Attic storage area and interior wall removal at kitchen			COUNTY

All I am doing is demo and framing to remove a wall and raise bathroom ceilings over tub and shower area. Frame in an old storage room door at garage and installing plywood decking. and drywall to the existing framing in the attic over the garage to allow for a storage area. The customer has hired their own subcontractors to do plumbing, electrical and finish work. They are not part of my contract or to be on my permit. They are supposed to be getting their own permits. Scope of work is attached in my signed estimate.
