in nearby areas. The RC District is proposed to be within or adjacent to residential neighborhoods where large commercial uses are inappropriate, but where small neighborhood oriented businesses are useful and desired. This district is further designed to be located at or near intersections of arterial and/or major collector roads so as to prevent the spreading of commercial uses down the major corridors or into the surrounding countryside.

Minimum lot area/maximum density: Minimum lot area requirement: 22,000 square feet or as required by DHEC. Maximum density: there is no maximum density standard.

Direction	Existing Zoning	Use
<u>North:</u>	RU	Residence
<u>South:</u>	RS-MD/RS-LD	Undeveloped/ Undeveloped
<u>East:</u>	RS-MD	Undeveloped
<u>West:</u>	RU	Blythewood Middle School

Discussion

Parcel/Area Characteristics

The site has frontage along Rimer Pond Road and Longtown Road East. The site has little slope and is undeveloped except for a telecommunications tower. There are no sidewalks or streetlights along Rimer Pond Road and Longtown Road East. The surrounding area is primarily characterized by an institutional use, residential uses, and undeveloped parcels. North of the site is a large lot residence. The parcels east of the site are part of a residential subdivision (SD13-13). West of the site is Blythewood Middle School. South of the site is undeveloped.

Public Services

The Blythewood fire station (station number 26) is located on Main Street, approximately 1.25 miles northwest of the subject parcel in the Town of Blythewood. Records indicate that the parcel is in the City of Columbia's water service area and located in Palmetto Utilities sewer service area*.

*Being within a service area is not a guarantee that services are available to the parcel.

Plans & Policies

The 2014 Richland County Comprehensive Plan, **"PUTTING THE PIECES IN PLACE"**, designates this area as **Neighborhood Medium Density**.

Land Use and Character

Areas include medium-density residential neighborhoods and supporting neighborhood commercial scale development designed in a traditional neighborhood format. These neighborhoods provide a transition from Neighborhood (Low-Density) to more intense Mixed Residential (High-Density) urban environments. Multi-family development should occur near

activity centers and within Priority Investment Areas with access to roadways with adequate capacity and multimodal transportation option. Non-residential development may be considered for location along main road corridors and within a contextually-appropriate distance from the intersection of a primary arterial.

Desired Development Pattern

The primary use within this area is medium density residential neighborhoods designated to provide a mix of residential uses and densities within neighborhoods. Neighborhoods should be connected and be designated using traditional grid or modified grid designs. Non-residential uses should be designed to be easily accessible to surrounding neighborhoods via multiple transportation modes.

Traffic Characteristics

The 2015 SCDOT traffic count (Station #705) located east of the subject parcel on Rimer Pond Road identifies 4,300 Average Daily Trips (ADT's). Rimer Pond Road is classified as a two lane undivided major collector road, maintained by SCDOT with a design capacity of 8,600 ADT's. This segment of Rimer Pond Road is currently operating at Level of Service (LOS) "B".

The 2015 SCDOT traffic count (Station #713) located adjacent the subject parcel on Longtown Road East identifies 3,200 Average Daily Trips (ADT's). Longtown Road East is classified as a two lane undivided major collector road, maintained by SCDOT with a design capacity of 8,600 ADT's. This segment of Longtown Road East is currently operating at Level of Service (LOS) "A".

There are no planned or programmed improvements for these sections of Rimer Pond Road or Longtown Road East, either through SCDOT or the County Penny Sales Tax program.

Conclusion

The subject property is located at a traffic junction and near institutional uses.

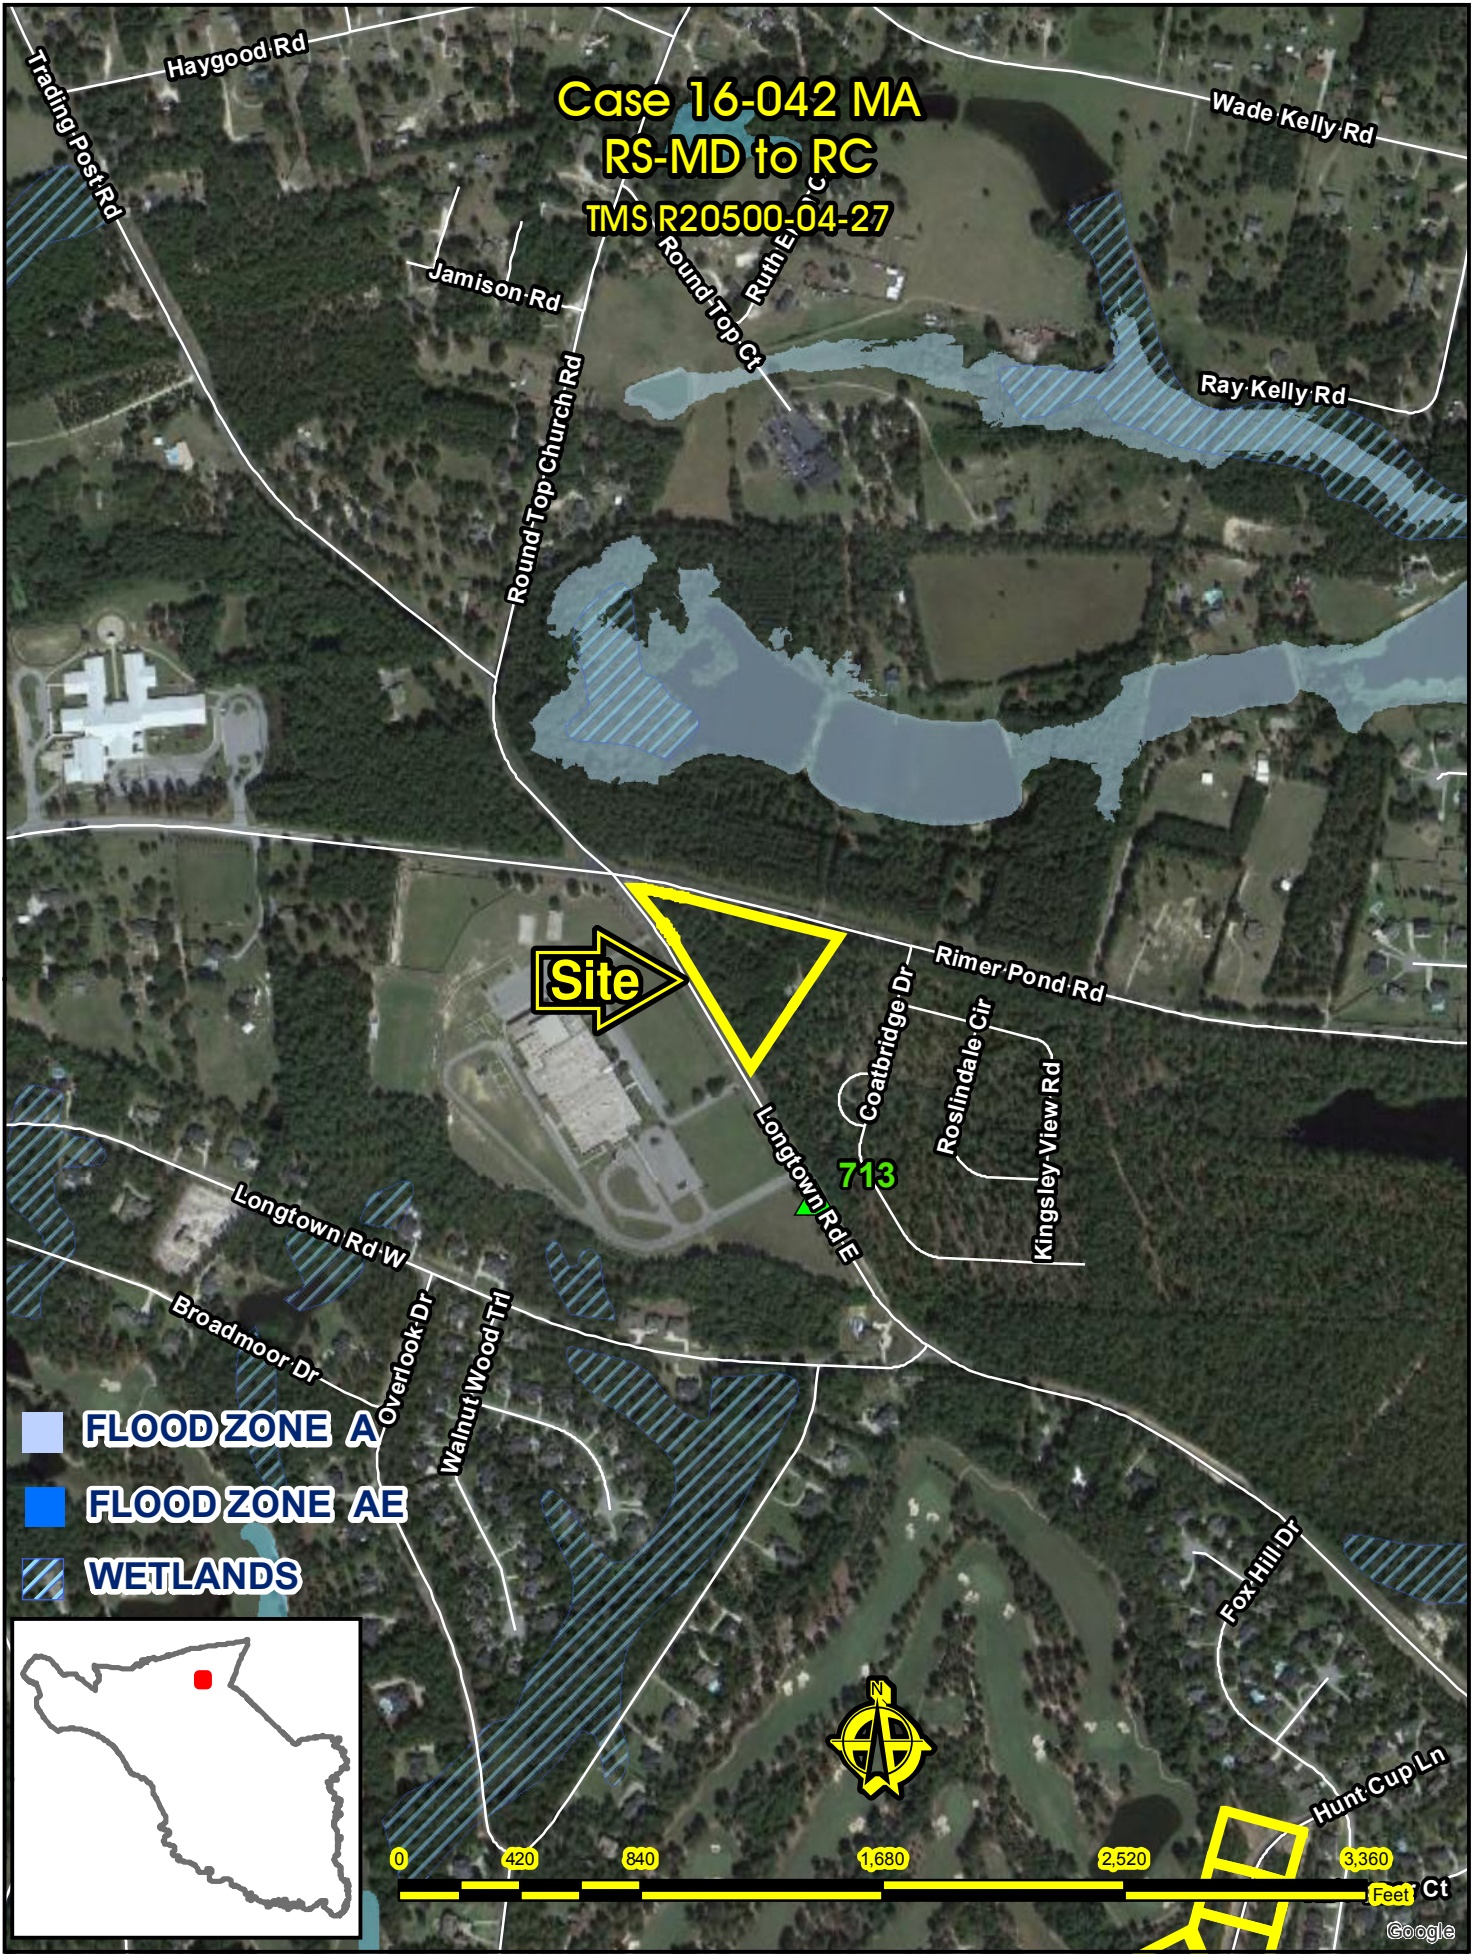

The intent of the RC District is to orient primarily to major traffic arteries or areas of commercial usage. Staff is of the opinion that the request is in compliance with the objective for commercial uses as outlined in the Suburban Future Land Use designation and the proposed rezoning would be consistent with the intentions of the 2014 Comprehensive Plan. Approval of the rezoning request would not be out of character with the existing, surrounding, development pattern and zoning districts for the area.

For these reasons, staff recommends **Approval** of this map amendment.

Map Amendment Staff Report

PC MEETING DATE: February 6, 2017
RC PROJECT: 16-043 MA
APPLICANT: Carl Gibson

LOCATION: Montgomery Lane

TAX MAP NUMBER: R18800-02-39
ACREAGE: 2.5 acres
EXISTING ZONING: RU
PROPOSED ZONING: HI

PC SIGN POSTING: January 20, 2017

Staff Recommendation

Disapproval

Background

Zoning History

The original zoning as adopted September 7, 1977 was Rural District (RU).

Zoning History for the General Area

A parcel east of the site, which is part of Westinghouse, was rezoned from RU to Heavy Industrial District (HI) under ordinance number 078-09HR (case number 09-13MA).

The parcels south of the site were rezoned from RU to Light Industrial District (M-1) under ordinance number 2248-92HR (case number 92-31MA).

Zoning District Summary

The proposed zoning, Heavy Industrial (HI) District is intended to primarily accommodate uses of a manufacturing and industrial nature, and secondly, uses that are functionally related thereto, such as distribution, storage, and processing. General commercial uses are allowed, but are considered incidental to the predominantly industrial nature of this district.

No minimal lot area except as required by DHEC; and no maximum density standard.

Direction	Existing Zoning	Use
<u>North:</u>	RU	Residence
<u>South:</u>	M-1/RU	Curtis Fabrication/Undeveloped
<u>East:</u>	RU	Undeveloped
<u>West:</u>	RU	Residence

Discussion

Parcel/Area Characteristics

The site has frontage along Montgomery Lane. The subject property is currently undeveloped. There are no sidewalks or streetlights along this section of Montgomery Lane. The surrounding area is characterized by residential uses to the north and west with an Industrial uses to the south. There are undeveloped parcels east of the site.

Public Services

The Industrial Park fire station (station number 3) is located on The Boulevard, approximately 4.21 miles northwest of the subject parcel. Records indicate that water is provided by well and sewer would be provided by septic tank.

Plans & Policies

Comprehensive Plan

The 2014 Richland County Comprehensive Plan, "PUTTING THE PIECES IN PLACE", designates this area as **Rural**.

Land Use and Design

Areas where rural development and smaller agricultural operations are appropriate. These areas serve as a transition between very low density rural areas and suburban neighborhood developments. The areas could include rural subdivisions and open space subdivisions. These subdivisions would support lots that are smaller than the Rural Large Lot land use, but larger than lots characteristic of neighborhood low density. Rural areas should be designed to maintain large tracts of undisturbed land, particularly areas of prime environmental value. Rural developments should provide natural buffering between adjacent uses. Appropriate roadway buffers should result in creating a natural road corridor with limited visibility into developed areas.

Desired Development Pattern

Rural areas should be designed to accommodate single-family residential developments in a rural setting. This includes master planned, rural subdivisions. Open space developments that set aside open space and recreational areas are an alternative form of Rural development. Open space developments are a land development design tool that provides a means of both preserving open space and allowing development to be directed away from natural and agricultural resources. These designs often allow for the increased density of lot sizes in trade for the protection of surrounding, larger open spaces. Commercial development should be limited to Rural Activity Centers.

Traffic Characteristics

The 2015 SCDOT traffic count (Station #411) located adjacent the subject parcel on Montgomery Lane identifies 400 Average Daily Trips (ADT's). Montgomery Lane is classified as a two lane undivided principal arterial road, maintained by SCDOT with a design capacity of 14,600 ADT's. This segment of Montgomery Lane is currently operating at Level of Service (LOS) "A".

There are no planned or programmed improvements for this section of Montgomery Lane, either through SCDOT or the County Penny Sales Tax program.

Conclusion

The intent of the HI District is to accommodate uses of a manufacturing and industrial nature, and secondly, uses that are functionally related thereto, such as distribution, storage, and processing.

Staff is of the opinion that the proposed rezoning would be inconsistent with the intentions of the 2014 Comprehensive Plan, as Industrial uses are not supported by the desired development patten nor is the proposed district supportive of agricultural. Approval of the requested zoning would be out of character with the existing uses in the area.

For these reasons, staff recommends **Disapproval** of this map amendment.

Map Amendment Staff Report

PC MEETING DATE: February 6, 2017
RC PROJECT: 16-044 MA
APPLICANT: Gabriel McFadden

LOCATION: Dutch Fork Road

TAX MAP NUMBER: R01507-02-05
ACREAGE: 1.21 acres
EXISTING ZONING: RU
PROPOSED ZONING: GC

PC SIGN POSTING: January 24, 2017

Staff Recommendation

Disapproval

Eligibility for Map Amendment Request

Minimum area for zoning map amendment application. No request for a change in zoning classification shall be considered that involves an area of less than two (2) acres, except changes that involve one of the following: (Ord. 038-09HR; 7-21-09).

In accordance with **Section 26-52. Amendments (b) (2) b. 1.** An extension of the same existing zoning district boundary.

Background

Zoning History

The original zoning as adopted September 7, 1977 was Rural District (RU).

Zoning History for the General Area

The GC parcel north of the site was rezoned from Rural District (RU) to General Commercial District (GC) under case number 07-046MA (Ordinance number 086-07HR).

The GC parcel northeast of the site was rezoned from Rural District (RU) to General Commercial District (GC) under case number 12-002MA (Ordinance number 062-06HR).

The GC parcel west of the site was rezoned from RU to General Commercial District (GC) under case number 06-19MA (Ordinance number 062-06HR).

Zoning District Summary

The General Commercial (GC) District is intended to accommodate a variety of commercial and non-residential uses characterized primarily by retail, office, and service establishments oriented primarily to major traffic arteries or extensive areas of predominantly commercial usage.

No minimum lot area, except as required by DHEC. The maximum allowed density for residential uses is sixteen (16) dwelling units per acre.

Based upon a gross density calculation, the maximum number of units for this site is approximately: 19 dwelling units*.

*In calculating the maximum number of dwelling units, site characteristics, restrictions, land used for installation of infrastructure (which often amounts to 20-30% of the site) are not taken into consideration.

Direction	Existing Zoning	Use
<u>North:</u>	GC	Equipment (Stanick Roofing/boxing)
<u>South:</u>	RU/RU	Residence/ Undeveloped
<u>East:</u>	RU	Residence
<u>West:</u>	RU	Undeveloped

Discussion

Parcel/Area Characteristics

The site contains frontage along Dutch Fork Road. Dutch Fork Road is a two-lane undivided minor arterial without sidewalks and streetlights along this section. The immediate area is primarily characterized by residential uses and zoning districts south, east and west of the subject site. Located north of the site, is railroad r.o.w and a portion of a GC property that contains roofing equipment.

Public Services

The subject parcel is within the boundaries of Lexington/Richland School District Five. Lake Murray Elementary School is located .53 miles south of the subject parcel on Three Dog Road. Records indicate that the parcel is in the City of Columbia's water service area and is in within Richland County's sewer service area *. There is a fire hydrant located east of the site. The Dutch Fork/Ballentine fire station (station number 20) is located on Broad River Road, approximately 3.89 miles east of the subject parcels.

*Being within a service area is not a guarantee that services are available to the parcel.

Plans & Policies

The 2014 Richland County Comprehensive Plan, "**PUTTING THE PIECES IN PLACE**", designates this area as **Neighborhood Low Density**.

Land Use and Design

Areas where low-density residential is the primary use. These areas serve as a transition between Rural and Neighborhood (Medium-Density) areas, and are opportunities for low-density traditional neighborhood development and open space developments that preserve

open spaces and natural features. Commercial development should be located within nearby Neighborhood Activity Centers, and may be considered for location along main road corridors and within a contextually-appropriate distance from the intersection of a primary arterial. Places of worship and parks are appropriate institutional uses, but should be designed to mitigate impacts on surrounding neighborhoods. Industrial development with significant community impacts (i.e., noise, exhaust, odor, heavy truck traffic) is discouraged in these areas.

Desired Development Pattern

Lower-density, single-family neighborhood developments are preferred. Open space developments that provide increased densities in trade for the protection of open spaces and recreational areas are also encouraged (see Desired Pattern for Rural areas for more information on open space developments). Residential developments that incorporate more open spaces and protection of natural areas through the use of natural stormwater management techniques, such as swales, are encouraged. Homes in neighborhoods can be supported by small-scale neighborhood commercial establishments located at primary arterial intersections, preferably within Neighborhood Commercial Activity Centers.

Traffic Characteristics

The 2015 SCDOT traffic count (Station #144) located west of the subject parcel on Dutch Fork Road identifies 10,800 Average Daily Trips (ADT's). Dutch Fork Road is classified as a two lane undivided minor arterial road, maintained by SCDOT with a design capacity of 10,800 ADT's. Dutch Fork Road is currently operating at Level of Service (LOS) "C".

There are no planned or programmed improvements for this section of Two Notch Road through the County Penny Sales Tax program. However, a 3.12 mile section of Dutch Fork Road from Twin Gates Road to Three Dog Road, just west of the subject parcel, has been identified for road widening in the 2035 COATS Long Range Transportation Plan.

Conclusion

Staff is of the opinion that the proposed rezoning would not be consistent with the objectives outlined in the Comprehensive Plan.

The Plan recommends commercial development within Neighborhood Activity Centers and within contextually-appropriate distances from the intersection of a primary arterial. The subject parcel is not located at a traffic junction and is not within a contextually-appropriate distance of an intersection or Neighborhood Activity Center. The Plan also discourages "...strip commercial development or fragmented 'leapfrog' development patterns along corridors." The proposed zoning would "leap frog", as it would add to the current fragmented zoning pattern in the area.

For these reasons, staff recommends **Disapproval** of this map amendment.

Map Amendment Staff Report

PC MEETING DATE: February 6, 2017
RC PROJECT: 16-045 MA
APPLICANT: Johnathan L. Yates

LOCATION: 200 Summit Parkway

TAX MAP NUMBER: R23011-01-01
ACREAGE: 40.01 acres
EXISTING ZONING: PDD
PROPOSED ZONING: PDD

PC SIGN POSTING: January 24, 2017

Staff Recommendation

Approval

Background

Zoning History

The subject parcel is part of the Summit Planned Development District (PDD). The parcels north, west and south were rezoned under case number 88-040MA (Ordinance number 1792-88HR) on November 15th, 1988 and further amended under 93-10MA.

Zoning History for the General Area

A portion of the Planned Development District (PDD) parcels, further west of the subject parcel was rezoned from PDD to PDD under case number 02-058MA (Ordinance Number 045-02HR).

A portion of the Planned Development District (PDD) parcels, south of the subject parcel was rezoned from PDD to PDD under case number 12-021MA (Ordinance Number 037-12HR).

A portion of the Planned Development District (PDD) parcels, west of the subject parcel was rezoned from PDD to PDD under case number 14-001MA (Ordinance Number 007-14HR).

Zoning District Summary

The Planned Development (PDD) District is intended to allow flexibility in development that will result in improved design, character, and quality of new mixed-use developments, and that will preserve natural and scenic features of open spaces. Planned Development Districts must involve innovation in site planning for residential, commercial, institutional, and/or industrial developments within the district. Such developments must be in accordance with the comprehensive plan for the county, and in doing so, may provide for variations from the regulations of the county's zoning districts concerning use, setbacks, lot size, density, bulk, and other such requirements.

Direction	Existing Zoning	Use
<u>North:</u>	PDD	Single-family dwellings
<u>South:</u>	PDD	Single-family dwellings
<u>East:</u>	RS-MD	Single-family dwellings
<u>West:</u>	PDD	Office uses

Discussion

Parcel/Area Characteristics

The subject parcel has frontage along Summit Parkway and Rhame Road. The parcel contains a middle school (Summit Parkway Middle). There is a portion of the parcel with sidewalks along Rhame Road. There are sidewalks and streetlights along this section of Summit Parkway.

The surrounding area is characterized by residential uses north, east, and south with office and commercial uses west of the subject parcel.

Master Plan

The PDD land use designation for the subject parcel is School (S) which permits institutional uses, specifically a school use. The following additional use is proposed for the site:

1. One hundred and twenty (120) foot monopole Telecommunications Tower.

Public Services

The subject parcel is within the boundaries of School District Two. The Summit Parkway Middle Elementary School is located on the subject parcel. The Elders Pond fire station (station number 34) is located on Elders Pond Drive, approximately 1.48 miles west of the subject parcel. Records indicate that the parcel is within the City of Columbia’s water service area*. Records indicate that the parcel is within Palmetto Utilities service area*.

*Being within a service area is not a guarantee that services are available to the parcel.

Plans & Policies

The 2014 Richland County Comprehensive Plan, **“PUTTING THE PIECES IN PLACE”**, designates this area as **Neighborhood Medium Density**.

Land Use and Design

Areas include medium-density residential neighborhoods and supporting neighborhood commercial scale development designed in a traditional neighborhood format. These neighborhoods provide a transition from Neighborhood (Low-Density) to more intense Mixed Residential (High-Density) urban environments. Multi-family development should occur near activity centers and within Priority Investment Areas with access to roadways with adequate capacity and multimodal transportation options. Nonresidential development may be considered for location along main road corridors and within a contextually-appropriate distance from the intersection of a primary arterial.

Desired Development Pattern

The primary use within this area is medium density residential neighborhoods designed to provide a mix of residential uses and densities within neighborhoods. Neighborhoods should be connected and be designed using traditional grid or modified grid designs. Non-residential uses should be designed to be easily accessible to surrounding neighborhoods via multiple transportation modes.

Traffic Characteristics

The 2015 SCDOT traffic count (Station #441) located south of the subject parcel on Clemson Road identifies 28,100 Average Daily Trips (ADT's). This section of Clemson Road is classified as a five lane undivided minor arterial road, maintained by SCDOT with a design capacity of 24,800 ADT's. This segment of Clemson Road is currently operating at Level of Service (LOS) "D".

There are no planned or programmed improvements for these sections of Summit Parkway or Clemson Road, either through SCDOT or the County Penny Sales Tax program.

Conclusion

Staff is of the opinion that the request is in compliance with the purpose statement of the proposed district to provide mixed uses. The request adds a single use within an existing PDD that is not associated with traffic generation.

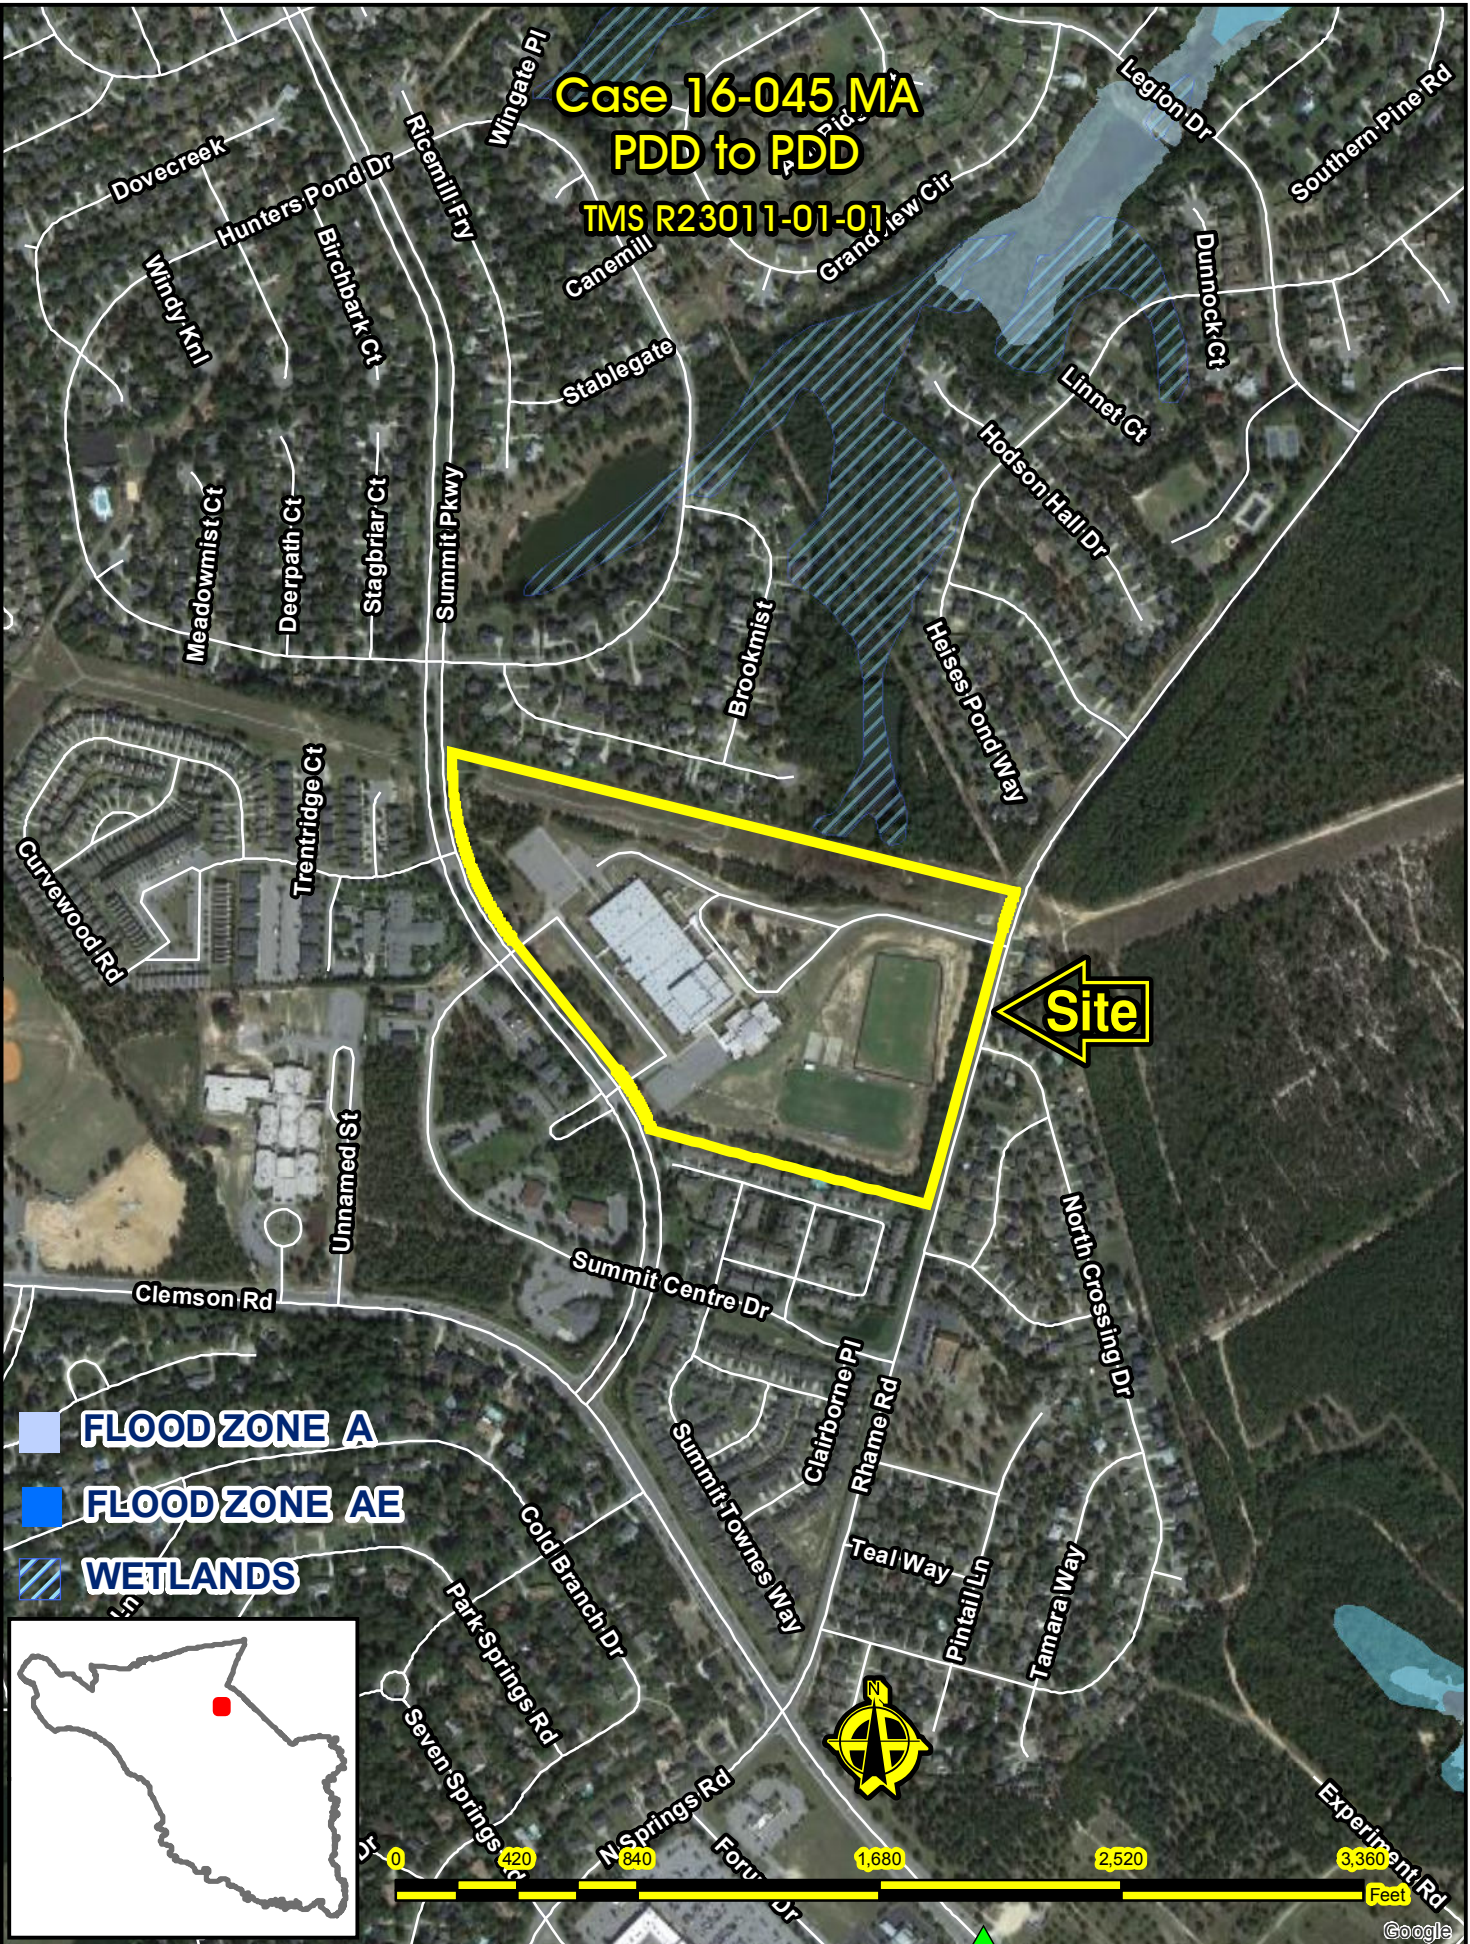

Approval of the rezoning request would be in character with the existing surrounding development pattern and uses.

For these reasons, staff recommends **Approval** of this map amendment.

Map Amendment Staff Report

PC MEETING DATE: February 6, 2017
RC PROJECT: 17-02 MA
APPLICANT: J. Guadalupe Torres

LOCATION: Inland Drive

TAX MAP NUMBER: R06015-01-20
ACREAGE: 0.34 acres
EXISTING ZONING: OI
PROPOSED ZONING: RS-MD

PC SIGN POSTING: January 24, 2017

Staff Recommendation

Approval

Background

Zoning History

The original zoning as adopted September 7, 1977 was Office and Institutional District (C-1). With the adoption of the 2005 Land Development Code the C-1 District was designated Office and Institutional District (OI).

Zoning District Summary

The Residential Single-Family Medium Density District (RS-MD) is intended as a single family, detached residential district of medium densities, and the requirements for this district are designed to maintain a suitable environment for single family living.

Minimum lot area is 8,500 square feet, or as determined by DHEC. The maximum density standard: no more than one principal dwelling unit may be placed on a lot except for permitted accessory dwellings.

Based upon a gross density calculation*, the maximum number of units for this site is approximately: 1 dwelling unit.

*In calculating the maximum number of dwelling units, site characteristics, restrictions, land used for installation of infrastructure (which often amounts to 20-30% of the site), or application of open space provisions are not taken into consideration.

Direction	Existing Zoning	Use
<u>North:</u>	GC/OI	Undeveloped
<u>South:</u>	RS-MD	Residence
<u>East:</u>	GC	Residence on commercial
<u>West:</u>	OI	Residence

Discussion

Parcel/Area Characteristics

The subject parcel has frontage along Inland Drive. There are no sidewalks or street lights along this section of Inland Drive. The parcel is undeveloped. The immediate area is characterized by residential and commercial uses. North of the subject parcel is undeveloped. South and west of the parcel are residential uses. East of the site is a GC zoned parcel with a residence.

Public Services

The subject parcel is within the boundaries of School District 1. The W.S. Sandal Elementary School is located 250 feet south of the subject parcel on Seminole Road.

The Saint Andrews fire station (number 6) is located 0.27 miles southwest of the subject parcel on Briargate Circle. There are no fire hydrants along this section of Inland Drive. The parcel is located within the City of Columbia's water and sewer service area*.

*Being within a service area is not a guarantee that services are available to the parcel.

Plans & Policies

The 2014 Richland County Comprehensive Plan, ***"PUTTING THE PIECES IN PLACE"***, designates this area as **MIXED-USE CORRIDOR**.

Comprehensive Plan

Land Use and Character

Areas include established commercial, office, and medium-density residential developments located along principal arterial roads, and exclude established single-family residential subdivisions that may be located in the corridor. Mixed-use corridor areas should provide a vertical and horizontal mix of suburban scale retail, commercial, office, high-density residential, and institutional land uses. Open spaces and parks are also important uses within Mixed-Use Corridors. These corridors are punctuated by higher intensity development located at "nodes" called Activity Centers where the highest density and integration of mixed uses occurs.

Desired Development Pattern

Suburban commercial corridors should be transformed over time from traditional strip commercial development to Mixed-Use Corridors connecting Activity Centers. Between Activity Centers, corridors should be redeveloped to convert single story, single use developments on individual lots to multi-story, mixed use formats that organize uses in a pedestrian-friendly format.

Traffic Characteristics

The 2015 SCDOT traffic count (Station # 181) located southeast of the subject parcel on Broad River Road identifies 36,800 Average Daily Trips (ADT's). This segment of Broad River Road is classified as a four lane divided principal arterial road, maintained by SCDOT with a design capacity of 33,600 ADT's. Broad River Road is currently operating at Level of Service (LOS) "D".

There are no planned or programmed improvements for this section of Broad River Road through SCDOT. The County Penny Sales Tax program has scheduled sidewalk and bikeway improvements for this section of Broad River Road, and it also falls into the Broad River Road Corridor Neighborhood Overlay District.

Conclusion

Staff recommends **Approval**, principally, because the proposed rezoning would be consistent with the basic objectives outlined in the Comprehensive Plan for residential in areas designated as **MIXED-USE CORRIDOR**.

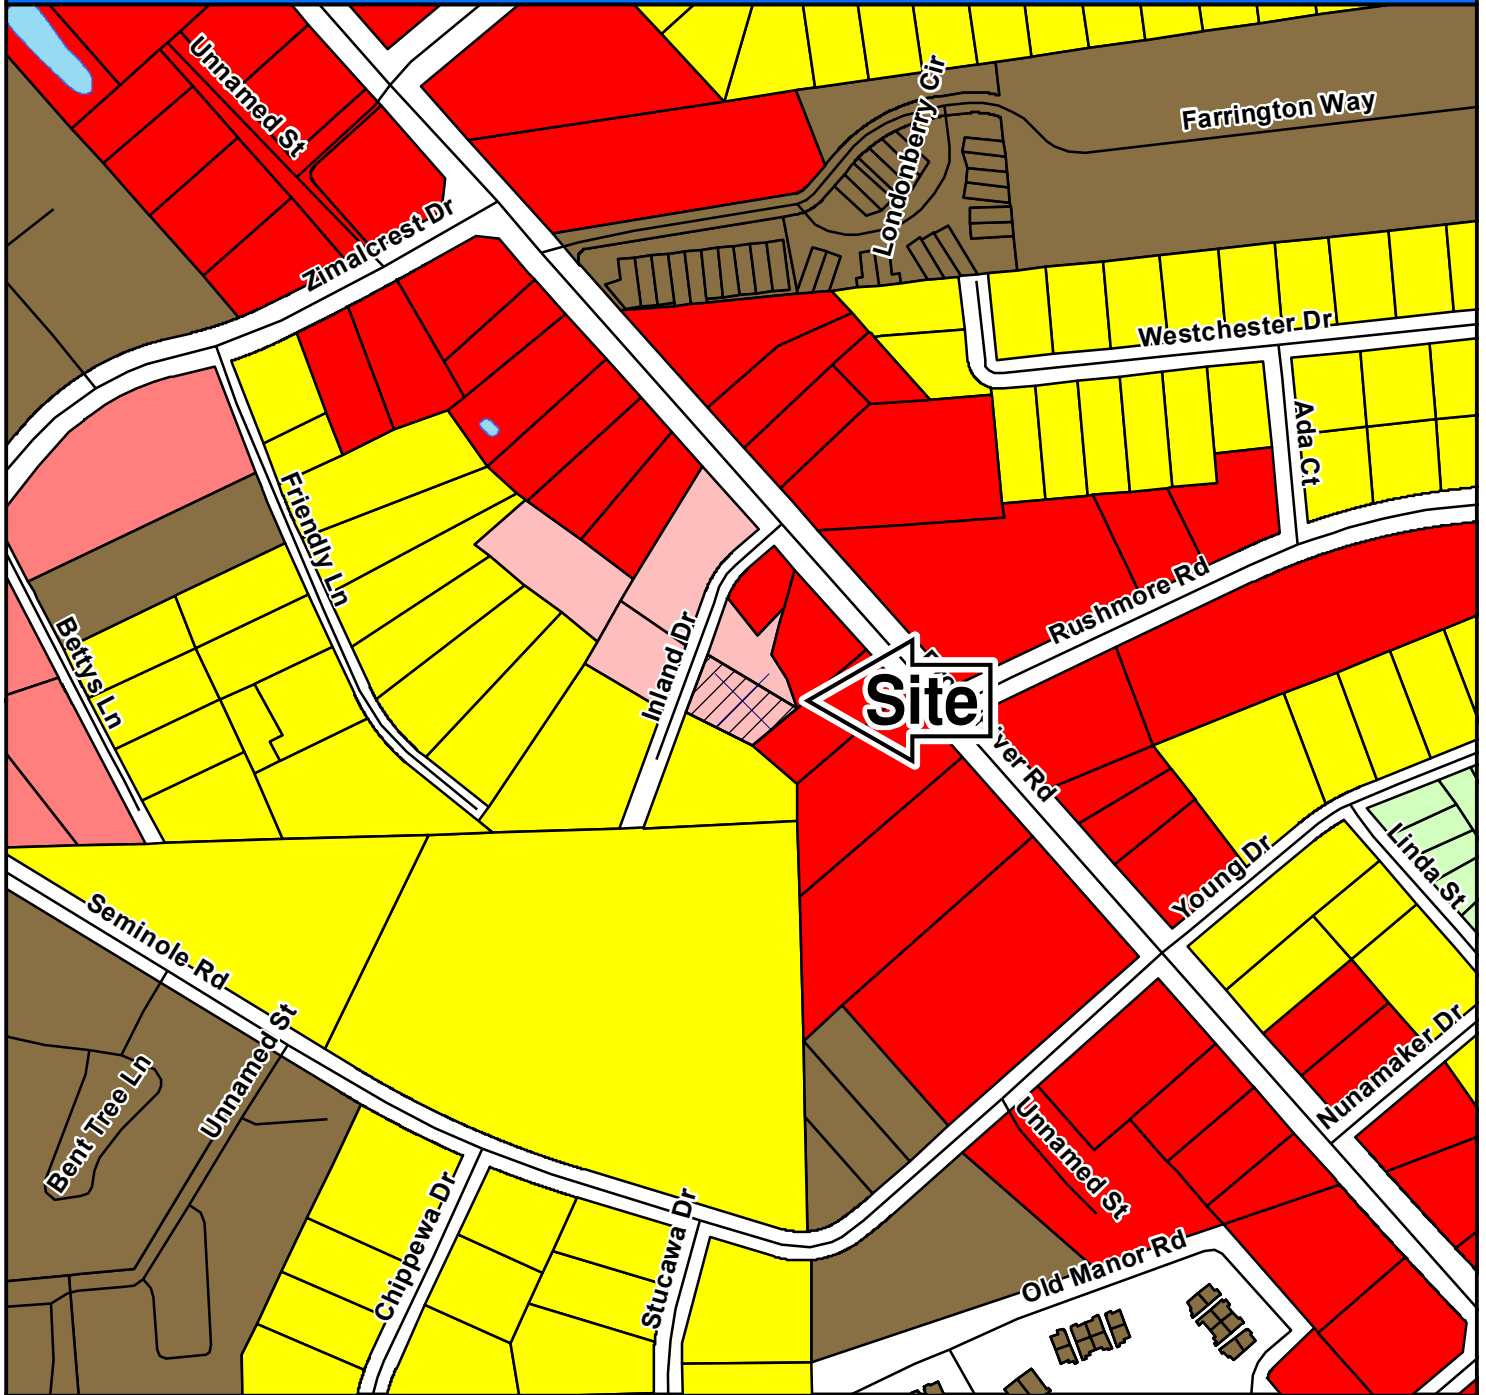

The request can also be viewed as being consistent with the character of the existing residential/institutional development pattern and zoning districts along this section of Inland Drive.
