If the parties **need a status conference for a date certain**, then the parties should look on the public index for the [current jury rosters](#) to see if a date certain or back-up date certain has already been scheduled **(See page 2 for more instructions if needed).**

If the parties agree to a date, they should send in this form with the requested date, and the Chief Administrative Judge will let the parties know if that specific date is still available.

If the case is scheduled for a date certain, the parties should be prepared for that case to go on that date unless extraordinary circumstances exist.

**Date certain
request:**

If the parties **need a status conference for an amended scheduling order**, then the parties should prepare a **detailed consent** scheduling order for the Chief Administrative Judge's review. After reviewing the detailed scheduling order, the judge will determine if a status conference is necessary.

If a status conference is still necessary, then the parties should indicate whether they would like the conference in-person or Webex and select a date.

**Reason for Status
Conference:**
