Background

Zoning History

The original zoning as adopted September 7, 1977 was RS-1 District which became the Residential Single-Family Low Density (RS-LD) District with the Land Development Code change in 2005.

Zoning District Summary

The NC District is intended to accommodate commercial and service uses oriented primarily to serving the needs of persons who live or work in nearby areas. This district is designed to be located within or adjacent to residential neighborhoods where large commercial uses are inappropriate, but where small neighborhood oriented businesses are useful and desired.

There is no minimum lot area except as determined by DHEC. The maximum density standard: no more than eight dwelling units per acre.

Direction	Existing Zoning	Use
<u>North:</u>	RU	Undeveloped
<u>South:</u>	RS-LD	Residence
<u>East:</u>	RU	Agricultural
<u>West:</u>	RU	Agricultural

Discussion

Parcel/Area Characteristics

The parcel has one hundred and fifteen (115) feet of frontage along Lower Richland Boulevard. The site contains a commercial structure and accessory structure, little slope, no sidewalks or streetlights along Lower Richland Boulevard. The immediate area is primarily characterized by residential and agricultural uses. South/southwest of the subject parcel is a residential subdivision Allbene Park. The parcels within Allbene Park are zoned RS-LD District. North of the subject parcel is an agriculturally used parcel and a smaller undeveloped RU parcel.

Public Services

The subject parcel is within the boundaries of School District One. Hopkins Elementary School is located 1.1 miles south of the subject parcel. Lower Richland High School is located 1.2 miles north of the subject parcel. There are no fire hydrants along this section of Lower Richland Boulevard. The Lower Richland fire station (station number 22) is located on Lower Richland Boulevard, approximately 1.6 miles north of the subject parcel. The proposed map amendment would not negatively impact public services or traffic. Water would be provided by well and sewer would be provided by septic.

Plans & Policies

The 2009 Richland County Comprehensive Plan “Future Land Use Map” designates this area as **Rural** in the **South East Planning Area**.

Rural Area

Objective: “Commercial/Office activities should be located at major traffic junctions where existing commercial and office uses are located and not encroach or penetrate established residential areas. Small scale agricultural related commercial uses, located on-site with residences, are appropriate provided adequate buffering/setbacks are available and the commercial use is in character with the area.”

Non-Compliance: The subject parcel is not located at a major traffic junction or where existing commercial and office uses are located. Rezoning the site would encroach upon the well-established, adjacent residential neighborhood.

Lower Richland Neighborhood Master Plan

Rural Residential Area

Lower Richland offers an alternative to the urban and suburban areas of Columbia and Richland County. Balancing the desire to protect this way of life with development pressures is one of the objectives of this plan. Existing constraints (i.e., limited water and sewer service, environmental constraints) will limit the amount of development that will occur in this area over the next twenty years. However, any new development that does occur should be compatible to existing residential and respectful of existing agricultural operations and historic properties.

Current rural zoning allows for one residential unit per 33,000 square feet in the Rural Residential Area of Lower Richland. Future growth should respect this standard. In addition, where appropriate, developers should preserve critical natural or historic resources through context sensitive development methods such as conservation subdivisions. In addition, in order to preserve the rural feel of the area, significant hardwood trees, naturally vegetated areas, and wetlands, particularly Carolina Bays, should be preserved.

Traffic Characteristics

The 2013 SCDOT traffic count (Station #405) located south of the subject parcel on Lower Richland Boulevard, identifies 1950 Average Daily Trips (ADT's). This segment of Lower Richland Boulevard is classified as a two lane undivided major collector, maintained by SCDOT with a design capacity of 8,600 ADT's. Lower Richland Boulevard is currently operating at Level of Service (LOS) "A".

There are no planned improvements for this section of Lower Richland Boulevard, either through SCDOT or the County Penny Tax program.

Conclusion

The Rural future land use designation recommends commercial at major traffic junctions. Staff is of the opinion that approval of the proposed district could contribute to the random and scattered, sprawling, un-concentrated effects of commercial uses in the rural area. In addition approval of the rezoning request would not be in character with the existing, surrounding, agricultural and residential development pattern and zoning districts for the area.

Staff also believes that the proposed rezoning would not be consistent with the intentions of the Comprehensive Plan or the Lower Richland Neighborhood Master Plan.

For these reasons, staff recommends **Disapproval** of this map amendment.

Background

Zoning History

The original zoning as adopted September 7, 1977 was Rural District (RU).

Zoning History for the General Area

The Neighborhood Commercial District (NC) parcels west of the subject site were approved under Ordinance No. 073-07HR (case number 07-31MA).

The Neighborhood Commercial District (NC) parcel further west of the subject site was approved under Ordinance No. 008-12HR (case number 12-03MA).

The Planned Development District (PDD) parcel further northwest of the subject site was approved under Ordinance No. 112-95HR (case number 95-026MA).

Zoning District Summary

The General Commercial (GC) District is intended to accommodate a variety of commercial and non-residential uses characterized primarily by retail, office, and service establishments oriented primarily to major traffic arteries or extensive areas of predominantly commercial usage.

No minimum lot area, except as required by DHEC. The maximum allowed density for residential uses is sixteen (16) dwelling units per acre.

Based upon a gross density calculation, the maximum number of units for this site is approximately: 246 dwelling units.

Direction	Existing Zoning	Use
<u>North:</u>	PDD/RS-MD	Commercial Development/Undeveloped
<u>South:</u>	RM-HD	Residential Subdivision (Brookfield)
<u>East:</u>	RS-LD	Residential Subdivision (Copperfield)
<u>West:</u>	RM-HD	Residential Subdivision (Brookfield)

Discussion

Parcel/Area Characteristics

The parcel contains frontage along Clemson Road, is heavily wooded with a gentle slope and is currently undeveloped. Clemson Road is a five lane undivided Minor Arterial with sidewalks. A portion of the parcel along the eastern edge contains some National Wetlands Inventory (NWI) wetlands and is located in an identified floodplain (“A” zone designation). The immediate area west is primarily characterized by retail commercial uses near the intersection of Hardscrabble Road. The section of Clemson Road east of the Hardscrabble Road and Clemson Road intersection moving east up to North Springs Road remains mostly residential in nature. South and adjacent west of the subject parcel is a fully-developed, single family residential subdivision, Brookfield. East of the subject parcel is fully-developed, single family residential subdivision, Copperfield. North of the subject parcel is an undeveloped Residential Single-Family Medium Density (RS-MD) District parcel and northwest is a commercial PDD.

A portion along the eastern section of the subject parcel will be utilized for a South Carolina Department of Transportation (SCDOT) project to provide primary access to the Brookfield Subdivision due to the widening project for Hardscrabble Road. The road will be constructed to SCDOT standards and will be deeded to the county for maintenance.

Public Services

The subject parcels are within the boundaries of School District Two. Killian Elementary School is 1.2 miles west of the subject parcel on Clemson Road. North Springs Elementary School is 1.1 miles east of the subject parcel on Clemson Road. Water and sewer service would be provided by the City of Columbia. There is one fire hydrant located west of the property on Clemson Road. The Elders Pond fire station (station number 34) is located on Elders Pond Drive, approximately .5 miles north of the subject parcel.

Plans & Policies

The 2009 Richland County Comprehensive Plan “Future Land Use Map” designates this area as **Suburban** in the **North East Planning Area**.

Objective: “Commercial/Office activities should be located at traffic junctions or areas where existing commercial and office uses are located. These uses should not encroach on established residential areas.”

Non-Compliance: The proposed zoning is not located at a traffic junction.

Traffic Characteristics

The 2013 SCDOT traffic count (Station # 440) located adjacent to the subject parcel on Clemson Road identifies 26,500 Average Daily Trips (ADT's). Clemson Road is classified as a five lane undivided minor arterial, maintained by SCDOT with a design capacity of 24,800 ADT's. This segment of Clemson Road is currently operating at Level of Service (LOS) "D".

There are no planned or programmed improvements for this section of Clemson Road, either through SCDOT or the County Penny Sales Tax program. Hard Scrabble Road, which intersects Clemson Road near this location, is scheduled to be widened from Farrow Road to Lake Carolina Boulevard through the County Penny Sales Tax program.

Conclusion

The proposed zoning is not in compliance with the recommended objective for suburban commercial/office activities in the Comprehensive Plan. Although the site is located east of an intersection the commercial districts are established at the intersection of Hardscrabble Road and Clemson Road.

Staff believes approving commercial zoning outside of traffic junctions where a clear terminus has been established for where commercial zoning and uses end (at Hardscrabble Road and Clemson Road) would not maximize the existing commercial zoning in the immediate area and would further spread commercial zoning into areas where more transitional zoning may be more appropriate.

Approval of the rezoning request would be out of character with the surrounding development pattern and zoning districts for the area. Staff believes that the proposed rezoning would not be consistent with the intentions of the Comprehensive Plan.

For these reasons, staff recommends **Disapproval** of this map amendment.

Zoning Public Hearing Date

November 25, 2014,

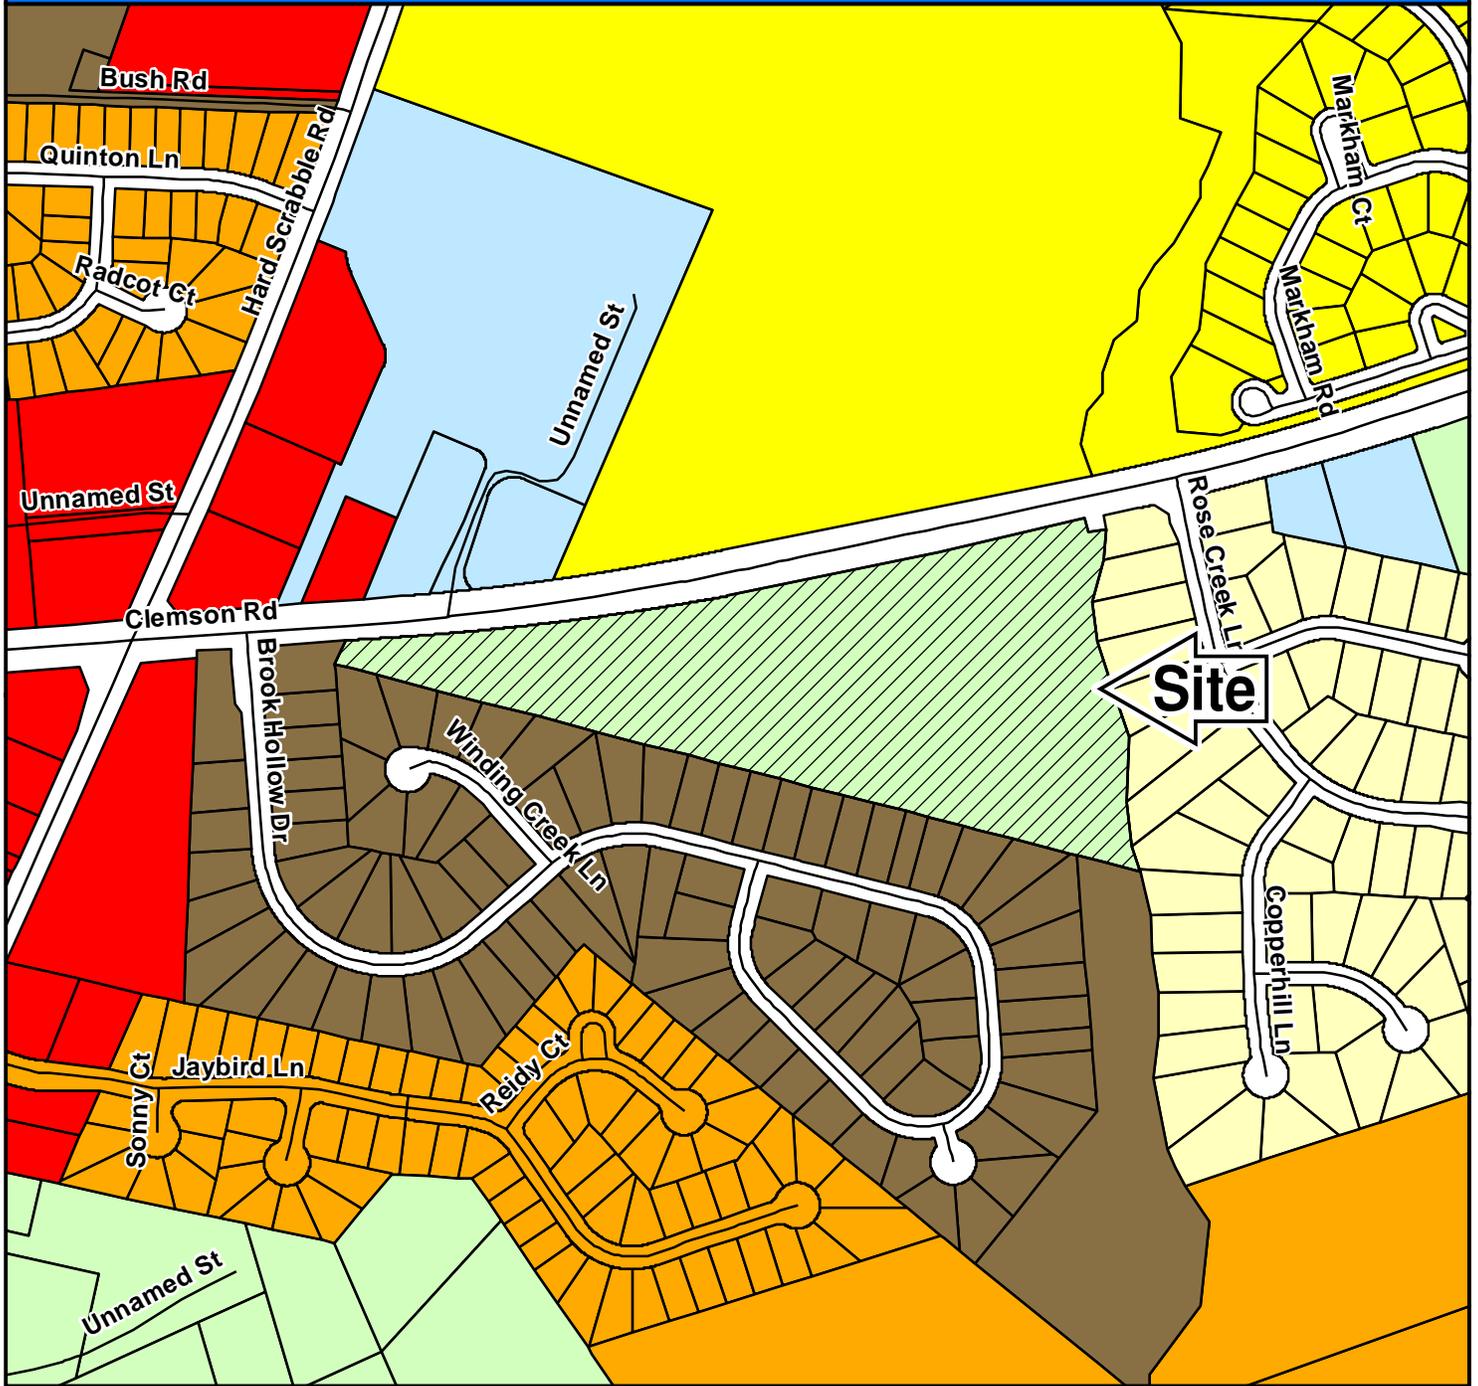

Planning Commission Action

At their meeting of **November 5, 2014** the Richland County Planning Commission **disagreed** with the PDSD recommendation for the following reason:

- The parcel is located at the node.
- The parcel is contiguous to commercial property

The PC recommends the County Council **approve the proposed Amendment for RC Project # 14-29 MA.**

STATE OF SOUTH CAROLINA
COUNTY COUNCIL OF RICHLAND COUNTY
ORDINANCE NO. ____-14HR

AN ORDINANCE OF THE COUNTY COUNCIL OF RICHLAND COUNTY, SOUTH CAROLINA, AMENDING THE ZONING MAP OF UNINCORPORATED RICHLAND COUNTY, SOUTH CAROLINA, TO CHANGE THE ZONING DESIGNATION FOR THE REAL PROPERTY DESCRIBED AS TMS # 20200-03-45 FROM RU (RURAL DISTRICT) TO GC (GENERAL COMMERCIAL DISTRICT); AND PROVIDING FOR SEVERABILITY AND AN EFFECTIVE DATE.

Pursuant to the authority granted by the Constitution of the State of South Carolina and the General Assembly of the State of South Carolina, BE IT ENACTED BY RICHLAND COUNTY COUNCIL:

Section I. The Zoning Map of unincorporated Richland County is hereby amended to change the real property described as TMS # 20200-03-45 from RU (Rural District) zoning to GC (General Commercial District) zoning.

Section II. Severability. If any section, subsection, or clause of this Ordinance shall be deemed to be unconstitutional, or otherwise invalid, the validity of the remaining sections, subsections, and clauses shall not be affected thereby.

Section III. Conflicting Ordinances Repealed. All ordinances or parts of ordinances in conflict with the provisions of this ordinance are hereby repealed.

Section IV. Effective Date. This ordinance shall be effective from and after _____, 2014.

Background

Zoning History

The original zoning for the subject portion, as adopted September 7, 1977 was Residential Single-family Medium Density (RS-2) District. With the adoption of the 2005 Land Development Code the RS-2 District was designated Residential Single-Family Low Density (RS-MD) District.

The original zoning for the front portion, as adopted September 7, 1977 was General Commercial (C-3) District. With the adoption of the 2005 Land Development Code the C-3 District was designated General Commercial (GC) District.

Zoning History for the General Area

Southeast of the site is an Office and Institutional (OI) District parcel with frontage along Greenville Circle and Means Avenue. The parcel was rezoned from Residential Single-family Medium Density (RS-2) District to OI District under case number 85-098MA.

Zoning District Summary

The Office and Institutional District (OI) is intended to accommodate office, institutional, and certain types of residential uses in an area whose characteristics are neither general commercial nor exclusively residential in nature. Certain related structures and uses required to serve the needs of the area are permitted outright or are permitted as special exceptions subject to restrictions and requirements.

No minimum lot area, except as determined by DHEC.

Direction	Existing Zoning	Use

<u>South:</u>	GC	Strip Commercial
<u>East:</u>	GC/RS-MD	Office/Residential
<u>West:</u>	GC	Strip Commercial

Discussion

Parcel/Area Characteristics

The site located at 1224 Broad River Road, has sixty two (62) feet of frontage along Broad River Road and sixty (60) feet of frontage along Greenville Circle. The parcel has little to no slope and contains a former residential structure that has been converted to a commercial use (Palmetto Omni Coach Transportation Services). The rear of the site remains undeveloped. Broad River Road is a five lane principal arterial with sidewalks and scattered streetlamps along this section. The immediate area is primarily characterized by commercial uses along Broad River Road and residential uses along Greenville Circle.

Public Services

The subject parcel is within the boundaries of School District One. H.B. Rhame Elementary School and Saint Andrews Middle School are located .1 miles to the west of the subject parcel.

The Saint Andrews fire station (number 6) is located 1.2 miles northwest of the subject parcel on Briargate Circle. There are fire hydrants located along Broad River Road. The proposed map amendment would not negatively impact public services or traffic. Water and sewer is provided by the City of Columbia.

Plans & Policies

The 2009 Richland County Comprehensive Plan "**Future Land Use Map**" designates this area as **Priority Investment Area** in the **Beltway Planning Area**.

Objective: Commercial/Office activities should be located along arterial roads, traffic junctions, or areas where existing commercial and office uses are located.

Non-Compliance: The subject parcel is located near existing commercial uses and would have primary frontage along Broad River Road; however, the parcel does not complete a block face and would encroach upon an established residential area along Greenville Circle.

Broad River Road Neighborhood Master Plan

Transition Mixed-Use District

The Transition Mixed-Use District is characterized by medium-density, neighborhood-scaled mix of uses located in 2 to 3 story buildings. The district generally encompasses areas within a 1/2-mile walking radius of the "redevelopment nodes". The properties in this district are located predominantly in the vicinity of the minor arterials providing the primary access to the district. Densities less than the Corridor Mixed-Use District but more than the predominantly residential districts described below are supported in this district. Development in this district should ensure adequate transition to the low-density existing residential area. This is accomplished primarily

through placement of densities and intensities along the edges that require buildings to transition in height down to the surrounding residential areas. The Corridor Mixed Use Redevelopment District coincides with the Urban Zone (C4) identified in the Institute of Transportation Engineer's Recommended Practice, Designing Walkable Urban Thoroughfares:

This district is envisioned to be redeveloped with mid-rise buildings between 2-4 stories in height; with an emphasis on creating a diverse stock of housing units such as town homes, garden apartments, and duplexes fitting with the appropriate architectural character, scale and density of the surrounding neighborhoods. This district is not intended for detached single-family residential development in the future. Neighborhood commercial uses may include coffee shops, bakeries, grocery stores, convenience stores, small urgent care or medical clinics, day-care centers, and pocket parks.

Traffic Characteristics

The 2013 SCDOT traffic count (Station # 183) located northwest of the subject parcel on Broad River Road identifies 27,100 Average Daily Trips (ADT's). This segment of Broad River Road is classified as a five lane undivided principal arterial, maintained by SCDOT with a design capacity of 33,600 ADT's. Broad River Road is currently operating at Level of Service (LOS) "C".

There are no planned or programmed improvements for this segment of Broad River Road, either through SCDOT or as part of the County's Transportation Penny Program.

Conclusion

There are existing commercial parcels and uses in the immediate area, however these parcels have frontage along Broad River Road. The proposed rezoning location is not located at a traffic junction, is not on an arterial, would encroach into the established residential area and, thus, is not consistent with the intentions of the Comprehensive Plan Objectives for Commercial in the Priority Investment Area. The parcel is located outside of the center of the Priority Investment Area. The Broad River Road Neighborhood Master Plan recommends development within a ½ mile walking radius of the identified redevelopment nodes. The parcel is located within the ½ mile radius of the Dutch Square Mixed Use Transit Node however; the overarching objectives for the Broad River Road Corridor and Community Master Plan encourage infill, renovation and enhancement of residential areas while preventing commercial encroachment into neighborhoods.

For these reasons, staff recommends **Disapproval** of this map amendment.

Background

Zoning History

The original zoning as adopted September 7, 1977 was Rural District (RU).

Zoning History for the General Area

The Planned Development District (PDD) parcel northeast of the subject parcel with frontage on O'Sheal Road was approved under Ordinance No. 039-05HR (case number 05-052MA).

The Residential Single Family Low Density District (RS-LD) subdivisions, Hillside at St. Johns, St. Johns Place, Creek Wood at St. Johns Place and Roundhill at St. Johns Place, located northwest of the subject parcel was approved under Ordinance No. 029-95HR (case number 95-006MA).

The Residential Single Family Low Density District (RS-LD) subdivision, Palmerston North, located south of the subject parcel was approved under Ordinance No. 052-94HR (case number 94-012MA).

The Residential Single Family Low Density District (RS-LD) subdivision, Ridgecreek, located southwest of the subject parcel on Koon Road was approved under Ordinance No. 2192-92HR (case number 91-035MA).

The Residential Single Family Medium Density District (RS-MD) subdivision, Kingston Ridge, located west of the subject parcel on Old Tamah Road was approved under Ordinance No. 117-06HR (case number 06-058MA).

The Residential Single Family Low Density District (RS-LD) subdivision, Ashford, located further west of the subject parcel on Old Tamah Road and West Shady Grove Road was approved under Ordinance No. 1979-90HR (case number 90-008MA).

A parcel west of the site with frontage on Old Tamah Road and West Shady Grove Road requested a zoning change from Rural District (RU) to Residential Single Family Medium Density District (RS-MD). The request was denied (case number 12-014MA).

A parcel west of the site with frontage on Old Tamah Road requested a zoning change from Rural (RU) District to Office and Institutional District (OI). The request was denied (case number 12-001MA).

Zoning District Summary

The Residential Single Family Low Density District (RS-LD) “is intended as a single family, detached residential district, and the requirements for this district are designed to maintain a suitable environment for single family living. Non-single family development normally required to provide the basic elements of a balanced and attractive residential area is also permitted.”

Minimum lot area is 12,000 square feet, or as determined by DHEC, but in no case shall it be less than 12,000 square feet. The maximum density standard: no more than one principal dwelling unit may be placed on a lot except for permitted accessory dwellings.

Based upon a gross density calculation, the maximum number of units for this site is approximately: 176 dwelling units.

Based upon a bonus density calculation utilizing the open space design standards, the maximum number of units with the maximum allowable bonus density of fifteen (15) percent for this site is approximately: 202 dwelling units.

*Gross density calculations do not consider site characteristics or land set aside for infrastructure or open space.

Direction	Existing Zoning	Use
<u>North:</u>	RU/RU	Residence/Residence
<u>South:</u>	RS-LD/RU	Residential Subdivision/ Undeveloped
<u>East:</u>	RU/RU	Residences/Residences
<u>West:</u>	RU	Dutch Fork High School

Discussion

Parcel/Area Characteristics

The site is located with frontage on Old Tamah Road. The parcel has a gentle to moderate slope toward the north, is heavily vegetated and undeveloped. Old Tamah Road is a two lane collector without sidewalks or streetlights along this section. The immediate area is primarily characterized by residential and institutional uses.

Public Services

The subject parcel is within the boundaries of School District Five. Dutch Fork High School and Dutch Fork Middle School are adjacent west of the subject parcel.

The Ballentine fire station (number 20) is located 2.1 miles northwest of the subject parcel on Broad River Road. There are no fire hydrants located along Old Tamah Road; however, there are fire hydrants located at Dutch Fork High School. The proposed map amendment would not negatively impact public services or traffic. Water is provided by the City of Columbia and sewer is provided by Richland County.

Plans & Policies

The 2009 Richland County Comprehensive Plan “Future Land Use Map” designates this area as **Suburban** in the **North West Planning Area**.

Objective: “Residential areas are encouraged to contain a mix of residential and civic land uses. Existing single family developments may be adjacent to multifamily or a PDD including a buffer from higher intensity uses. Residential developments should occur at medium densities of 4-8 dwelling units per acre.”

Compliance: The proposed rezoning does comply with the Comprehensive Plan’s recommended density for Suburban residential use. The site is located near the Suburban/Rural Land Use designation boundary. The Residential Single-family Low Density District (RS-LD) permits 3.6 dwelling units per acre, which would serve as a transitional zoning between the more heavily developed subdivisions to the south and the Rural properties north of the subject parcel.

Traffic Characteristics

The 2013 SCDOT traffic count (Station # 573) located west of the subject parcel on Old Tamah Road identifies 2,400 Average Daily Trips (ADT’s). This segment of Old Tamah Road is classified as a three lane undivided collector, maintained by SCDOT with a design capacity of 9,800 ADT’s. Old Tamah Road is currently operating at Level of Service (LOS) “A”.

There are no planned or programmed improvements for this segment of Old Tamah Road, either through SCDOT or as part of the County’s Transportation Penny Program.

Conclusion

The RS-LD District would come closer to meeting the recommended intent of the Comprehensive Plan for 4-8 dwelling units per acre than the existing RU District as outlined in the Suburban Land Use designation. Staff is of the opinion that approval of the proposed district would allow for a gradual transition in zoning districts and lots sizes in an area that is residential, agricultural, forested and contains existing infrastructure and institutional uses. The parcel is located in proximity to the boundaries of the Suburban/Rural edge of the County, and as such, staff can support a zoning district that would act as a transitional district near the rural edges of the County.

Staff agrees with the possibility that there should be some flexibility along the edges of proposed land use designations in the Comprehensive Plan. Approval of this rezoning

application in this vicinity would not be out of character with the existing, surrounding, development pattern and zoning districts for the area. Staff believes that the proposed rezoning would be consistent with the intentions of the Comprehensive Plan.

Background

Zoning History

The original zoning as adopted September 7, 1977 was Rural District (RU).

Zoning District Summary

The MH District is intended as a residential district allowing for single family development, but also permitting the development of manufactured home parks subject to special requirements (see Section 26-151 of this chapter). This district will expand the range of housing opportunities available to the residents of Richland County while assuring that manufactured home parks are compatible with existing development in the area. Nonresidential uses normally required to provide the basic elements of a balanced and attractive residential area are also permitted.

Minimum lot area is 7,260 square feet, or as determined by DHEC. In no case shall the lot size be less than 7,260 square feet. Maximum density standard: except in manufactured home parks, no more than one (1) principal dwelling unit may be placed on a lot. The minimum area required for the development of a manufactured home park shall be five (5) acres.

Based upon a gross density calculation*, the maximum number of units for this site is approximately: 161 dwelling units.

*Gross density calculations do not consider site characteristics or land set aside for infrastructure or open space.

<u>West:</u>	RU	Residences

Discussion

Parcel/Area Characteristics

A portion of Old Leesburg Road, from Congress Road to the entrance to the Wilson Mill is maintained by Richland County. The portion of Old Leesburg Road with direct access to the subject parcels, running from the entrance of Wilson Mill to Eastover Road is an open, ditch-to-ditch rural dirt road, without sidewalks or streetlights*. There are approximately three residential structures on the subject parcels. The parcel is located south of Fort Jackson and is outside of the 3,000 foot Military Buffer zone.

The immediate area is primarily characterized by large residential lots, manufactured housing and undeveloped/agricultural/forested land uses. West of the subject parcels are residentially developed parcels. East of the subject parcels are undeveloped and wooded parcels. North of the subject parcels is a rural subdivision, Wilson Mill. The subdivision contains some developed lots with the majority of lots wooded and undeveloped. The Wilson Mill subdivision does have paved internal roads

****Any major land development would require the access roads to be brought up to county standards.***

Public Services

The subject parcel is within the boundaries of School District Lexington/Richland One. Horrell Hill Elementary School is located 5.8 miles southwest of the subject parcels on Horrell Hill Road. The Leesburg/601 fire station (number 31) is located 2.7 miles northwest of the subject parcels on McCords Ferry Road. The proposed map amendment would not negatively impact public services or traffic. Water would be provided by well and septic tanks would be utilized for sewer.

Plans & Policies

The 2009 Richland County Comprehensive Plan "**Future Land Use Map**" designates this area as **Rural Area** in the **South East Planning Area**.

Objective: "Single family developments should occur at low densities with a minimum lot size of one dwelling unit per ¾ acre lots (33,000 square feet)."

Non-Compliance: The proposed zoning district does not meet the recommended density for the Rural Area as outlined in the 2009 Comprehensive Plan.

Lower Richland Neighborhood Master Plan

Rural Residential Area

Lower Richland offers an alternative to the urban and suburban areas of Columbia and Richland County. Balancing the desire to protect this way of life with development pressures is one of the objectives of this plan.

Existing constraints (i.e., limited water and sewer service, environmental constraints) will limit the amount of development that will occur in this area over the next twenty years. However, any new development that does occur should be compatible to existing residential and respectful of existing agricultural operations and historic properties.

Current rural zoning allows for one residential unit per 33,000 square feet in the Rural Residential Area of Lower Richland. Future growth should respect this standard. In addition, where appropriate, developers should preserve critical natural or historic resources through context sensitive development methods such as conservation subdivisions. In addition, in order to preserve the rural feel of the area, significant hardwood trees, naturally vegetated areas, and wetlands, particularly Carolina Bays, should be preserved

Traffic Characteristics

No traffic count stations are located near the subject parcel. This segment of Old Leesburg Road is maintained by the county ditch-to-ditch, but has not been deeded.

There are no planned or programmed improvements for Old Leesburg Road, either through SCDOT or as part of the County's Transportation Penny Program.

Conclusion

The proposed MH District does not meet the recommended intent of the Comprehensive Plan of 1.3 dwelling units per acre as outlined in the Rural Future Land Use designation. Staff is of the opinion that approval of the proposed zoning district would be out of character in an area that is a mix of low density residential and agricultural uses.

For these reasons, staff recommends **Disapproval** of this map amendment.

Background

Zoning History

The current zoning, Residential Single-family Medium Density (RS-MD), reflects the original zoning as adopted September 7, 1977.

Zoning History for the General Area

The Light Industrial District (LI) parcel west of the subject parcel with frontage on Woodley Way was approved under Ordinance No. 023-14HR (case number 14-007MA).

The General Commercial District (GC) parcels west of the subject parcel with frontage on North Brickyard Road were approved under Ordinance No. 057-12HR (case number 12-026MA).

Zoning District Summary

The Neighborhood Commercial District (NC) is intended to accommodate commercial and service uses oriented primarily to serving the needs of persons who live or work in nearby areas. This district is designed to be located within or adjacent to residential neighborhoods where large commercial uses are inappropriate, but where small neighborhood oriented businesses are useful and desired.

New structures in the Neighborhood Commercial District (NC) shall have a building footprint of not more than 6,000 square feet. The gross floor area of new structures shall not exceed 12,000 square feet. Existing structures shall not be expanded to exceed a footprint or gross floor area of 12,000 square feet.

Direction	Existing Zoning	Use
<u>North:</u>	RS-LD	Spring Valley Subdivision
<u>South:</u>	HI/HI	Warehouse/Cement Plant
<u>East:</u>	RS-MD	Windmill Orchard Subdivision
<u>West:</u>	RS-LD	Spring Valley Subdivision

Discussion

Parcel/Area Characteristics

The parcel has frontage along North Springs Road and Mill Field Road. The subject parcel is undeveloped, contains little vegetation and a gentle slope. The immediate area is primarily characterized by commercial, industrial and residential uses, with no sidewalks or streetlights in the vicinity. Contiguous east of the subject parcel is the Windmill Orchard subdivision and north is the Spring Valley subdivision. The Heavy Industrial District (HI) parcels south contain warehouses and cement plant. Southwest of the subject parcel is a garden center (Woodley’s).

Public Services

The subject parcel is within the boundaries of School District Two. Lonnie B Nelson Elementary School is located one thousand five hundred and nine (1509) feet west of the subject parcel. The Sand Hill fire station (number 24) is located .8 miles southeast of the subject parcel on Sparkleberry Lane. There is a fire hydrant located along North Springs Road. The proposed map amendment would not negatively impact public services or traffic. Water is provided by the City of Columbia and sewer service is provided by East Richland County Public Service District.

Plans & Policies

The 2009 Richland County Comprehensive Plan “Future Land Use Map” designates this area as **Suburban** in the **North East Planning Area**.

Objective: Objective: “Commercial/Office activities should be located at traffic junctions or areas where existing commercial and office uses are located. These uses should not encroach on established residential areas.”

Compliance: The proposed zoning is in compliance with the recommended objective for suburban commercial, as the site would not encroach into a residential area. There is existing commercial uses along Mill Field Road and North Springs Road.

Traffic Characteristics

The 2013 SCDOT traffic count (Station # 492) located northeast of the subject parcel on North Springs Road identifies 12,200 Average Daily Trips (ADT’s). This segment of North Springs Road is classified as a two lane undivided collector, maintained by SCDOT with a design capacity of 8,600 ADT’s. North Springs Road is currently operating at Level of Service (LOS) “F”.

Intersection improvements are planned at North Springs Road and Risdon Way, North Springs Road and Harrington Road, and North Springs Road and Clemson Road/Rhame Road as part of the County’s Transportation Penny program.

Conclusion

This area is unique from the perspective that the surrounding properties are zoned RS-LD, RS-MD and HI and have developed over the years with heavy and light industrial uses to the south and residential uses to the north. Because of this unique geographic location, staff is of the opinion that this parcel could serve as a transitional piece between the industrial uses and the residential developments. The site could satisfy the locational characteristics as defined by the NC District purpose statement.

The subject request meets the intent of the zoning district and is in compliance with the design characteristics described in the Comprehensive Plan

For these reasons, staff recommends **Approval** of this map amendment.

Zoning Public Hearing Date

November 25, 2014

Planning Commission Action

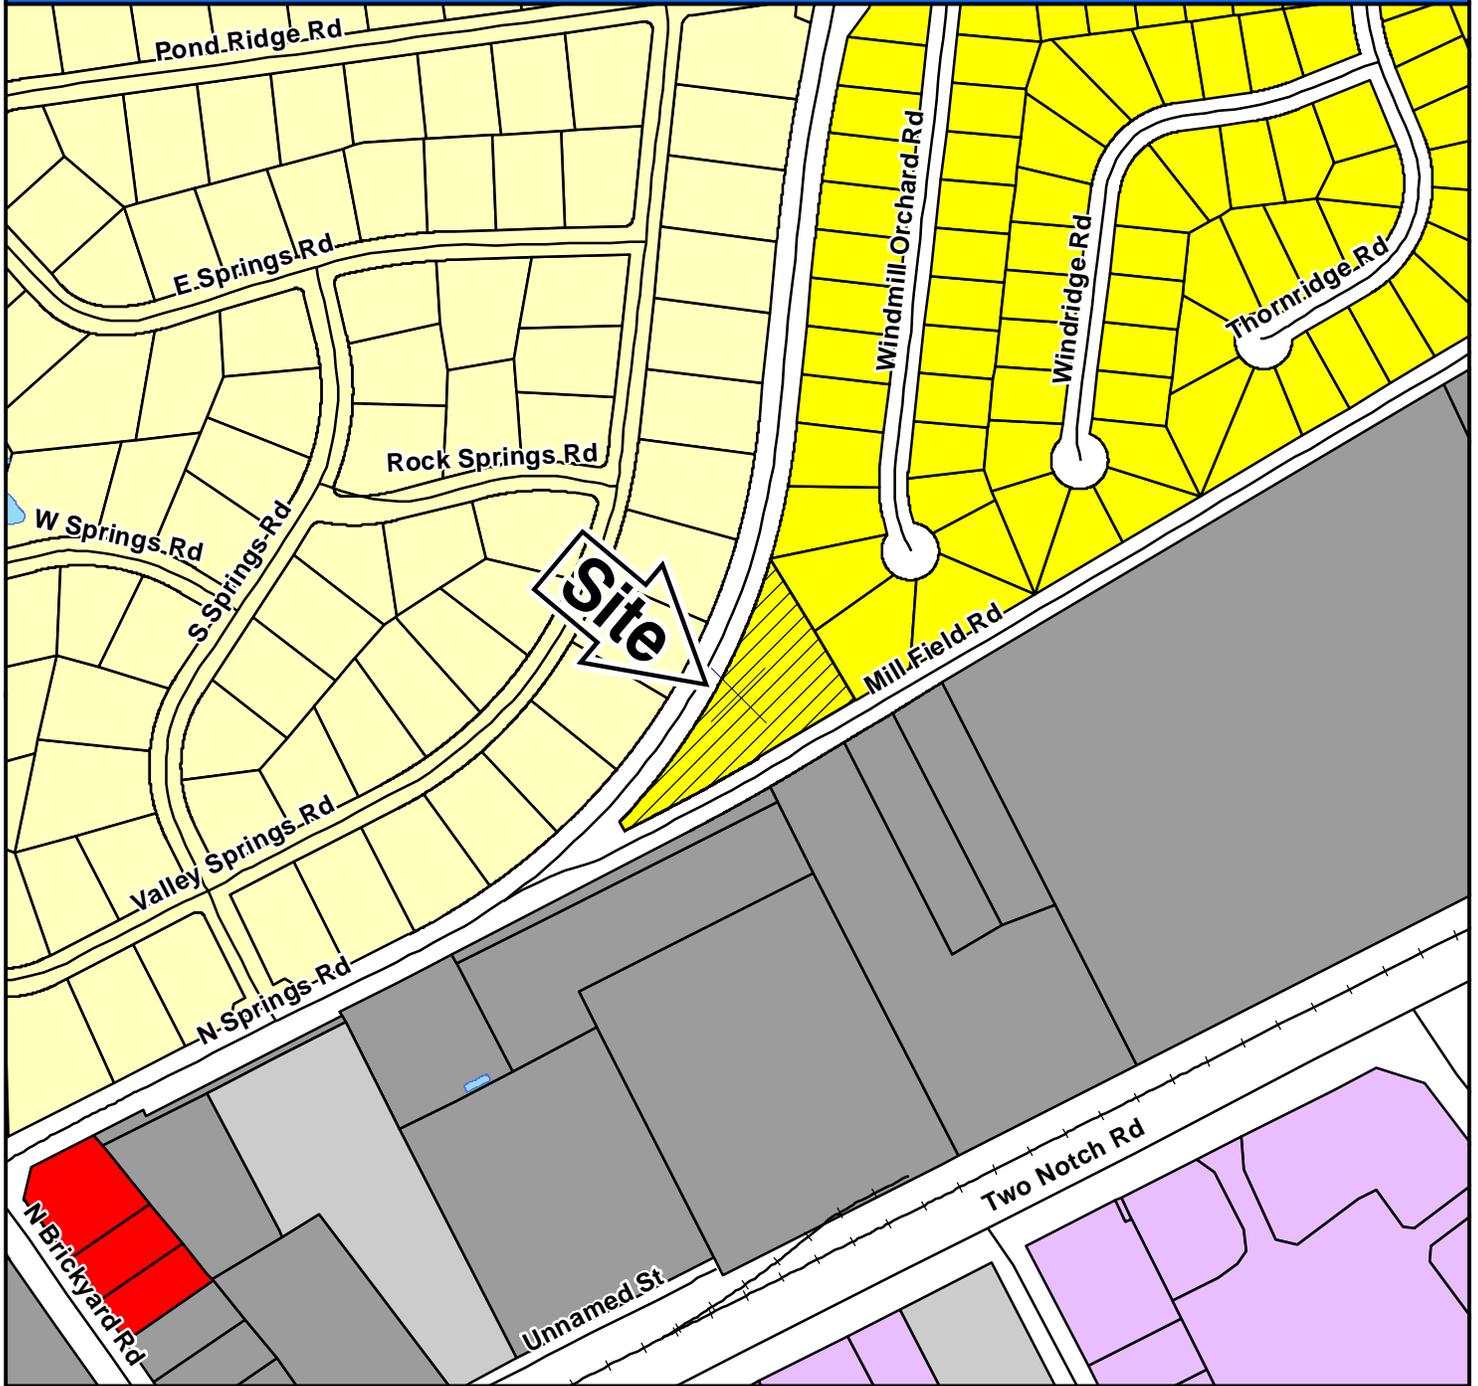

At their meeting of **December 5, 2014** the Richland County Planning Commission **disagreed** with the PDSO recommendation for the following reason:

- The parcel is an odd shape
- There would be too much encroachment into the surrounding residential areas

The PC recommends the County Council **deny the proposed Amendment** for **RC Project # 14-35 MA**.
