PLANNING COMMISSION

November 2, 2026

Council Chambers
2020 Hampton Street
Columbia, SC 29202

Purpose and Use of the Future Land Use Map

Purpose of Future Land Use Map and Categories

The Future Land Use map and categories are used during rezoning requests to make recommendations and decisions regarding the appropriateness of different aspects of proposed developments. The Future Land Use map and categories provide guidance when making decisions about zoning and infrastructure investments by identifying the type and character of development that should occur in specific areas.

The Future Land Use categories and the Future Land Use map are provided solely with the intention of offering guidance to local decision- makers. This plan does not make formal recommendations to rezone properties to align with these Future Land use designations, but provides support for these Future Land Use designations during a rezoning case evaluation.

Using the Future Land Use Map and Categories

Each rezoning proposal needs to be evaluated using the land use category, goals and implementation strategies outlined in this Comprehensive Plan. Because this is a Comprehensive Plan and not intended to provide site level guidance with regard to development decisions, discretion should be used when evaluating a proposed rezoning using the Future Land Use Map and related categories.

Future Land Use category lines were developed by considering development character, utility service areas, lines of natural features, and roadways. Particularly for areas near or on the boundaries of Future Land Use categories, discretion by the Richland County Planning Department staff is needed to determine the appropriate Future Land Use category that should be applied based on:

- Existing development context of property
- Environmental context of the property
- Development activity or proposed activity occurring within a sphere of influence of the property
- Future plans to construct utility infrastructure, roadways, or other public facilities

Ultimately, rezoning decisions are legislative decisions made by the County Council. This means that the decisions are a policy choice, and that the Comprehensive Plan helps to inform these choices.

RICHLAND COUNTY PLANNING COMMISSION

Monday, November 2, 2026
Agenda
6:00 PM
2020 Hampton Street
2nd Floor, Council Chambers

Chairman - Christopher Yonke
Vice Chairman - Beverly Frierson

9. OTHER BUSINESS

10. ADJOURNMENT

MEETING FORMAT

The Planning Commission uses the consent agenda to approve non-controversial or routine matters by a single motion and vote. If a member of the Planning Commission, the Planning Staff or the general public wants to discuss an item on the

consent agenda (at the beginning of the meeting), that item is removed from the consent agenda and considered during the meeting. The Planning Commission then approves the remaining consent agenda items.

Persons wishing to speak on an agenda item are requested to sign the item's sign-in sheet located at the back of County Council Chambers. Meeting attendees are usually given two (2) minutes to speak; the time limit is at the discretion of the Chair of the meeting and may be limited when appropriate.

Speakers' comments should be addressed to the full body. Requests to engage a Commission Member, County staff or applicants in conversation will not be honored. Abusive language is inappropriate.

After persons have spoken, the hearing is closed and brought back to Commission level for discussion and action. There is no further comment permitted from the audience unless requested by the Commission.

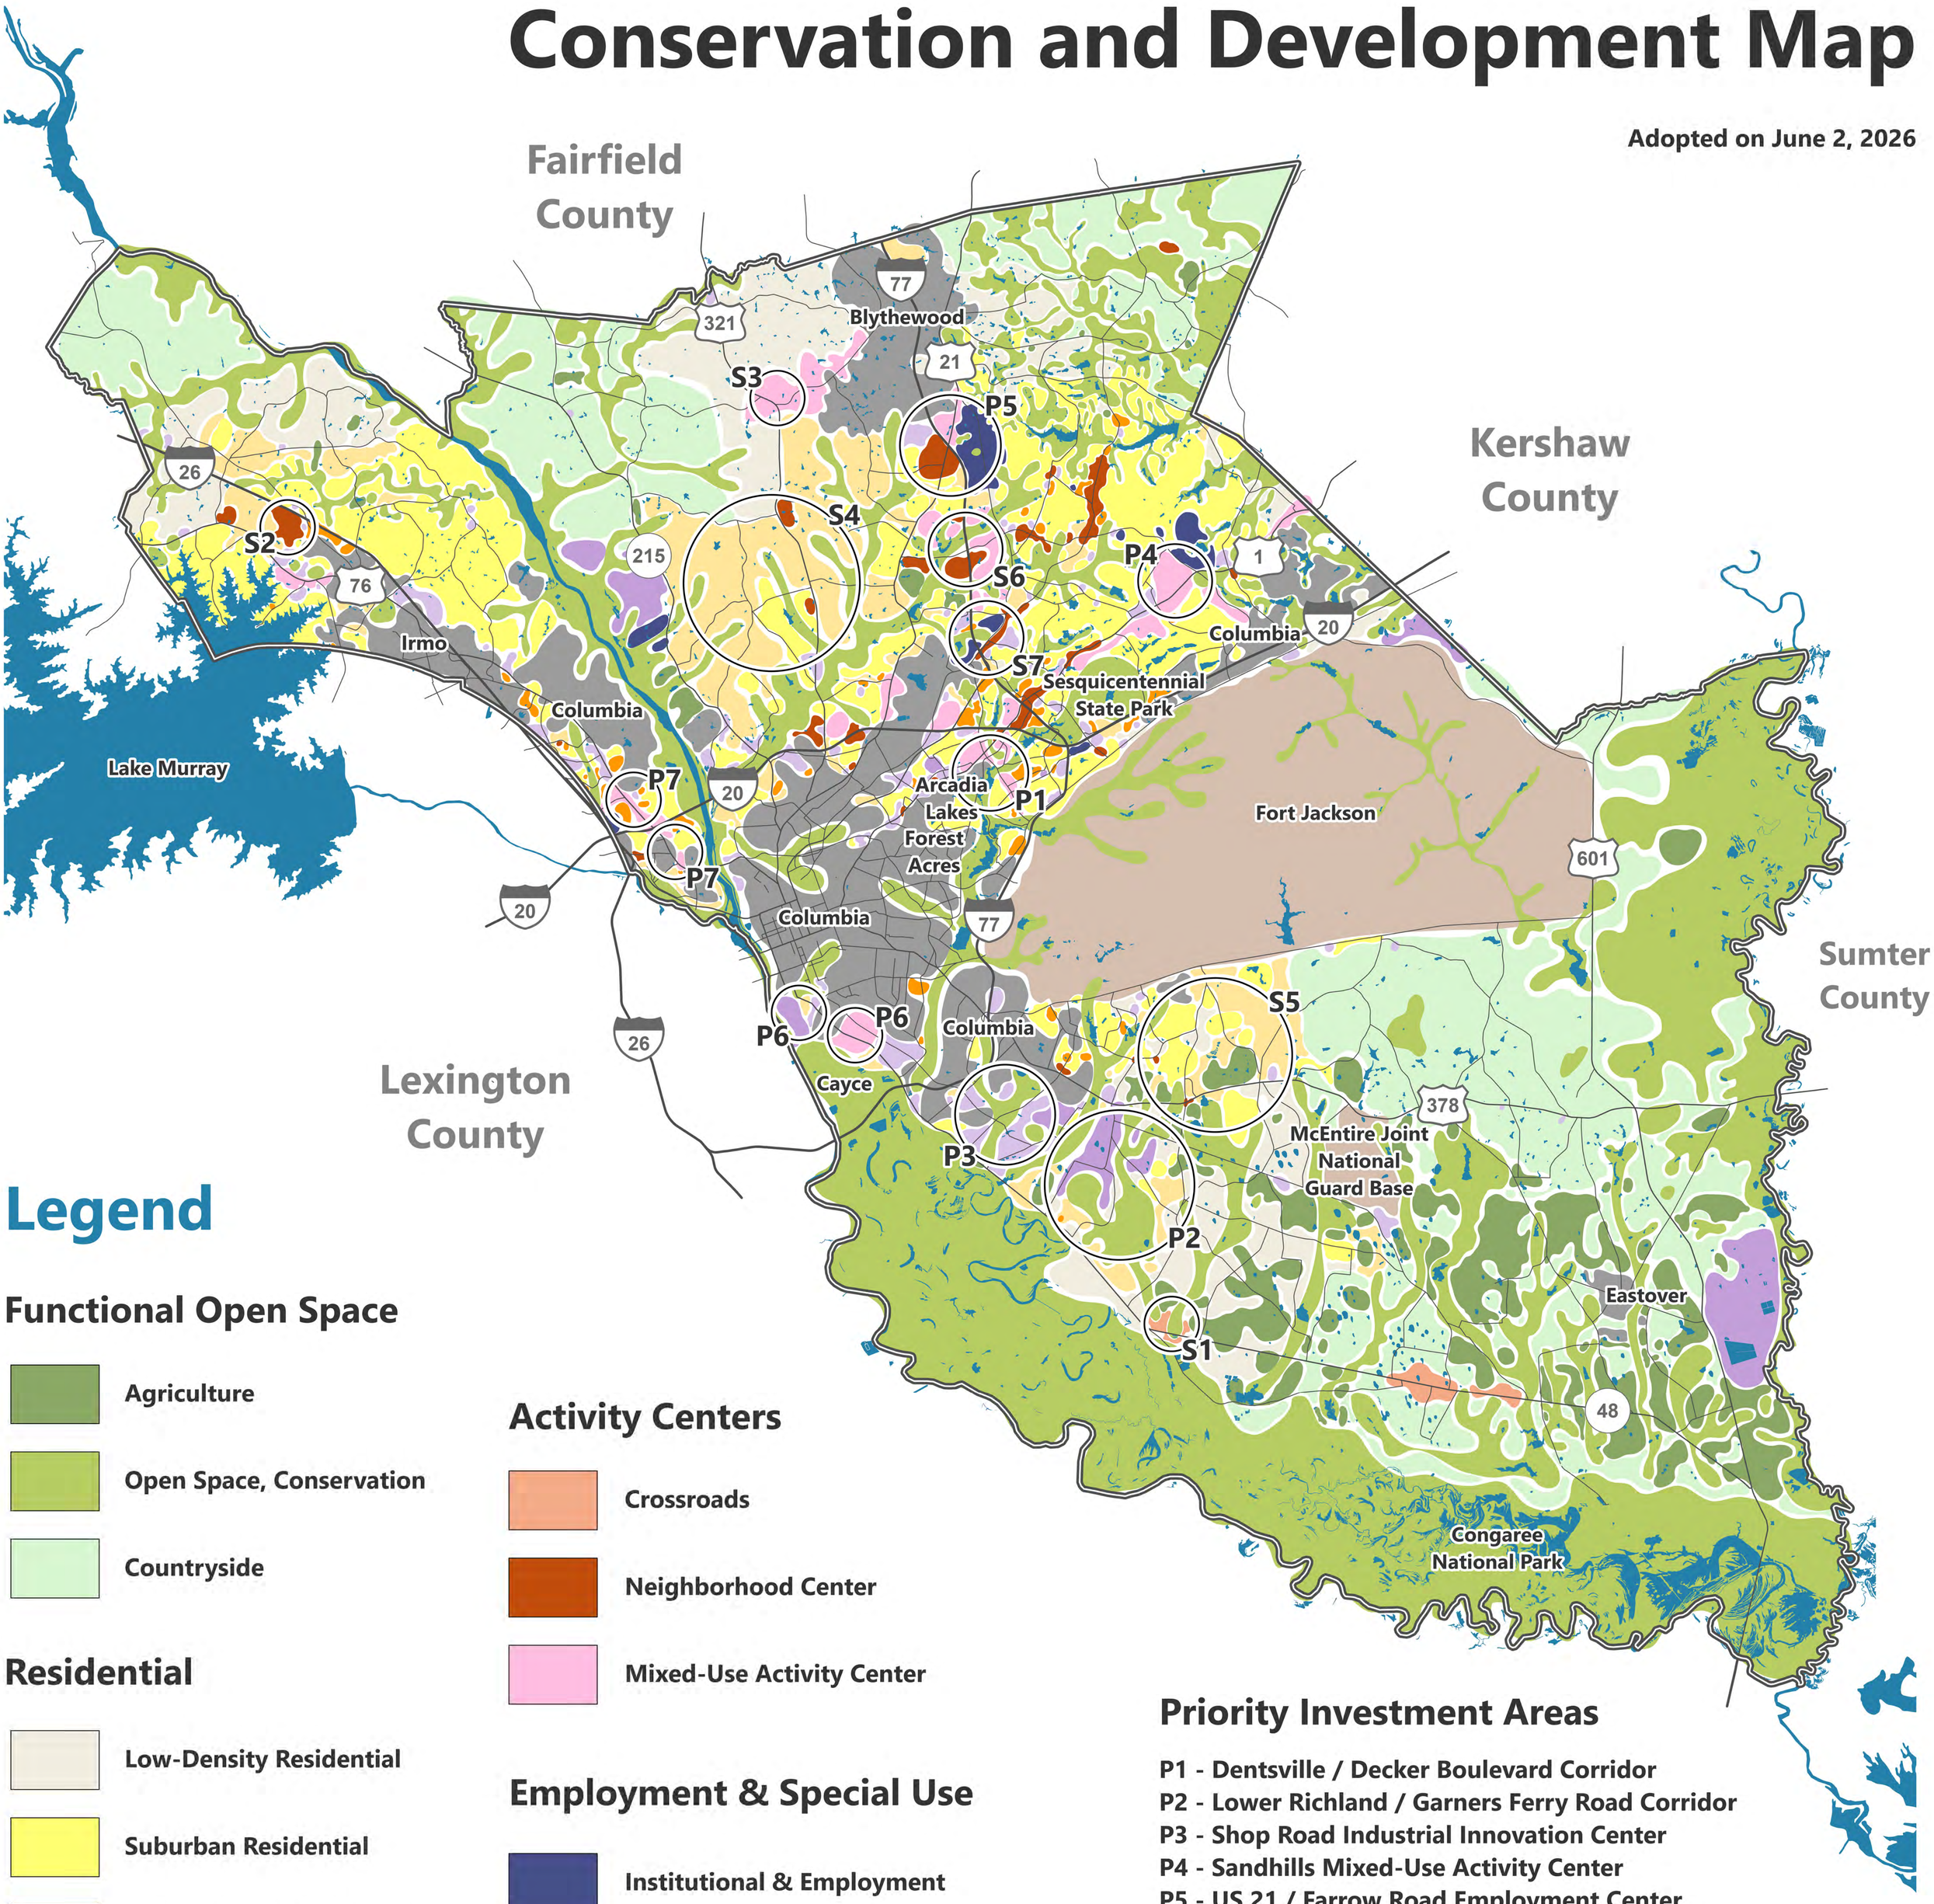

ZONING PUBLIC HEARING

The Planning Commission is a recommending body to Richland County Council. Recommendations for "Approval" or "Disapproval" are forwarded to County Council for their consideration at the next Zoning Public Hearing. The Zoning Public Hearing is another opportunity to voice your opinion for or against a rezoning or amendment to the Land Development Code and is open to the public. The County Council Zoning Public Hearing is usually scheduled for the 4th Tuesday of the month at 7:00 p.m. Check the County's website for dates and times.

Comprehensive Plan Compliance

Non-Compliant

Background

Zoning History

The original zoning as adopted September 7, 1977 was Rural (RU). With the adoption of the 2021 Land Development Code the Rural (RU) district was designated Homestead (HM).

Zoning History for the General Area

Case	Zoning at Request	Proposed Zoning	CC Action	PC Rec.	Comp Plan Compliance
18-02 MA	RU	RS-E	Approved	Approval	Compliant

Zoning District Summary

The RT: Residential Transition District provides lands for low-intensity residential development outside urban and suburban settings. The district is intended to serve as a transition between very low intensity rural areas and suburban residential areas. Residential development is limited to manufactured homes and detached single-family dwellings, which may be located on large lots or on family subdivisions that respect the natural features of the land and are designed to conform to the suburban/rural fringe character of the district. Development in the district includes natural buffers between adjacent uses and roadway buffers to support road corridors that have a natural appearance and limit visibility into developed areas.

Maximum density standard: no more than one (1) dwelling unit per acre.

Based upon a gross density calculation*, the maximum number of units for this site is approximately: 3 dwelling units.

*Gross density calculations do not consider site characteristics or land set aside for infrastructure or opens space.

Direction	Existing Zoning	Use
North:	AG	Undeveloped / Dutch Fork High School
South:	AG	Single-Family Residence
East:	AG	Single-Family Residence
West:	R3	Undeveloped

Area Characteristics

The subject parcel is undeveloped. The immediate area is characterized by single-family residential, schools, and undeveloped land.

Sewer:	City of Columbia	

Plans & Policies

2025 Comprehensive Plan

The 2025 Richland County Comprehensive Plan, ***"REIMAGINE RICHLAND"***, designates this area as ***Suburban Residential.***

Suburban Residential

Definition and Purpose
Suburban Residential areas provide predominantly single-family neighborhoods at low to moderate densities, supported by neighborhood parks, greenways, and pedestrian connections.

These areas are served by public utilities and function as the primary residential fabric of the County.

Policy Guidance Policy Guidance (Relevant Points)

- Require full public services (water, sewer, roads) and ensure infrastructure has capacity.
- Promote interconnected street networks that disperse traffic and create multiple routes, rather than isolated pods.
- Discourage isolated cul-de-sac patterns that limit walkability or connectivity to adjacent neighborhoods and community destinations.
- Provide usable, neighborhood-scale open spaces such as greens, pocket parks, and small plazas within new subdivisions.
- Ensure new development transitions sensitively in height, massing, and intensity to adjacent lower- or higher-intensity areas (e.g., Rural or higher-density centers).
- Allow modest increases in residential density, particularly near centers or transit.

Discussion

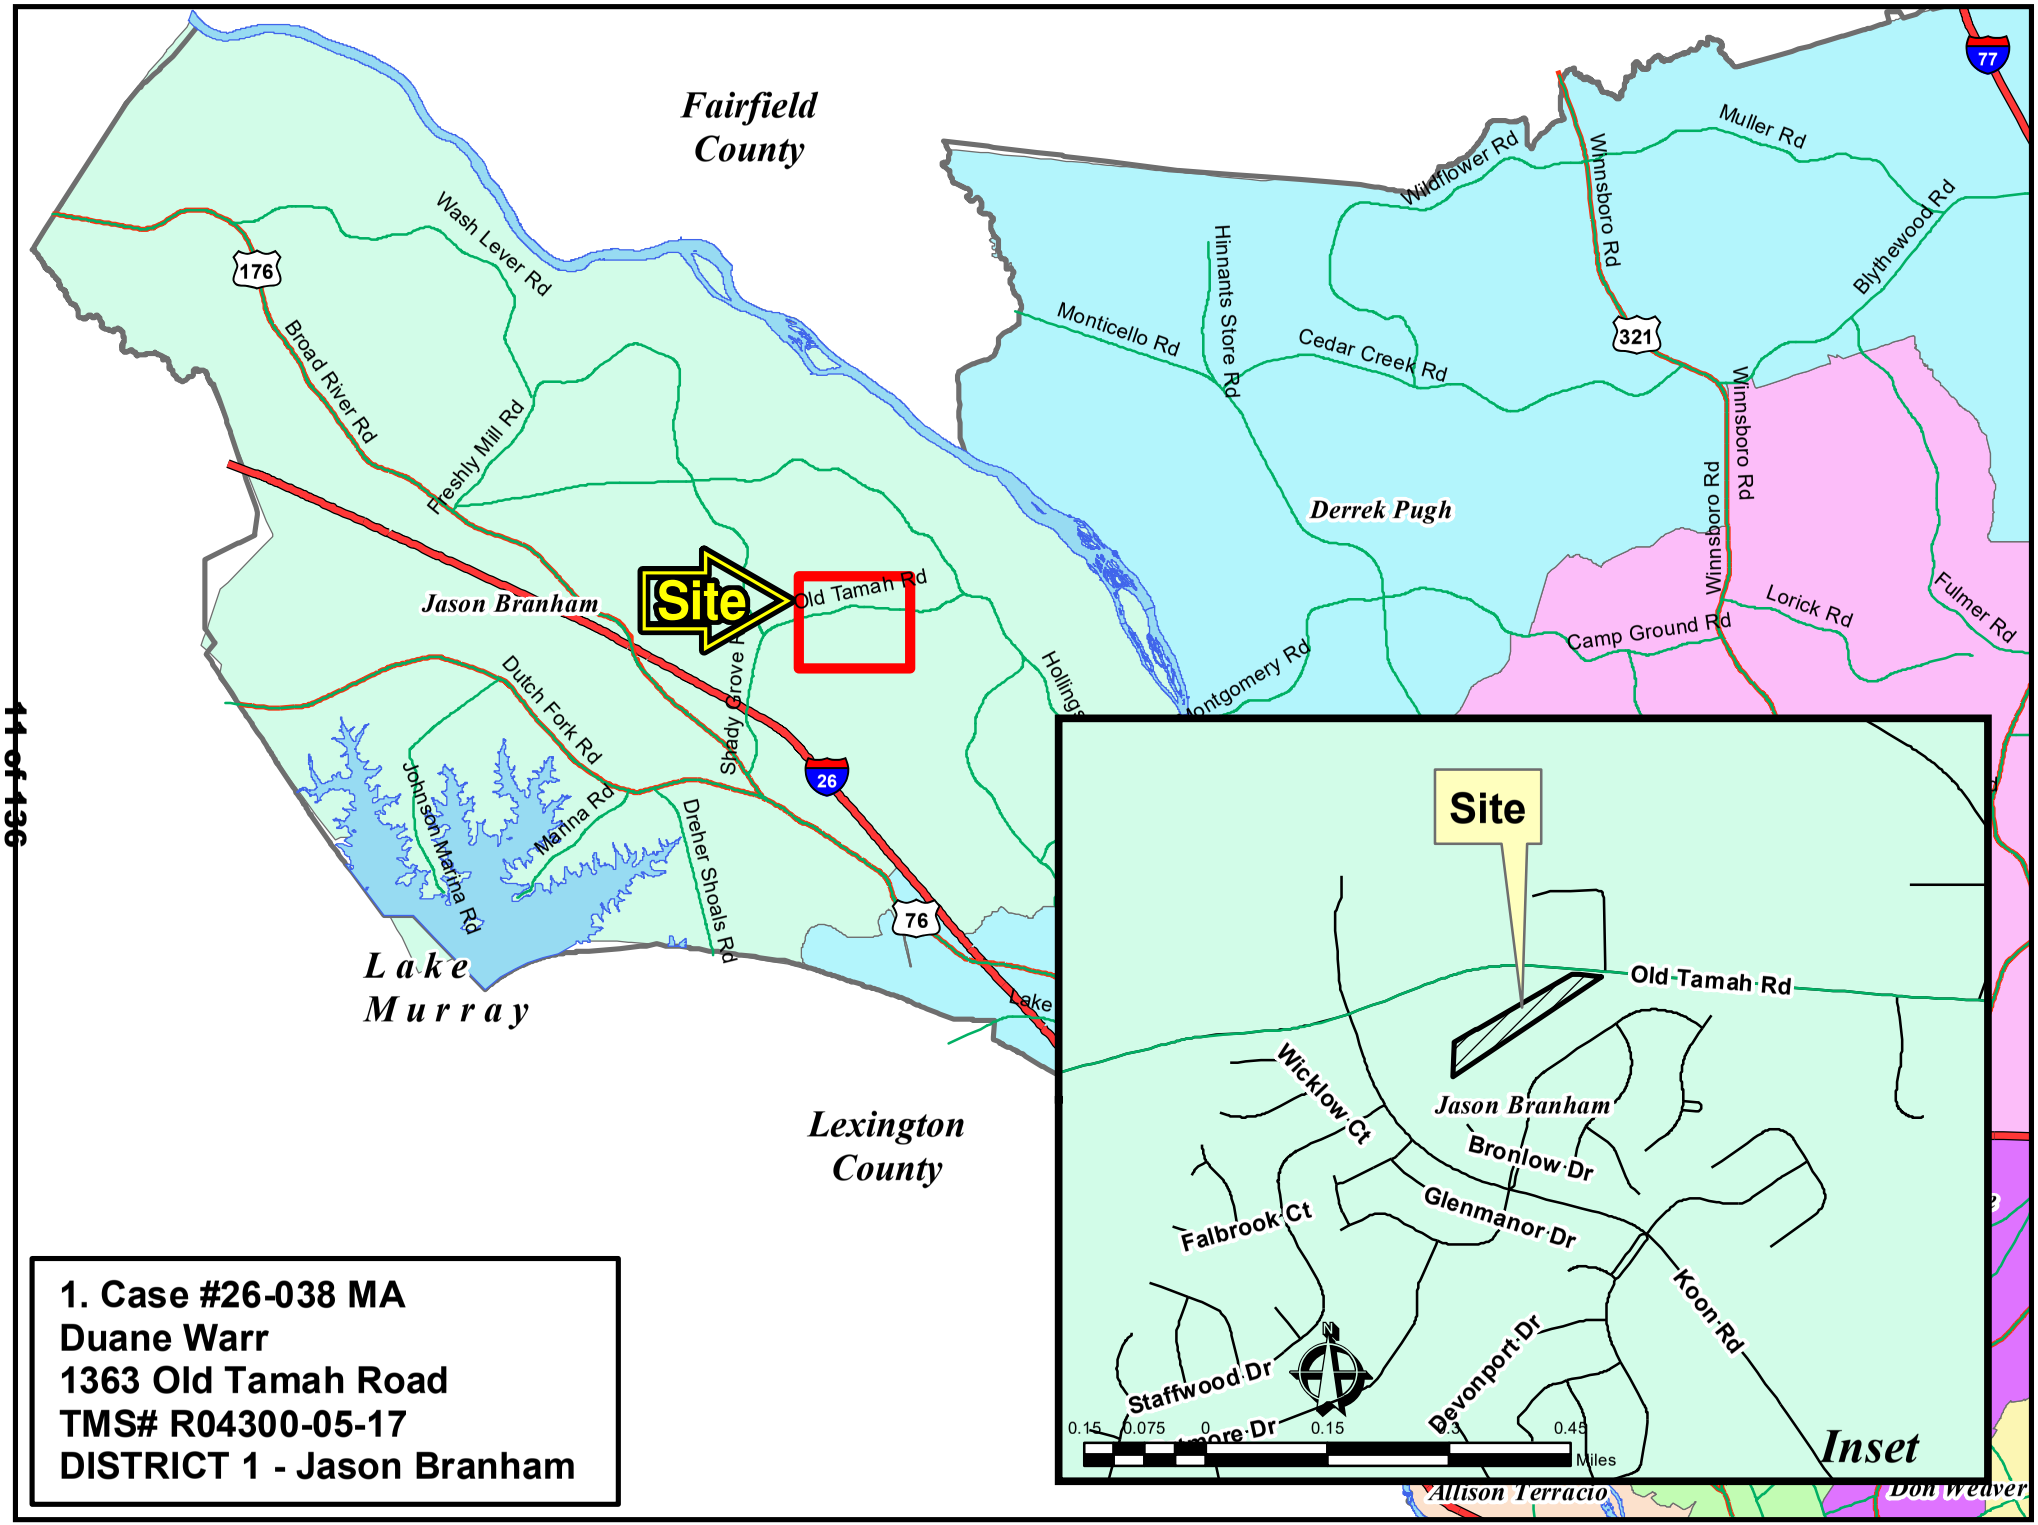

The requested zoning of Residential Transition (RT) is not consistent with the Comprehensive Plan as it does not provide for a transition from the Mixed Density Residential, located north of the subject parcel, to the recommended Suburban Residential. In addition, the proposed request promotes a lower density than recommended based on the surrounding densities and proximity to Dutch Fork Middle and High School.

Comprehensive Overview

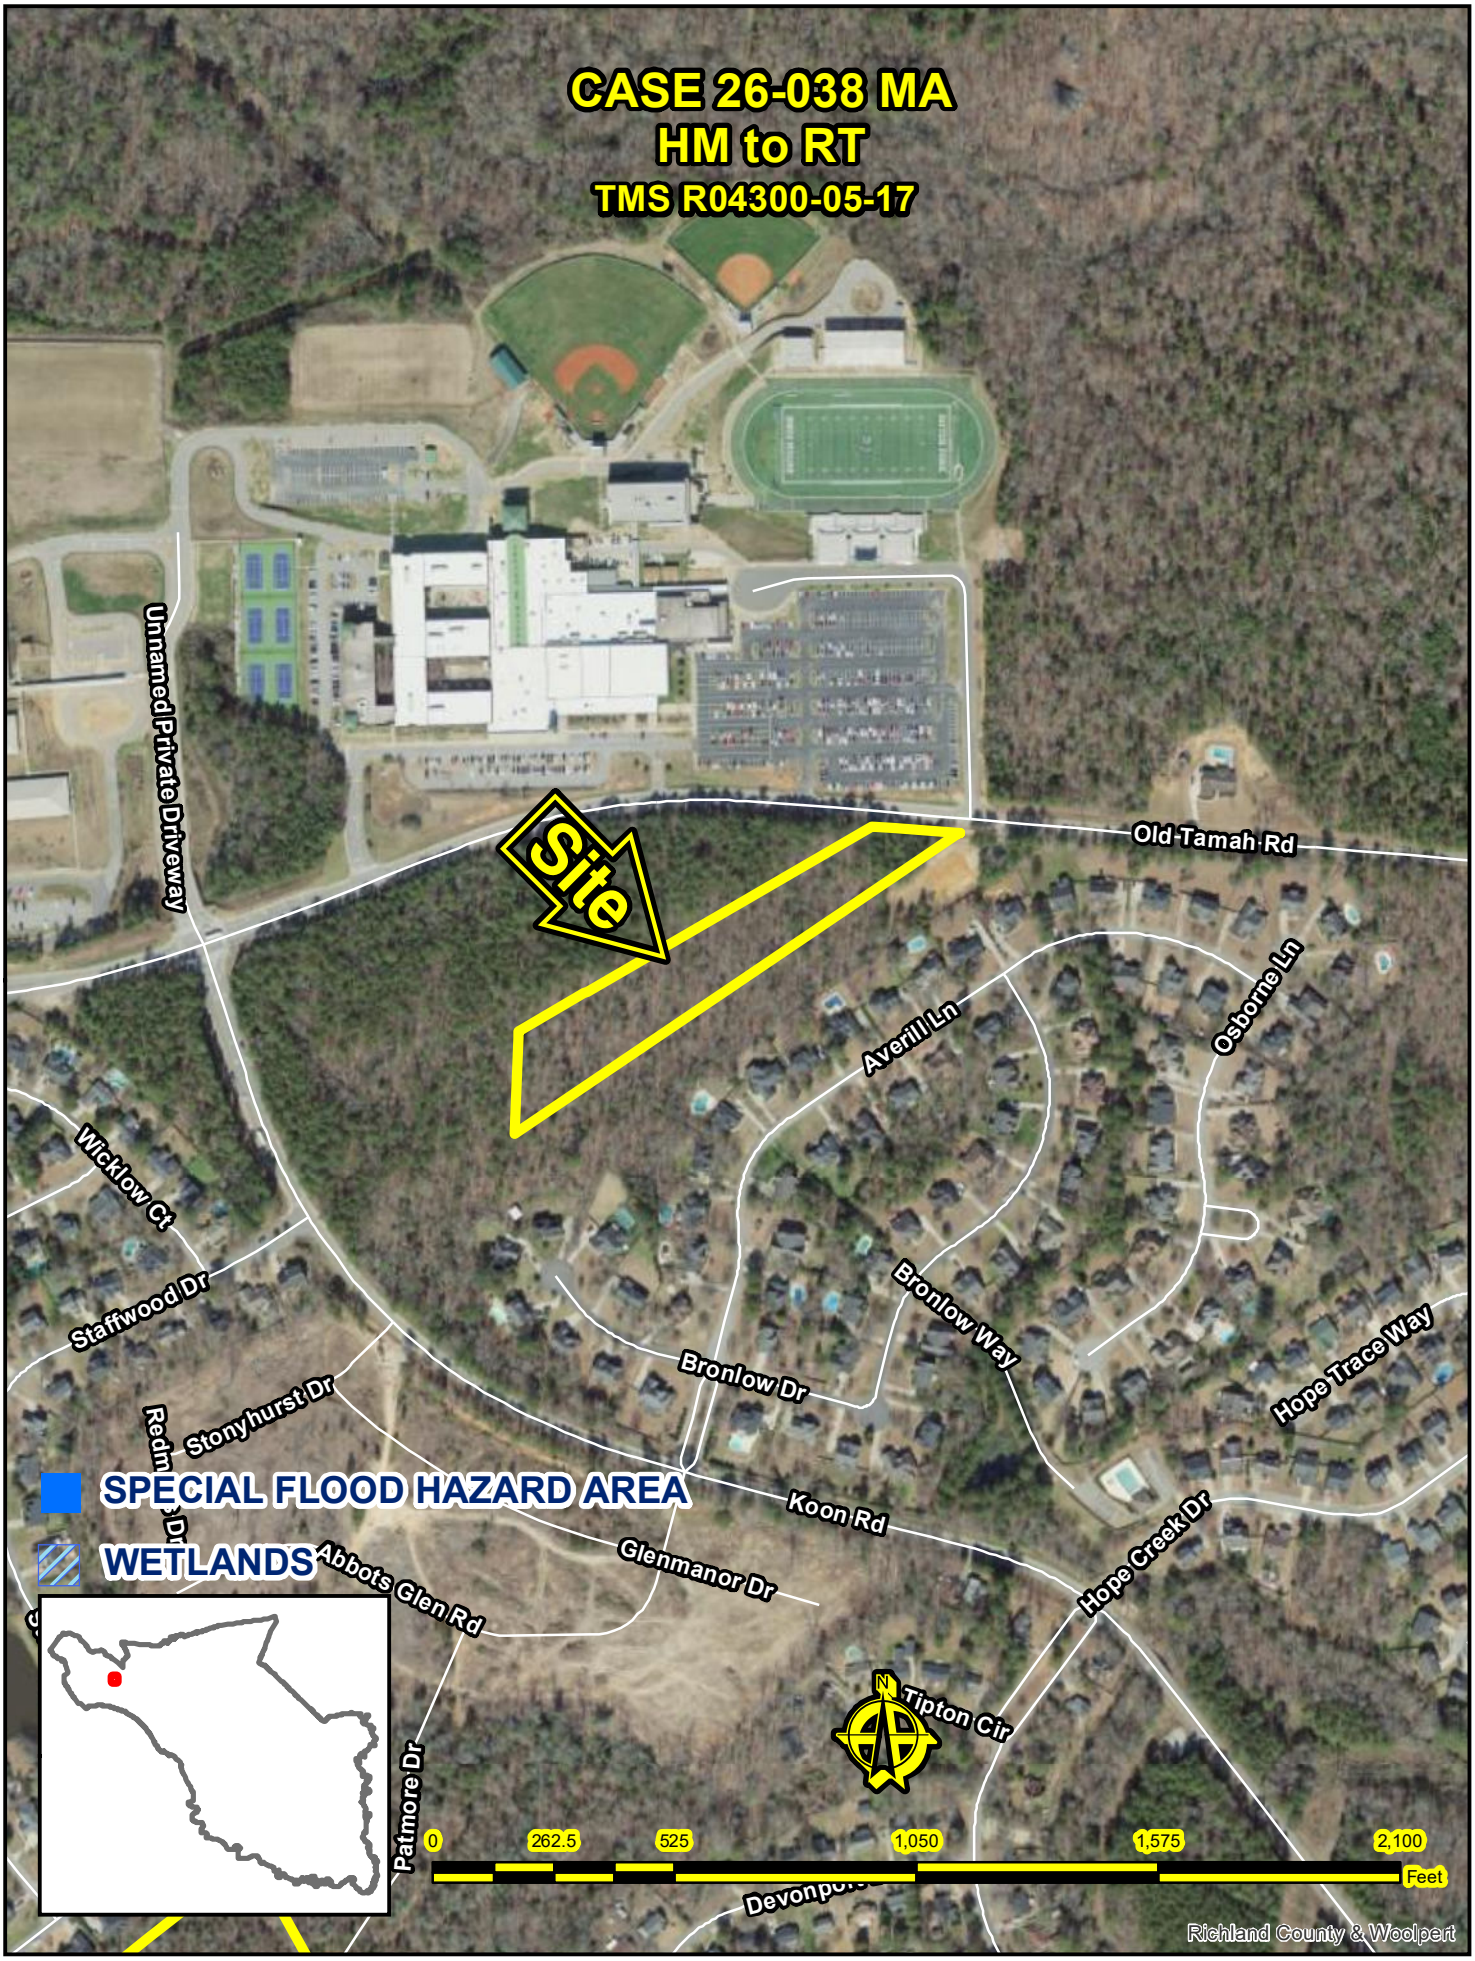

RT zoning would not be supportive of the growth patterns of the area, nor the goals of the comprehensive plan based on the context of the site. The comprehensive plan calls for increases to density, particularly near centers, of which the adjacent schools may be considered as a center. The future land use map also shows Mixed Density Residential across the road from the subject parcel, which would encourage the subject parcel to be zoned at a density that more appropriately transitions to the higher densities called for in the Mixed Density Residential place type. The subject parcel is also in close proximity to the intersection of two major collector roads and has access to water and sewer service. The combination of these factors supports the notion that RT zoning would be inappropriate for this parcel, in favor of a district with higher density.

Plans & Policies

2025 Comprehensive Plan

The 2025 Richland County Comprehensive Plan, ***"REIMAGINE RICHLAND"***, designates this area as ***Suburban Residential.***

Suburban Residential

Definition and Purpose
Suburban Residential areas provide predominantly single-family neighborhoods at low to moderate densities, supported by neighborhood parks, greenways, and pedestrian connections. These areas are served by public utilities and function as the primary residential fabric of the County.

Policy Guidance Policy Guidance (Relevant Points)

- Require full public services (water, sewer, roads) and ensure infrastructure has capacity.
- Promote interconnected street networks that disperse traffic and create multiple routes, rather than isolated pods.
- Discourage isolated cul-de-sac patterns that limit walkability or connectivity to adjacent neighborhoods and community destinations.
- Provide usable, neighborhood-scale open spaces such as greens, pocket parks, and small plazas within new subdivisions.
- Ensure new development transitions sensitively in height, massing, and intensity to adjacent lower- or higher-intensity areas (e.g., Rural or higher-density centers).
- Allow modest increases in residential density, particularly near centers or transit.

Discussion

The requested zoning of Residential 2 (R2) is consistent with the Comprehensive Plan as it would allow a density that is appropriate for the Suburban Residential place type and the current level of development in the area.

Comprehensive Overview

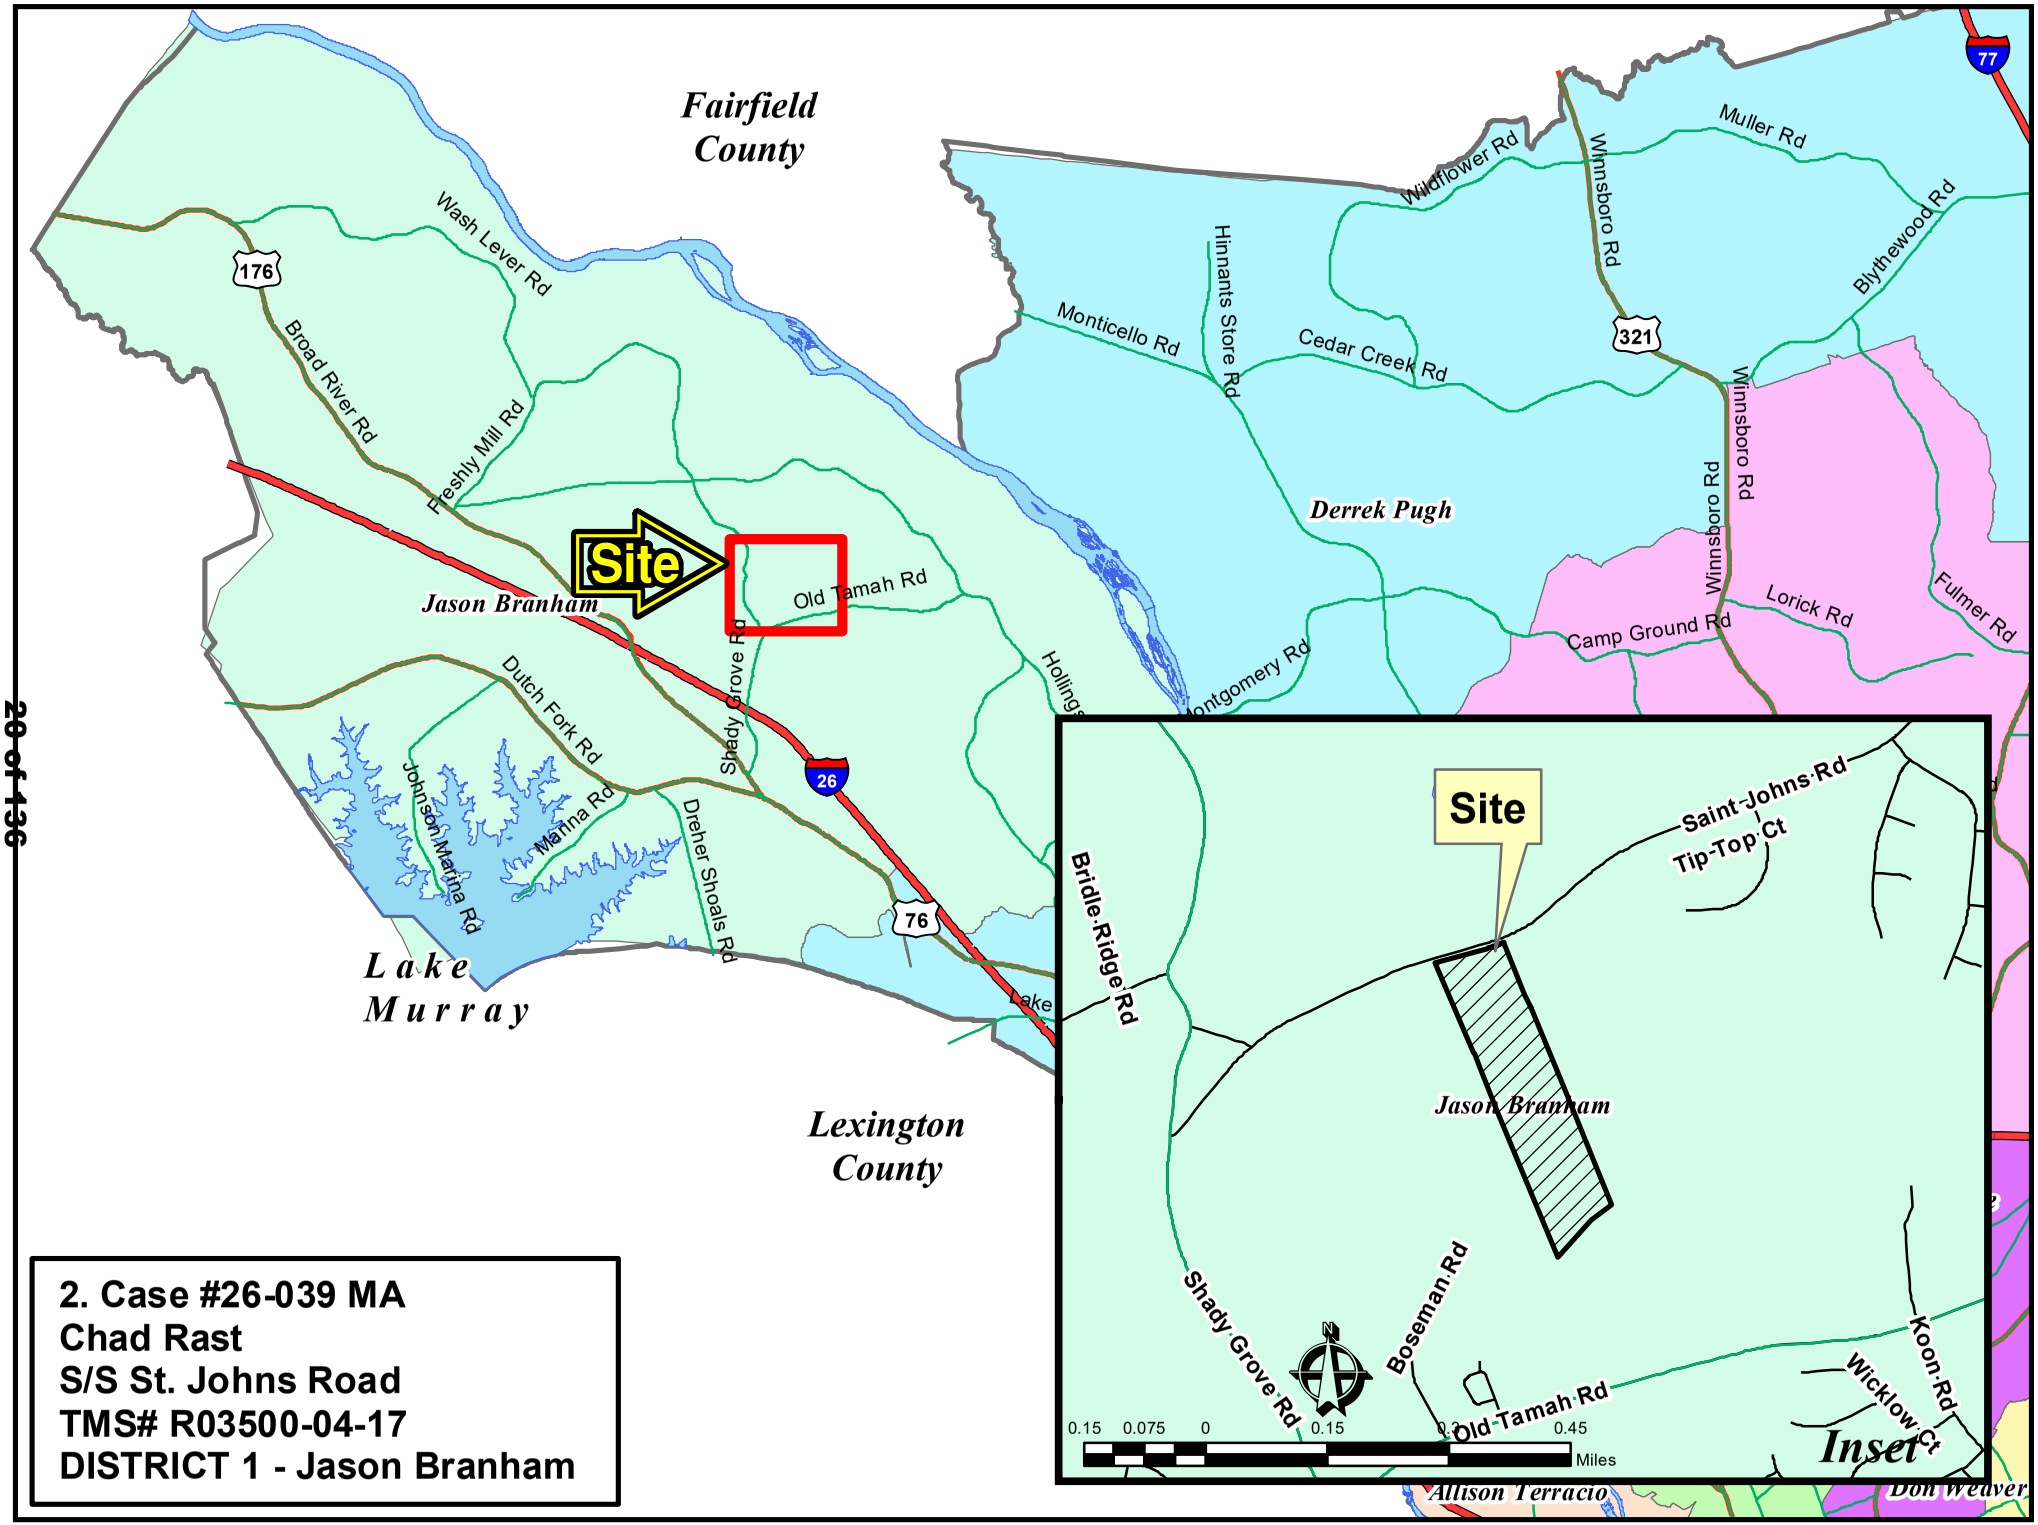

The Suburban Residential place type supports the level of density permitted within the R2 zoning district. Although the immediate area remains largely undeveloped, R2 would allow development at a scale appropriate for the area's anticipated suburban character. As the area develops, this parcel could help establish a pattern of development consistent with the Suburban Residential guidance and advance the goals of the Comprehensive Plan.

Existing developments in the area are predominantly characterized by cul-de-sac street patterns, which do not support the connectivity recommendations outlined in the Suburban Residential guidance. The current Land Development Code requires developments to provide connectivity to future adjacent development, creating an opportunity to establish a more interconnected street network as the area develops.

Additionally, R2 supports the Comprehensive Plan's goal of compact development by allowing residential development in proximity to an existing community center, namely Dutch Fork Middle and High Schools.

Plans & Policies

2025 Comprehensive Plan

The 2025 Richland County Comprehensive Plan, ***"REIMAGINE RICHLAND"***, designates this area as ***Low-Density Residential.***

Low-Density Residential

Definition and Purpose
Low-Density Residential areas are predominantly single-family neighborhoods on large parcels, typically served by public utilities and located closer to existing suburban development. They often function as a transitional edge between Agriculture and Countryside and more compact suburban development. Conservation design is encouraged to preserve meaningful open space.

Policy Guidance Policy Guidance (Relevant Points)

- Locate where public water and sewer are available or planned, so that development fits adopted infrastructure plans.

- Encourage conservation subdivisions, preserving shared open space or natural areas on the remainder of the site.
- Design for moderate internal street connectivity, but limit the number of direct driveways and new intersections on arterials to protect traffic flow and safety.
- Ensure compatibility with adjacent developments through building scale, setbacks, landscaping, and buffering.
- Add sidewalks or trails especially where neighborhoods are near centers, schools, or parks to support walking and biking.
- Consider minor increases in density only when infrastructure capacity (roads, utilities, schools) is adequate and the site is adjacent to centers or higher-density areas, supporting a logical transition.

Discussion

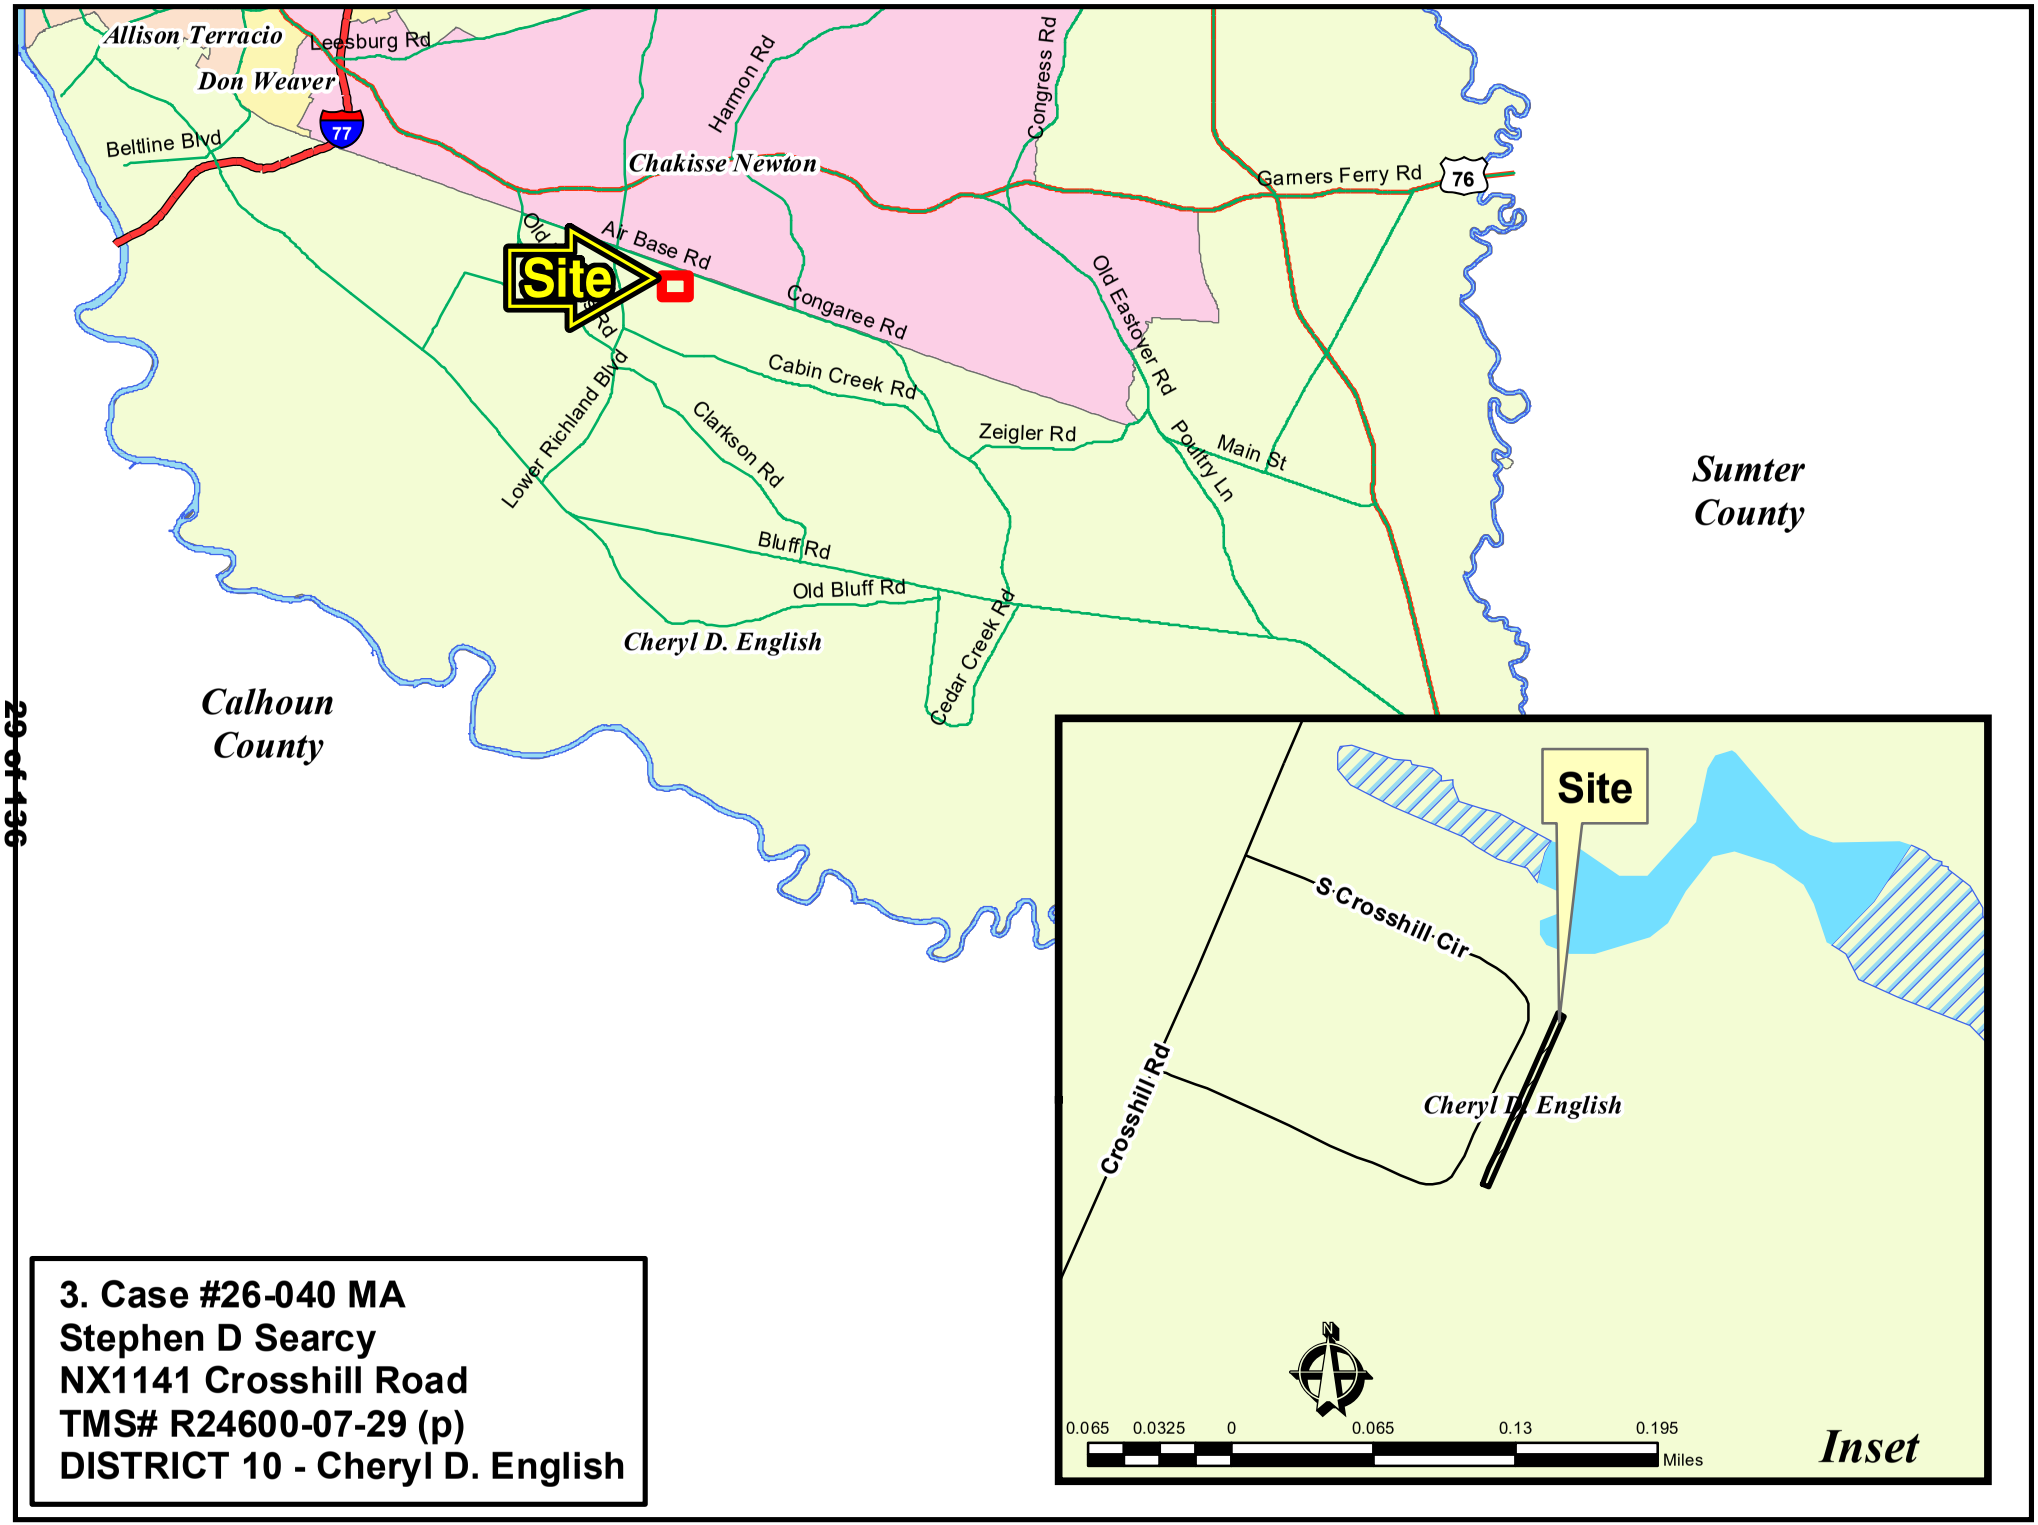

The requested zoning of Residential Transition (RT) is consistent with the Comprehensive Plan as it generally supports single-family neighborhoods on large parcels and serves as a transition between Agriculture and Countryside areas.

Comprehensive Overview

The requested Residential Transition (RT) zoning is consistent with the general intent of this designation, given the surrounding area's predominantly single-family, large-lot development pattern.

05-108 MA	Rural (RU) / Residential Single Family - High Density (RS-HD)	Planned Development (PDD)	Approved	Approval	Non-Compliant (1999)

Zoning District Summary

The MU1: Neighborhood Mixed-Use District provides lands for moderate-intensity, neighborhood-scale commercial that supports the common day-to-day demands of the surrounding neighborhood for goods and services. This district allows a mix of commercial uses such as grocery stores, restaurants and bars, personal services, small-scale retail, and offices, as well as moderate-intensity multi-family residential development in close proximity to and with convenient access to shopping and employment within the district. District standards are intended to ensure uses, development intensities, and development forms supports development that:

- Is oriented toward and provides enhanced visual character on the major streets within the district;
- Provides safe and convenient vehicular, bicycle, and pedestrian access from surrounding neighborhoods; and
- Is well-integrated in terms of access and circulation, complementary uses, and compatible design.

Maximum density standard: no more than ten (10) dwelling units per acre.

Based upon a gross density calculation*, the maximum number of units for this site is approximately: 30 dwelling units.

*Gross density calculations do not consider site characteristics or land set aside for infrastructure or opens space.

Direction	Existing Zoning	Use

High School:	Westwood	1.9
Fire Service:	Station Number 27	4.0
Water:	Well	
Sewer:	Septic	

Plans & Policies

2025 Comprehensive Plan

The 2025 Richland County Comprehensive Plan, ***"REIMAGINE RICHLAND"***, designates this area as ***Mixed-Density Residential and Priority Investment Area 5.***

Mixed-Density Residential

Definition and Purpose
These neighborhoods offer broader housing choices where residents can age in community and enjoy less dependence on automobiles, as the compact form and bicycle and pedestrian facilities enable biking and walking as feasible means of travel. Mixed residential development is comprised of predominantly single-family detached homes on small lots but may include attached single-family units, such as townhomes and duplexes and a small amount of multi-family units. The mix of housing types creates intergenerational neighborhoods. Improved open spaces in the form of greens, pocket parks, and neighborhood parks are interspersed.

Policy Guidance Policy Guidance (Relevant Points)

- Locate these areas adjacent to Neighborhood Centers, Mixed-Use Activity Centers, or along transit routes to support short trips and reduce car dependence.
- Require public utilities (water, sewer) and ensure roadway capacity is adequate.
- Integrate multiple housing types within the same blocks and streets, rather than segregating product types into isolated pods.
- Provide a highly connected street network, with frequent intersections and multiple routes that support walking, biking, and efficient transit access.
- Incorporate pocket parks and greens so that every home is within walking distance of usable open space.
- Allow higher residential densities where they directly support nearby centers and where infrastructure capacity can safely and efficiently accommodate additional trips.

Priority Investment Area 5 – US 21 / Farrow Road

The Transformation Idea
If managed proactively, this corridor could evolve into a dynamic mixed-use node, where:

- Housing is integrated with local services, green space, and connectivity.
- Small-scale retail or civic space emerges in pedestrian-scaled form.
- Transit outreach and street design support future modalities.

- Green infrastructure and trails tie into regional networks and broaden mobility options.
- Infrastructure upgrades roads, schools, utilities are phased alongside development.

Discussion

The requested Neighborhood Mixed-Use District (MU1) zoning is not consistent with the intent of the Mixed-Density Residential designation because it would allow commercial uses that are incompatible with the residential character of the surrounding area.

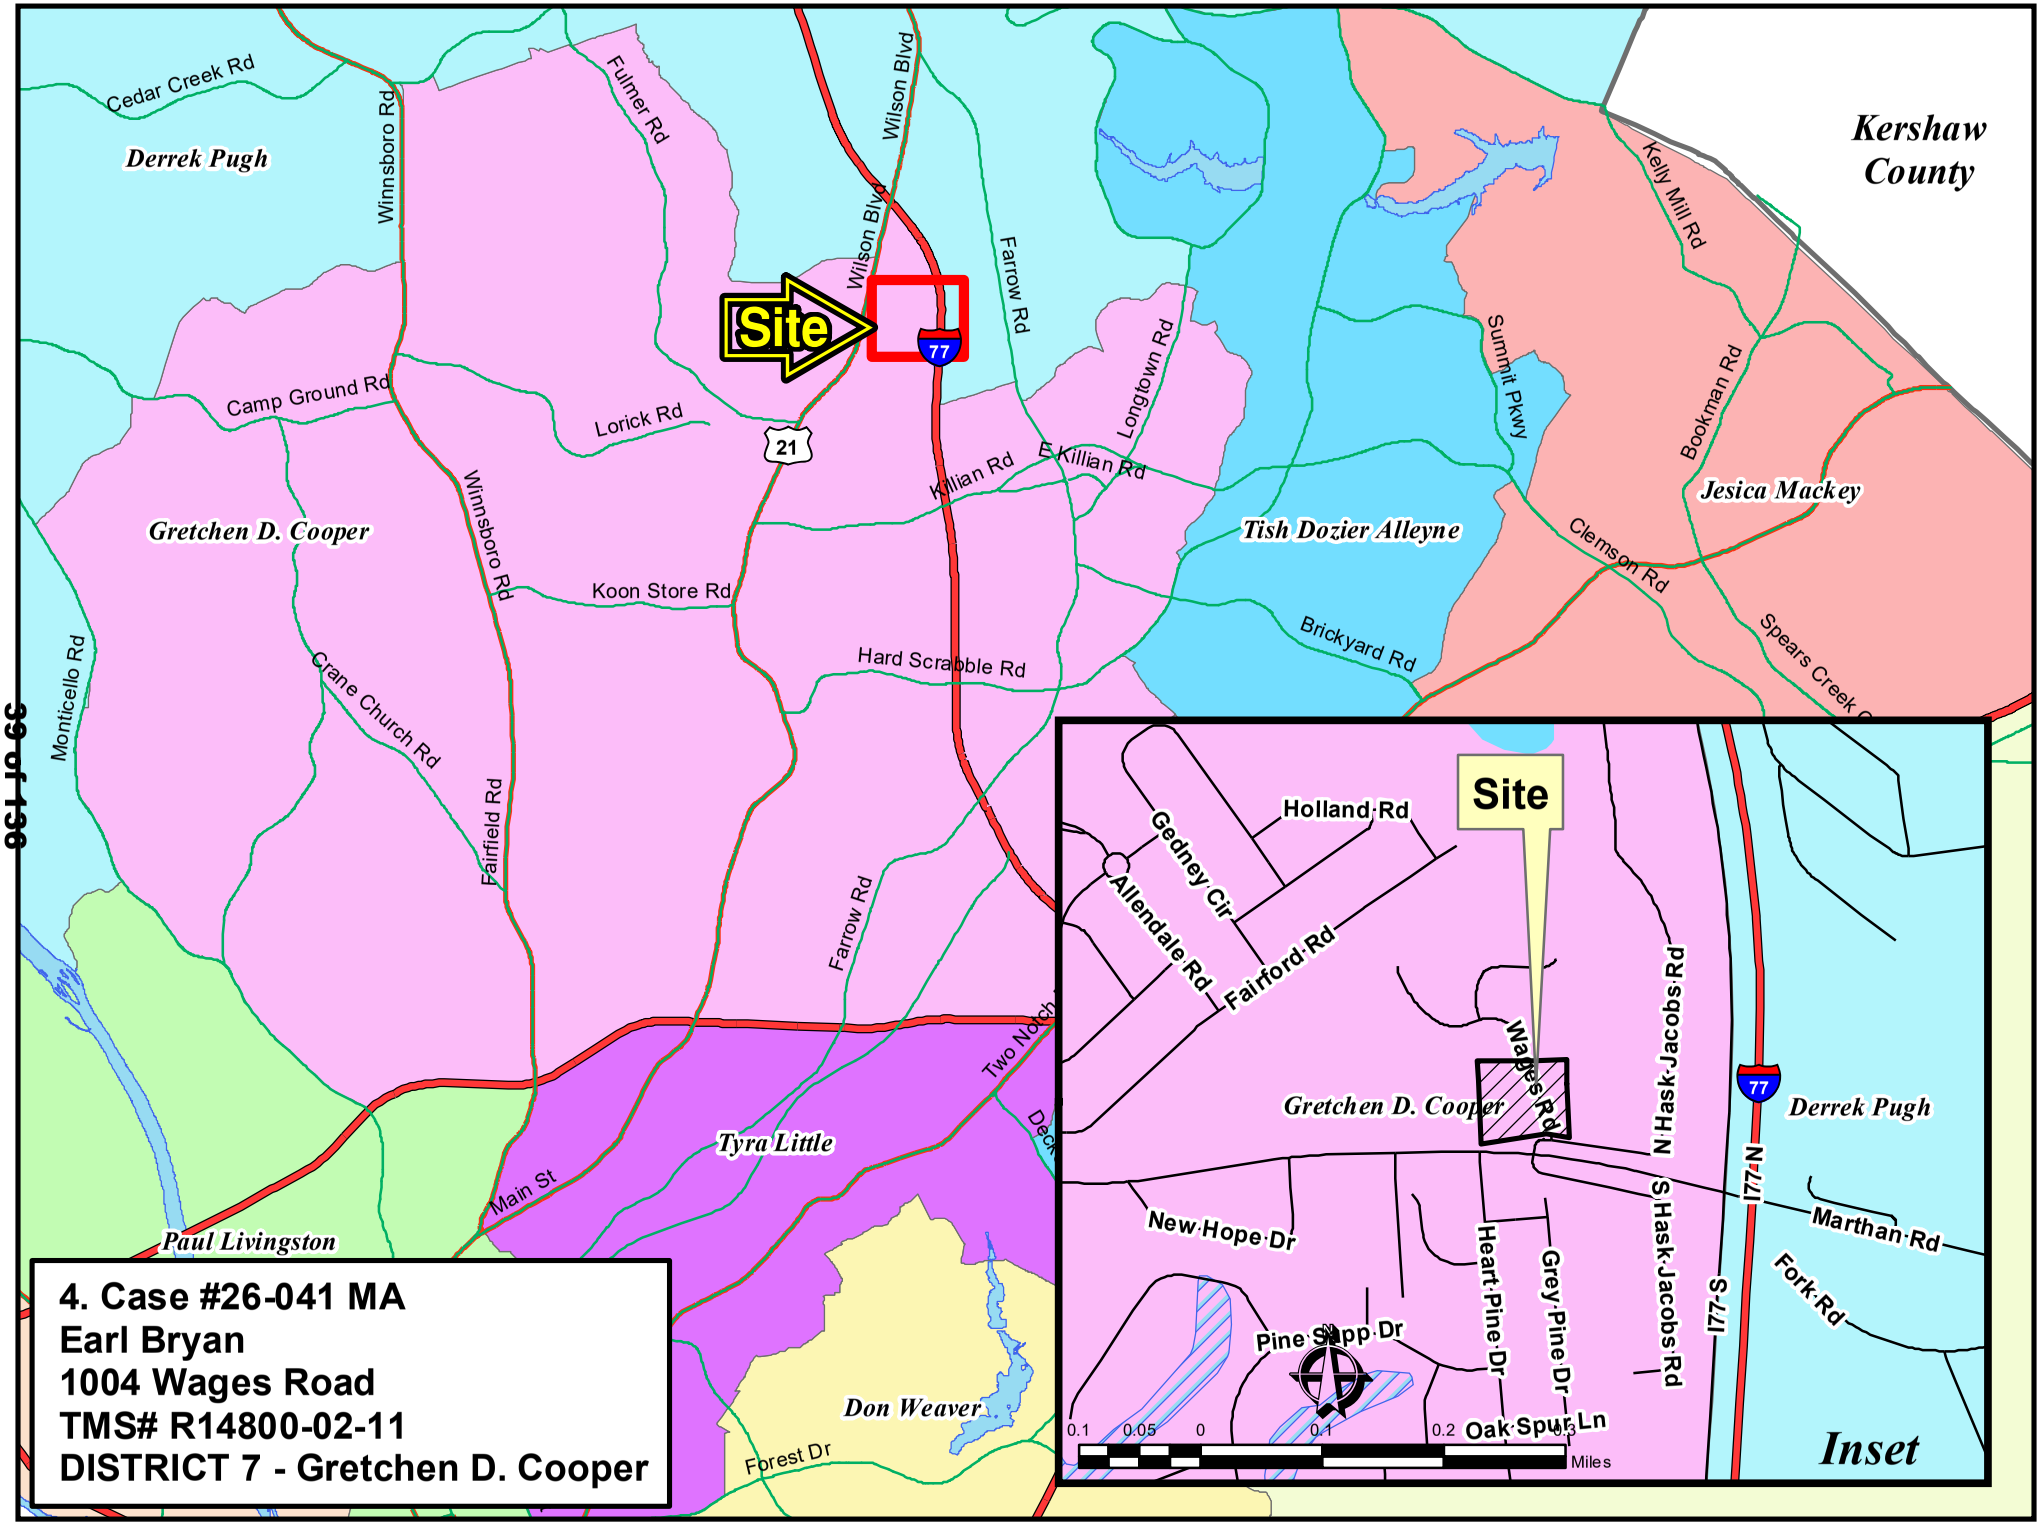

Comprehensive Overview

The district would permit commercial uses that are inconsistent with the predominantly residential development pattern envisioned by the Comprehensive Plan's Mixed-Density Residential designation. While this designation encourages a variety of housing types and proximity to neighborhood and mixed-use activity centers, it does not identify the subject property as one of those centers.

The subject parcel additionally does not provide a highly connected street network, with frequent intersections and multiple routes that support walking, biking, and efficient transit access.

EXISTING ZONING:	**R3**
PROPOSED ZONING:	**R6**

Comprehensive Plan Compliance

Non-Compliant

Background

Zoning History

The original zoning as adopted September 7, 1977 was Residential Single-family Residential (RS-MD). With the adoption of the 2021 Land Development Code the Residential Single-family Residential (RS-MD) district was designated Residential 3 (R3).

Zoning History for the General Area

Case	Zoning at Request	Proposed Zoning	CC Action	PC Rec.	Comp Plan Compliance
20-002 MA	RS-MD	GC	Approved	Approval	Non-Compliant (2015)
03-056 MA	D-1	PDD	Approved	Approval	Compliant (1999)
93-018 MA	RS-2	GC	Approved	Approval	Compliant (1975)

Zoning District Summary

The R6: Residential 6 District provides lands for a broad range of high-intensity housing options in locations where adequate supporting public facilities are available. This district is intended to provide good access and connectivity for vehicles, bicycles, and pedestrians. Development allowed includes multi-family dwellings as well as limited public, civic, and institutional uses that support surrounding residential development and servicing commercial.
Maximum density standard: no more than eighteen (18) dwelling units per acre.

Based upon a gross density calculation*, the maximum number of units for this site is approximately: 81 dwelling units.

*Gross density calculations do not consider site characteristics or land set aside for infrastructure or opens space.

Direction	Existing Zoning	Use
North:	R3 / GC	Single-family / Undeveloped
South:	R3	Church / Undeveloped / Single-family
East:	GC	Towing service / Undeveloped
West:	R3	Single-Family / Manufactured Home Park

Area Characteristics

The subject parcel is undeveloped. The immediate area is characterized by single-family residential, manufactured homes, and undeveloped land.

Traffic Characteristics

Year	Station	Location	Traffic Count	Classification	Capacity	Level of Service
2025	429	Monticello Road	10,600 (ADT)	Five-lane Undivided Minor Arterial Road	24,800 (ADT)	A

There are no planned programs or projects through the SCDOT or the County Penny Sales Tax program for this section of Monticello Road.

Sewer:	Septic	

Plans & Policies

2025 Comprehensive Plan

The 2025 Richland County Comprehensive Plan, ***"REIMAGINE RICHLAND"***, designates this area as ***Light Industrial.***

Light Industrial

Definition and Purpose

Light Industrial Centers support employment-generating uses such as warehousing, logistics, research, and light manufacturing that are compatible with nearby commercial or residential areas when appropriately buffered.

Policy Guidance Policy Guidance (Relevant Points)

- Locate near interstates and major transportation corridors to provide efficient access for trucks and employees while minimizing cut through traffic on local neighborhood streets.
- Consolidate site access and manage driveways and intersections to reduce conflicts with nearby neighborhoods and maintain safe operations.
- Provide substantial buffering and landscaping, including setbacks, berms, and tree plantings, especially along edges shared with residential or sensitive uses.
- Limit or prohibit uses that generate excessive noise, odor, vibration, or heavy truck activity beyond the intended light industrial character.
- Consider Conservation & Development Map amendments for new or expanded Light Industrial Centers where proposals demonstrate strong employment benefits and compliance with compatibility and design standards.

Discussion

The requested zoning of Residential 6 (R6) is not consistent with the Comprehensive Plan as it would allow residential uses in a place type designated for Light Industrial.

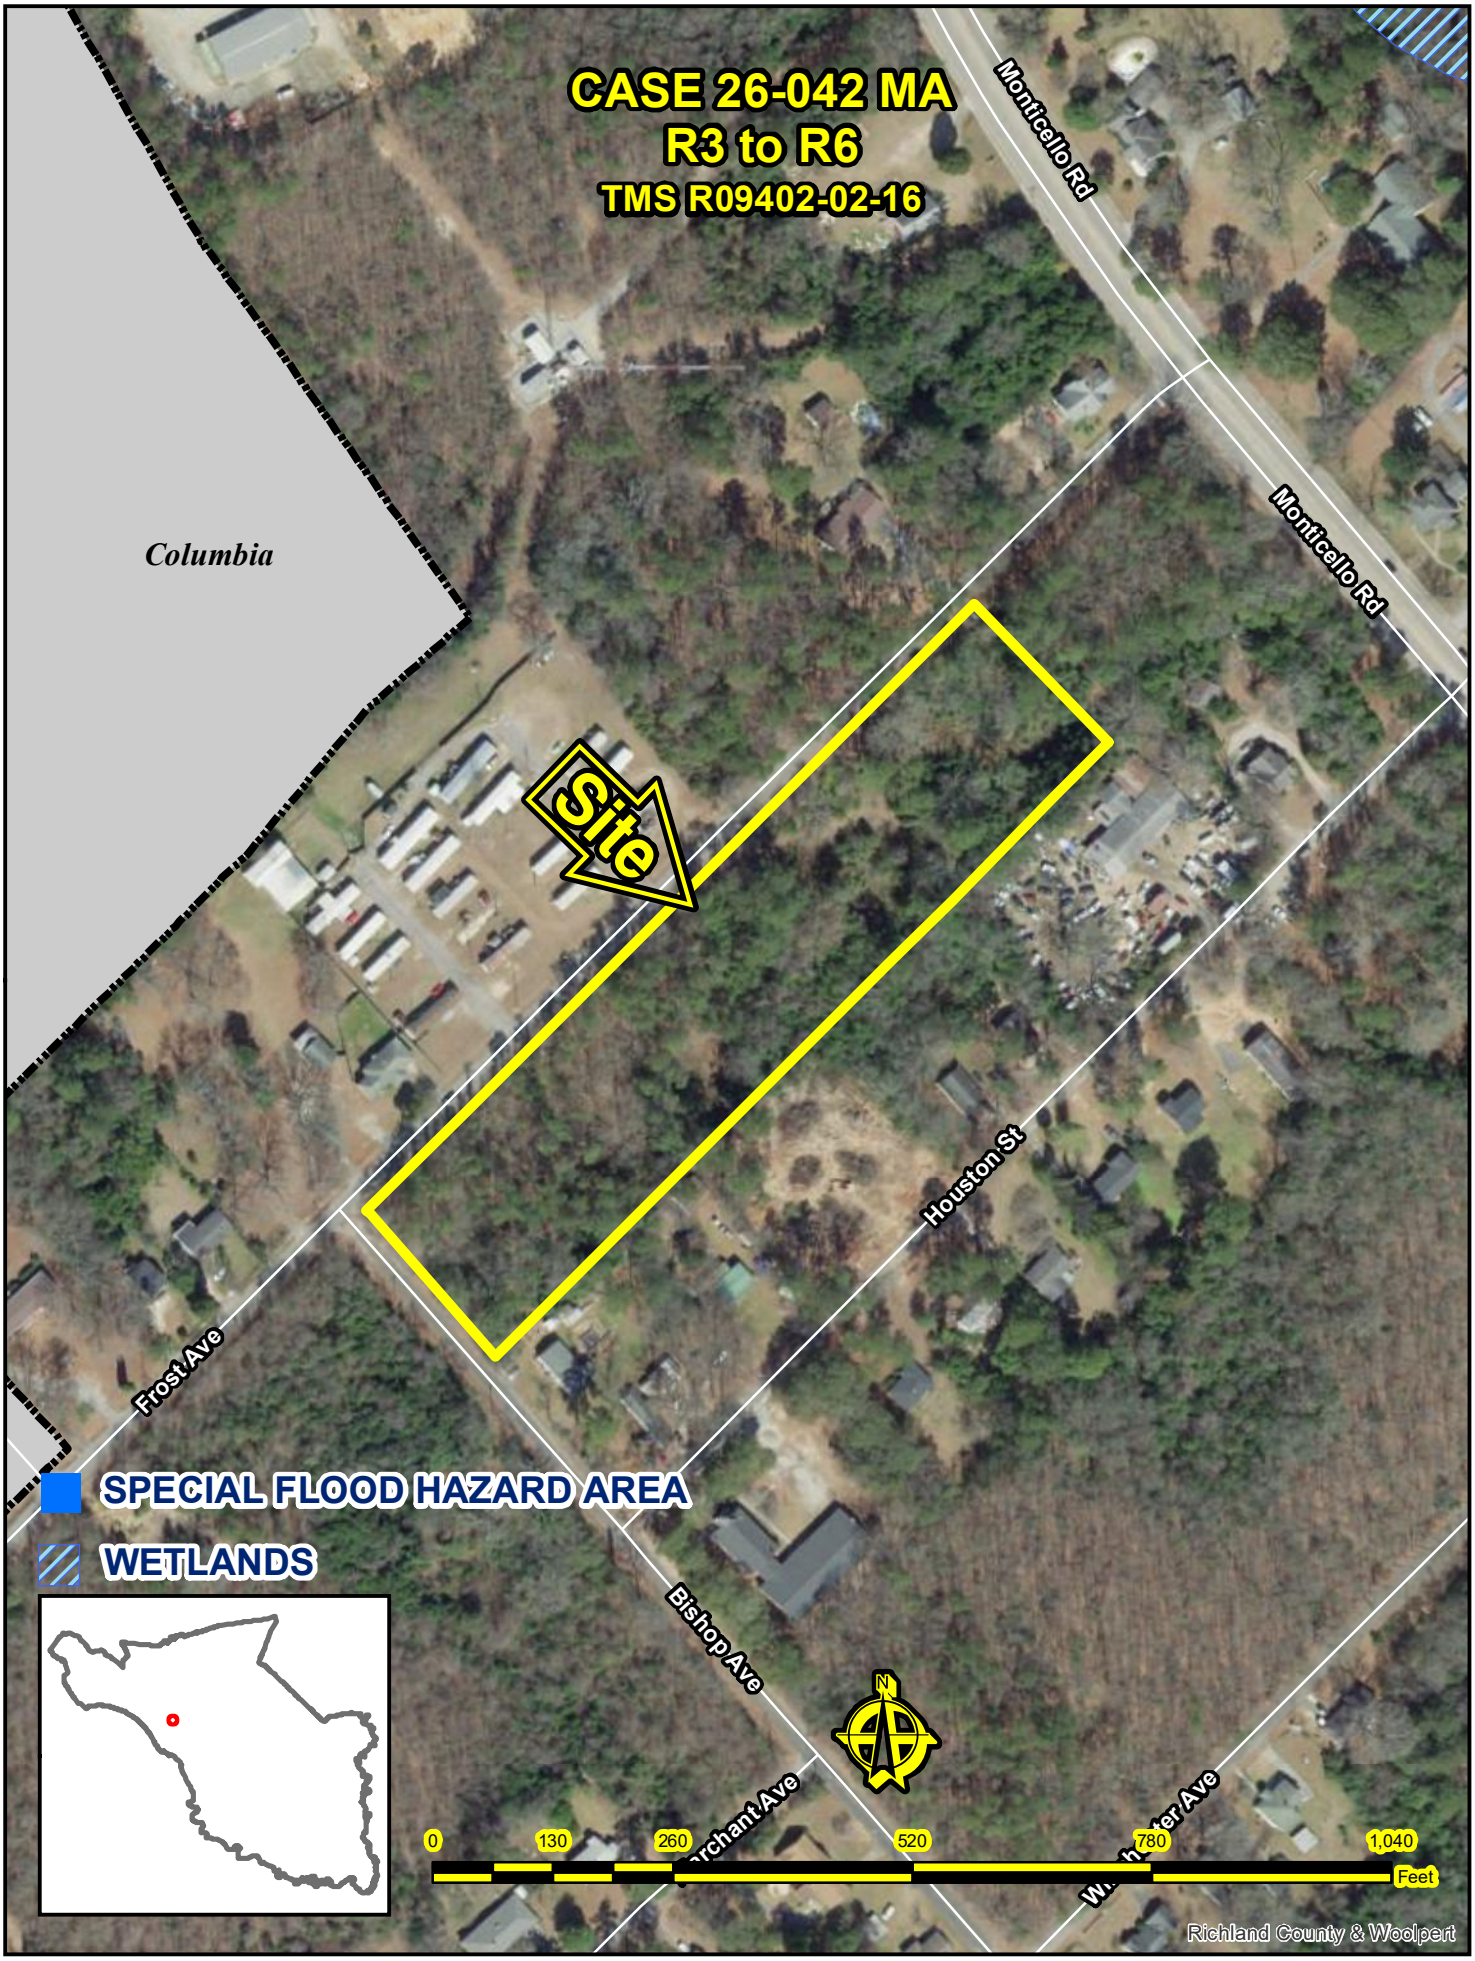

Comprehensive Overview

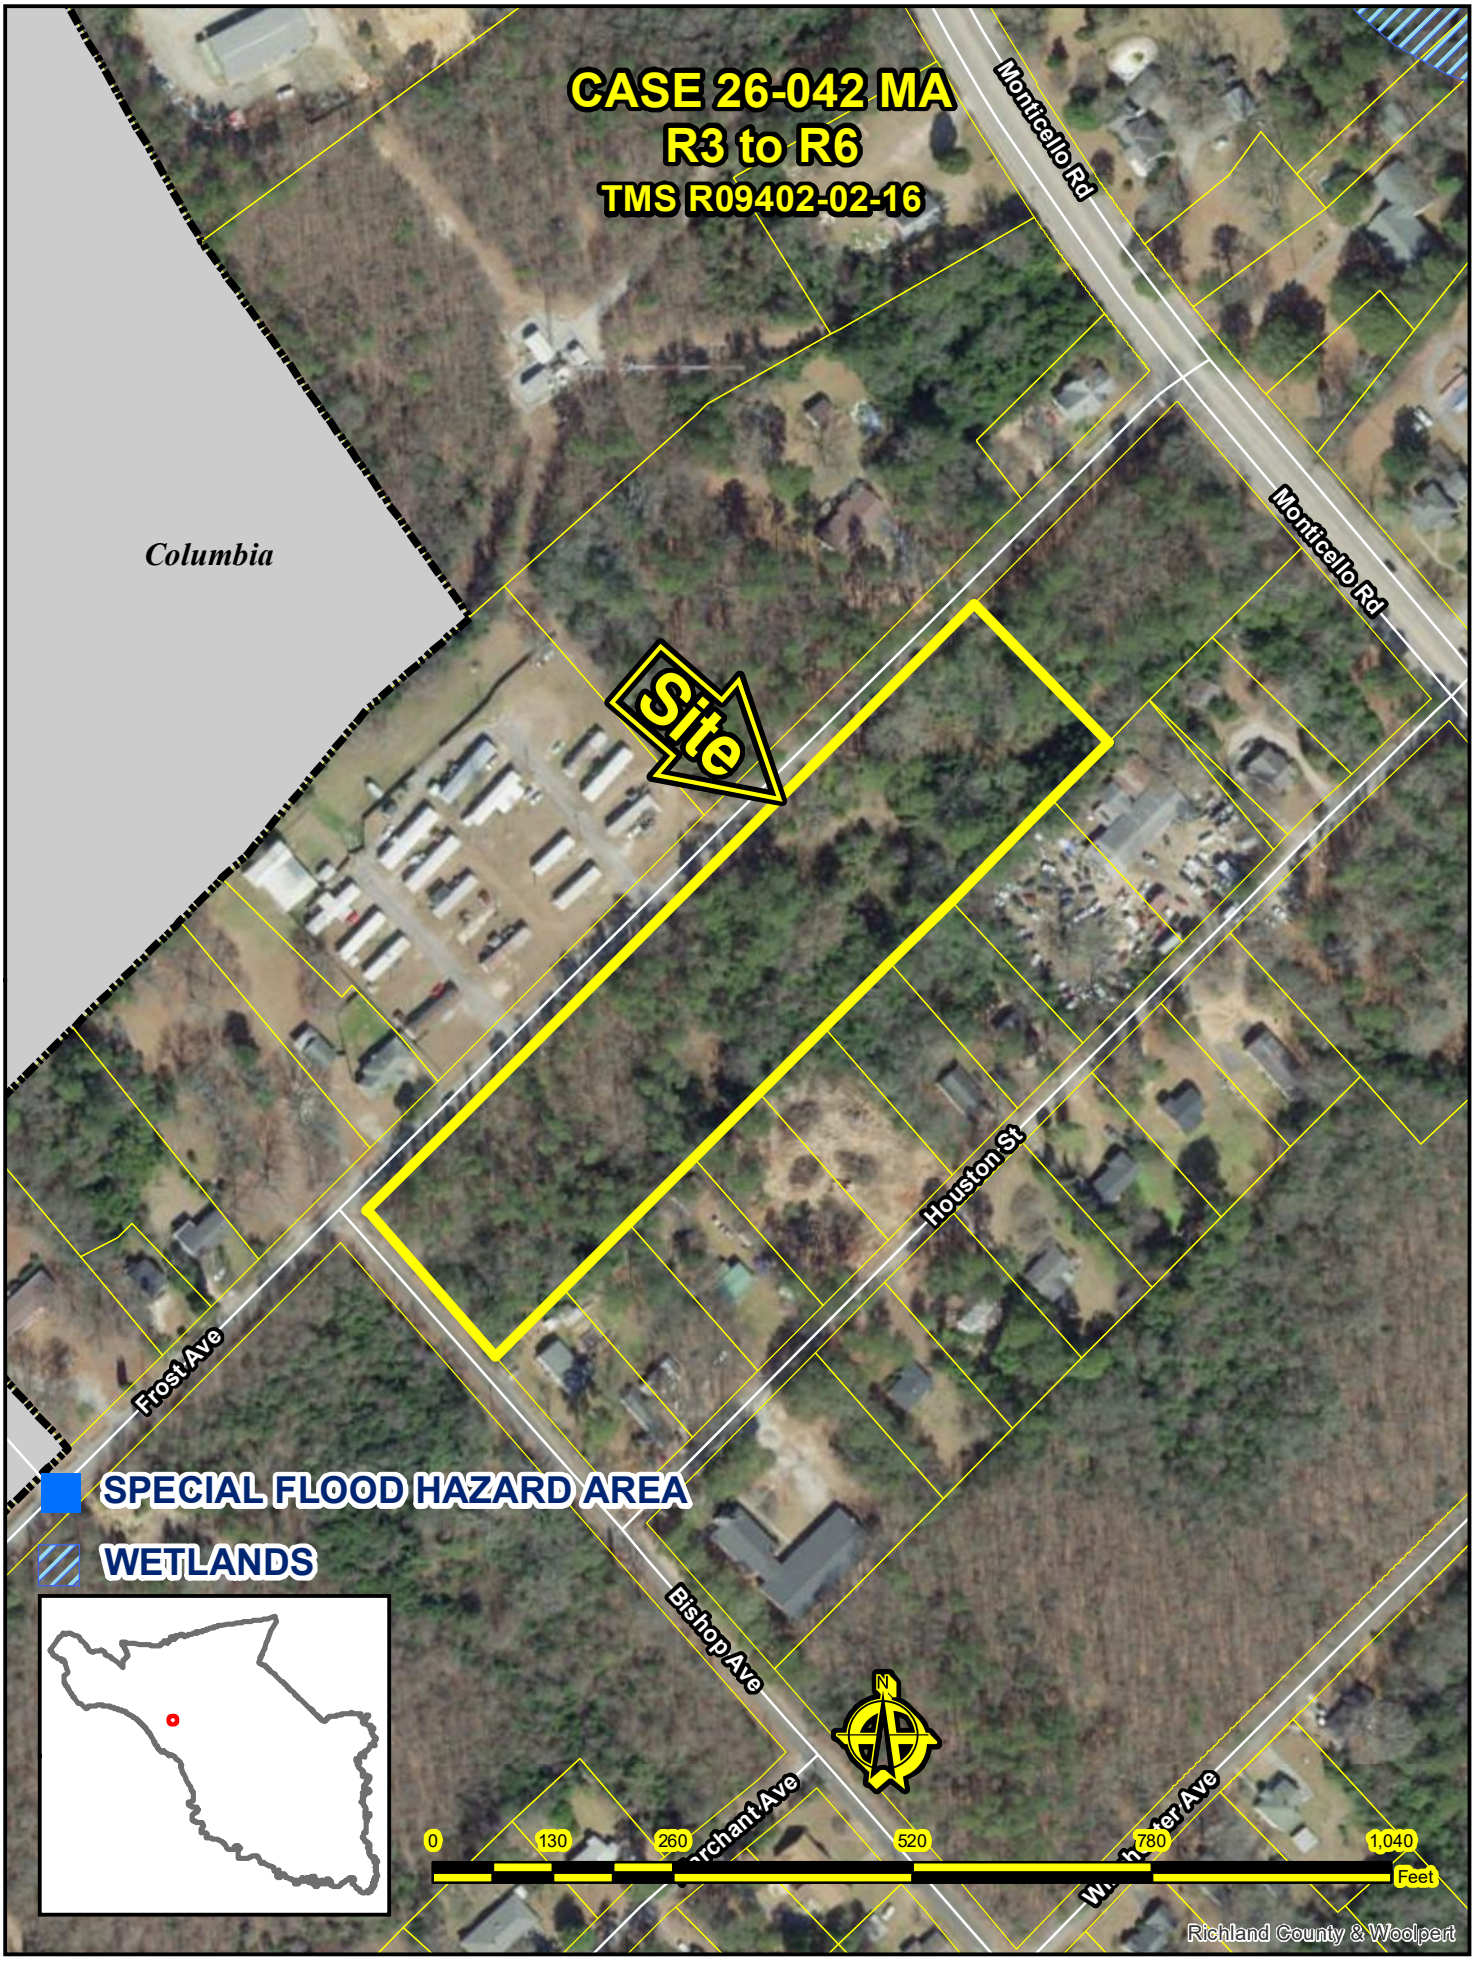

While the comprehensive plan calls for Light Industrial in this area, the character of the area immediately surrounding the parcel is more appropriate for residential uses, like R6. High density residential (townhomes, duplexes, and multi-family) would be supportive of the commercial zoning along Monticello Rd, the nearby community center - Columbia International University, and the adjacent Mixed Density Residential place type.

If the Planning Commission recommends approval of the R6 zoning, the Commission may want to consider amending the future land use map to better reflect the direction of development in the area. In which case, it may be appropriate to expand the adjacent place type of Mixed Density Residential to also encapsulate the residential areas that are southwest of Monticello Rd.

Background

Zoning History

The original zoning as adopted September 7, 1977 was Rural (RU). With the adoption of the 2021 Land Development Code the Rural (RU) district was designated Homestead (HM).

Zoning History for the General Area

Case	Zoning at Request	Proposed Zoning	CC Action	PC Rec.	Comp Plan Compliance
91-038	D-1 / C-3	GC	Approved	Approval	Unknown

Zoning District Summary

The GC: General Commercial District provides lands for a broad range of commercial uses, characterized primarily by retail, office, and service establishments, in a primarily automobile-oriented environment along corridors. Allowed uses include retail sales, personal and business services, recreation/entertainment, eating and drinking establishments, lodging, vehicle sales and services, and multi-family residential development.

Maximum density standard: no more than sixteen (16) dwelling units per acre.

Based upon a gross density calculation*, the maximum number of units for this site is approximately: 64 dwelling units.

*Gross density calculations do not consider site characteristics or land set aside for infrastructure or opens space.

Direction	Existing Zoning	Use
North:	HM	Undeveloped
South:	AG	Undeveloped
East:	HM / GC	Undeveloped / Automotive Repair Shop
West:	HM / GC	Farm / Interstate Transportation Equipment

Area Characteristics

The subject parcel is undeveloped. The immediate area is characterized by undeveloped parcels, farm land, and some commercial uses.

Traffic Characteristics

Year	Station	Location	Traffic Count	Classification	Capacity	Level of Service
2025	171	Garners Ferry Road	35,900 (ADT)	Four-land (divided) Principal Arterial	33,600 (ADT)	"D"

There are no planned or programmed improvements for this section of Garners Ferry Road or through SCDOT or the County Penny Sales Tax program.

Public Services

Service	Name	Distance (miles)
School District:	One	
Elementary School:	Horrell Hill	3.9
Middle School:	Southeast	4.5
High School:	Lower Richland	2.1
Fire Service:	Station Number 22	2.4
Water:	City of Columbia	
Sewer:	City of Columbia	

Plans & Policies

The 2025 Richland County Comprehensive Plan, ***"REIMAGINE RICHLAND"***, designates this area as ***Light Industrial Center.***

Light Industrial Center

Definition and Purpose
Light Industrial Centers support employment-generating uses such as warehousing, logistics, research, and light manufacturing that are compatible with nearby commercial or residential areas when appropriately buffered.

Policy Guidance Policy Guidance (Relevant Points)

- Locate near interstates and major transportation corridors to provide efficient access for trucks and employees while minimizing cut through traffic on local neighborhood streets.
- Consolidate site access and manage driveways and intersections to reduce conflicts with nearby neighborhoods and maintain safe operations.
- Provide substantial buffering and landscaping, including setbacks, berms, and tree plantings, especially along edges shared with residential or sensitive uses.
- Integrate stormwater management and green infrastructure where feasible (e.g., bioretention areas, vegetated swales, pond edges designed as amenities).
- Limit or prohibit uses that generate excessive noise, odor, vibration, or heavy truck activity beyond the intended light industrial character.
- Consider Conservation & Development Map amendments for new or expanded Light Industrial Centers where proposals demonstrate strong employment benefits and compliance with compatibility and design standards.

Discussion

The requested General Commercial (GC) zoning is not consistent with the primary purpose of the Comprehensive Plan - Light Industrial Center designation, which emphasizes warehousing, logistics, research, and light manufacturing.

Comprehensive Overview

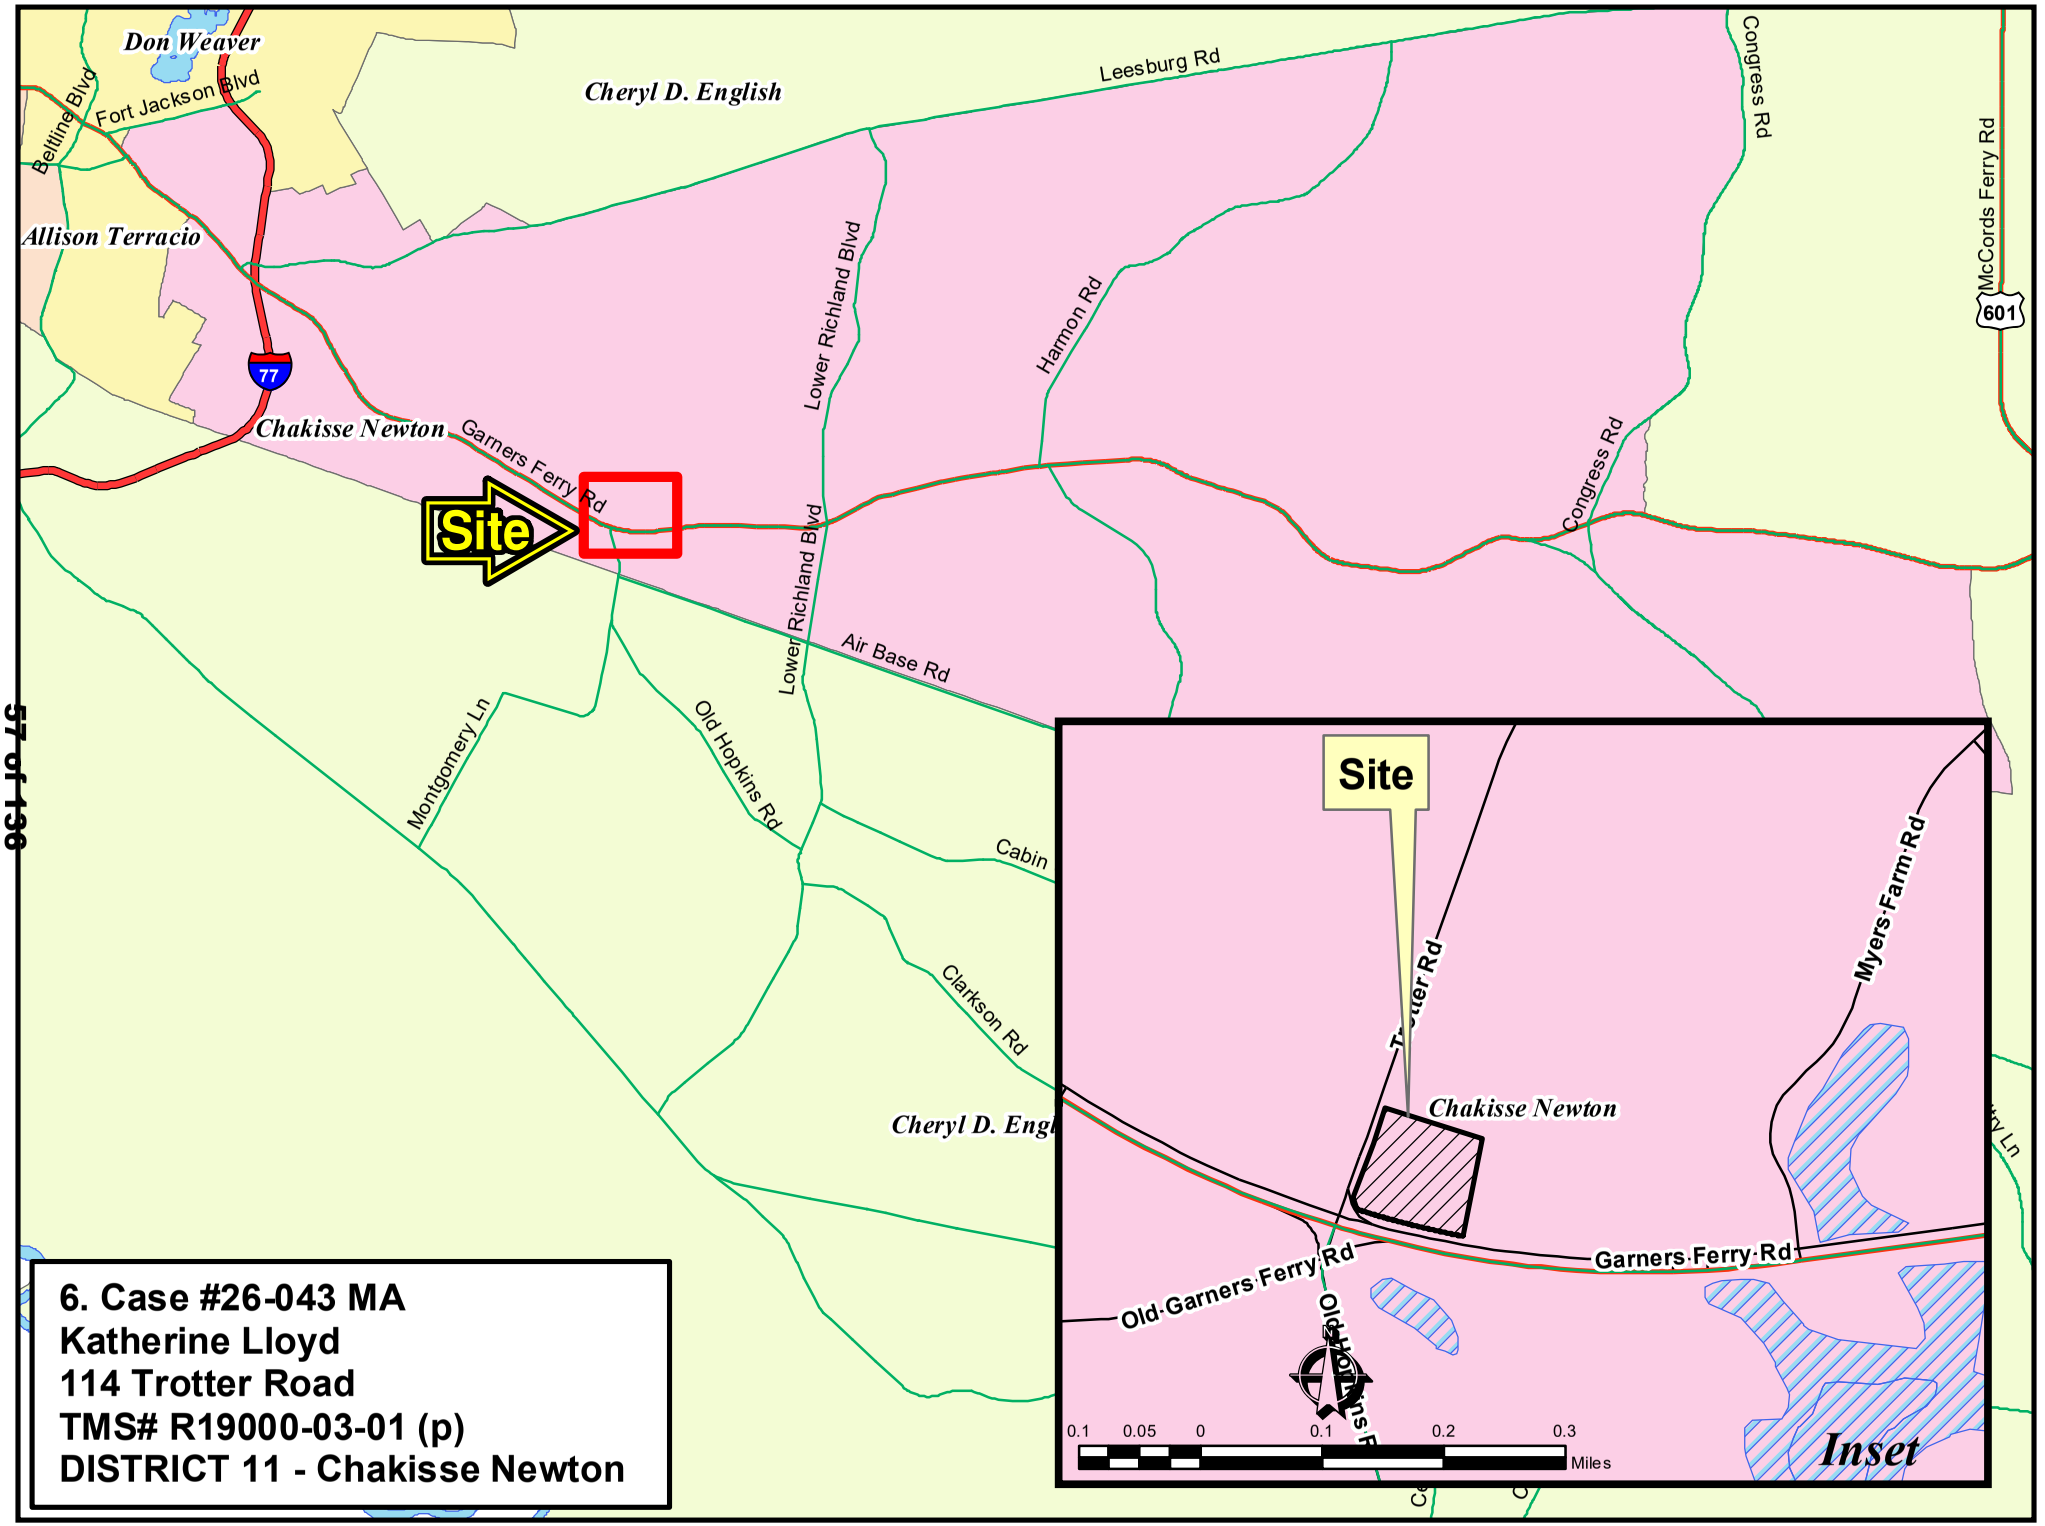

The requested General Commercial (GC) zoning is not clearly consistent with the Light Industrial Center designation, which prioritizes light industrial development and employment generation. Although the site's proximity to an interstate and a major transportation corridor aligns with the Plan's transportation-access guidance, location alone does not demonstrate alignment with the designation's intended development character.

The request would be consistent with the character of the adjacent properties to the west and southwest, which are zoned General Commercial (GC). Additionally, the proposed zoning could serve as a transitional buffer between potential industrial development south of Garners Ferry Road and the low-density development north of Garners Ferry Road.

Future study of the areas north of Garners Ferry Road may be needed to ensure compatibility between the designations of the Comprehensive Plan and the current zoning districts.

An "SE" indicates that the use is allowed in the zoning district only if the Board of Zoning Appeals approves a special exception permit for the use.

Commercial District Purpose Statement Updates

The proposed updates to the commercial district general descriptions are intended to make them clearer, more consistent, and better aligned with the County's updated Comprehensive Plan while preserving the original purpose of each district.

The proposed revisions would replace outdated language with clearer wording, better define the role and character of each commercial district, and establish a more consistent format throughout the Land Development Code. These changes are intended to make the general descriptions easier for property owners, developers, staff, the Planning Commission, and County Council to understand and apply.

Overall, the proposed updates would not change the intent of the commercial districts. Instead, they would provide clearer guidance, reduce confusion, and improve consistency in zoning and development decisions.

Key accomplishments of the proposed updates:

- Preserve the original intent of each commercial district.
- Modernize and clarify the district purpose statements.
- Improve consistency in terminology across all commercial districts.
- Better align district purposes with the goals and place types of the updated Comprehensive Plan.
- More clearly distinguish the intended character, scale, and function of each commercial district.
- Reduce ambiguity to improve the interpretation and application of the Land Development Code during zoning and development review.

Current Purpose Description

The INS: Institutional District provides lands to accommodate institutional and civic uses that are typically developed on a large site, such as college or university campuses, research facilities, and preserves; vocational or trade schools; government office complexes, and correctional institutions. This district also accommodates support uses such as offices, eating and drinking establishments, and limited retail sales and personal and business services uses that primarily serve the principal institutional or civic use. District standards are intended to ensure compatibility with surrounding development.

Proposed Purpose Description

The Institutional (INS) District is intended to accommodate large-scale institutional, civic, educational, governmental, and research campuses that serve the community or region. Typical uses include colleges and universities, career and technical education facilities, research campuses, government office complexes, correctional institutions, preserves, and similar institutional developments. The district also allows limited supporting uses, such as offices, eating and drinking establishments, and ancillary retail and personal services, when they are located within and primarily serve the principal institutional or civic campus. District standards are intended to promote campus-style development, provide appropriate transitions to surrounding areas, and ensure that supporting uses remain subordinate to the primary institutional use.

Accomplished Objectives

Based on the current purpose statement and the Planning Commission's comments, the revised description should reinforce that the INS District is intended for large-scale campus-style institutional and civic uses, clarify that supporting commercial uses are subordinate to and located within the principal institutional development, replace outdated terminology, and provide clearer guidance on the relationship between institutional campuses and surrounding development.

Planning Commission Comments

Planning Commission Comment	Addressed by
INS is intended for large, campus-style institutional development.	Clearly identifies the district as accommodating large-scale institutional, civic, educational, governmental, and research campuses.
Supporting uses should primarily serve the institutional use.	States that offices, dining, retail, and personal services must be located within and primarily serve the principal institutional or civic campus.
Retail should be limited.	Clarifies that retail is ancillary and subordinate to the primary institutional use, rather than a standalone commercial activity.
"Vocational school" is outdated terminology.	Replaces vocational schools with career and technical education facilities, reflecting current educational terminology.
The final sentence is too open to interpretation regarding compatibility.	Replaces the broad compatibility statement with more specific guidance emphasizing campus-style development, appropriate transitions to surrounding areas, and ensuring that supporting uses remain subordinate to the principal institutional use.

INS is intended for large, campus-style institutional development.	Clearly identifies the district as accommodating large-scale institutional, civic, educational, governmental, and research campuses.

Results Achieved

The proposed revisions maintain the original purpose of the Institutional District while providing clearer guidance on its intended role as the County's district for large-scale institutional and campus-style development. The revised language replaces outdated educational terminology, clarifies that supporting commercial uses must be ancillary to and located within the principal institutional campus, and provides more specific direction regarding campus design, transitions to surrounding development, and the relationship between primary and supporting uses. These revisions better reflect current planning practices and the goals of the updated Comprehensive Plan.

Approach

To establish a clear role for the Institutional district:

- INS = large-scale, campus-style institutional, civic, educational, governmental, and research uses
- Principal institutional uses = the primary use that establishes the campus or institutional development
- Supporting uses = limited commercial, service, residential, dining, recreation, and visitor-serving uses that primarily serve the principal institutional use
- MU1/MU2/MU3/GC = commercial and mixed-use districts that accommodate standalone commercial activity
- Industrial districts = production, warehousing, distribution, intensive service, and similar activities

This makes the revised INS purpose statement more meaningful, because the use table—not the purpose statement alone - establishes the distinction between principal institutional uses and supporting uses and reinforces the intended campus-style character of the district.

Campus & Scale Standards

Some uses should remain but be limited to their role as supporting campus uses.
For example:

- Retail sales — limited in scale and primarily serving the institutional campus
- Restaurants/food service — campus-serving and subordinate to the principal institutional use
- Offices and personal services — primarily serving the institutional or civic campus
- Hotels/lodging — limited to facilities primarily serving campus visitors, students, patients, employees, or other institutional users
- Residential uses — limited to housing directly associated with the principal institutional use, such as dormitories or campus housing
- Recreation/athletic facilities — campus-related and subordinate to the principal institutional use
- Parking — accessory to the institutional use rather than a standalone commercial use
- Utilities and communication facilities — accessory to the campus and subject to applicable general standards

This allows the INS district to provide for the range of uses needed to support major institutional and civic campuses without becoming a catch-all institutional, commercial, residential, transportation, or utility district.

Bottom Line

Keep: large-scale institutional, educational, governmental, civic, research, and community-serving uses; campus housing; and selected supporting dining, retail, office, personal service, recreation, and visitor-serving uses when they are subordinate to and primarily serve the principal institutional use.

Remove: general commercial uses, standalone lodging and residential uses, regional transportation uses, specialized recreation and entertainment, intensive vehicle uses, standalone commercial parking, waste/recycling uses, and other uses that either are not inherently institutional or are better located in MU/GC/industrial districts.

Proposed Institutional District (INS) Updates

Land Use Types

	Use Classification	Land Use Type	Current Status	Recommendation	Justification / Planning Rationale
1	Agricultural	Community garden	SE	KEEP WITH LIMITATIONS	Compatible with an institutional campus or preserve, but should remain subordinate to the principal institutional use.
2	Agriculture and Forestry Related	Agriculture research facility	P	KEEP	Directly supports the research-campus purpose.
3	Agriculture and Forestry Related	Rural retreat	SR	REMOVE	Not inherently institutional and could operate independently of a principal campus.
4	Residential	Children's residential care home	P	REMOVE	Small residential care is not a defining large-scale campus use.
5	Residential	Dormitory	SR	KEEP	Directly supports colleges, universities, and other institutional campuses.
6	Residential	Fraternity or sorority house	SE	KEEP WITH LIMITATIONS	Can be an appropriate component of a college/university campus but should be campus-related.
7	Residential	Rooming or boarding house	SE	REMOVE	General boarding is not necessarily campus-related and could create standalone lodging/residential development.
8	Public, Civic, and Institutional	Animal shelter	P	REMOVE	Not a typical large-scale institutional campus use and may have operational impacts better addressed elsewhere.
9	Public, Civic, and Institutional	Community food services	P	KEEP WITH LIMITATIONS	Can support a community-serving institutional campus.
10	Public, Civic, and Institutional	Community recreation center	P	KEEP WITH LIMITATIONS	Can be a civic/institutional campus facility.
11	Public, Civic, and Institutional	Correctional facility	P	KEEP	Specifically identified in the revised purpose.
12	Public, Civic, and Institutional	Cultural facility	P	KEEP	Can be a major civic/institutional facility serving the community or region.
13	Public, Civic, and Institutional	Day care facility	SR	KEEP WITH LIMITATIONS	Can support a large educational or institutional campus.
14	Public, Civic, and Institutional	Government office	P	KEEP	Specifically identified in the revised purpose.

Proposed Institutional District (INS) Updates

Land Use Types

	Use Classification	Land Use Type	Current Status	Recommendation	Justification / Planning Rationale
15	Public, Civic, and Institutional	Hospital	P	KEEP	Large-scale institutional use serving the community or region.
16	Public, Civic, and Institutional	Library	P	KEEP	Civic/institutional use consistent with community-serving campuses.
17	Public, Civic, and Institutional	Membership organization facility	P	KEEP WITH LIMITATIONS	May function as a civic/institutional facility, but should not create a general private-club district.
18	Public, Civic, and Institutional	Nursing care facility	P	KEEP WITH LIMITATIONS	Can be a community-serving institutional use, but should be appropriately scaled.
19	Public, Civic, and Institutional	Place of worship	P	KEEP	Civic/institutional use that can function as a substantial campus-style development.
20	Public, Civic, and Institutional	Public recreation facility	P	KEEP	Can be a large civic facility serving the community or region.
21	Public, Civic, and Institutional	Public safety facility	P	KEEP	Governmental/civic use consistent with the district purpose.
22	Public, Civic, and Institutional	Short-term or transitional housing	SE	REMOVE	Housing is not a defining institutional campus use and could operate independently.
23	Education	College or university	P	KEEP	Specifically identified and is a primary example of a large-scale institutional campus.
24	Education	Elementary, middle, or high school	P	KEEP	Educational campuses are consistent with the revised purpose.
25	Education	School, business or trade	P	KEEP	Career and technical education is specifically identified in the revised purpose.
26	Funeral and Mortuary Services	Cemetery	P	KEEP WITH LIMITATIONS	Can function as a preserve/open-space component of a civic or institutional development.
27	Funeral and Mortuary Services	Funeral home or mortuary	P	REMOVE	General funeral services are not a defining large-scale institutional campus use.
28	Parks and Open Space	Arboretum or botanical garden	P	KEEP	Supports the preserve, research, educational, and campus concepts.

Proposed Institutional District (INS) Updates

Land Use Types

	Use Classification	Land Use Type	Current Status	Recommendation	Justification / Planning Rationale
29	Parks and Open Space	Park or greenway	P	KEEP WITH LIMITATIONS	Can provide campus open space and transitions to surrounding development.
30	Transportation	Transit stop	SR	REMOVE FROM DISTRICT-SPECIFIC TABLE	Can serve campuses but is not a defining INS land use.
31	Transportation	Fleet terminal	P	REMOVE	Transportation operations are not institutional campus uses and may generate substantial operational impacts.
32	Transportation	Passenger terminal, surface transportation	P	REMOVE	Terminal activity is more intensive and not inherent to the institutional campus purpose.
33	Utilities and Communication	Antenna	P	REMOVE FROM DISTRICT-SPECIFIC TABLE	May support campuses but is not district-defining.
34	Utilities and Communication	Broadcasting studio	P	REMOVE	Not inherently institutional and could operate as an independent commercial facility.
35	Utilities and Communication	Communication tower	SE	KEEP	Bridges the digital divide, improves public safety, and supports economic growth in remote communities.
36	Utilities and Communication	Power generation facility	P	REMOVE	Utility infrastructure is not a principal institutional/civic campus use and may have substantial impacts.
37	Utilities and Communication	Solar energy conversion system, Large scale	SR	REMOVE FROM DISTRICT-SPECIFIC TABLE	Energy infrastructure should not be a district-defining institutional use.
38	Utilities and Communication	Utility, minor	SR	KEEP	Minor utilities are generally necessary across zoning districts.
39	Commercial Animal Services	Pet grooming	SR	REMOVE	General commercial service not necessary to support the institutional campus purpose.
40	Commercial Animal Services	Veterinary hospital or clinic	SR	KEEP WITH LIMITATIONS	Could support a research/educational institution or other institutional program, but a standalone clinic is general commercial.
41	Commercial services	Artist studio	P	REMOVE	General commercial/creative use is not necessary to define INS.

Proposed Institutional District (INS) Updates

Land Use Types

	Use Classification	Land Use Type	Current Status	Recommendation	Justification / Planning Rationale
42	Commercial services	Bank, Retail	P	KEEP WITH LIMITATIONS	Can support a large campus, but should primarily serve campus users.
43	Commercial services	Commercial services	P	REMOVE / REDEFINE	Broad category could allow unrelated commercial activity and undermine the subordinate-support requirement.
44	Commercial services	Consumer goods repair	SR	REMOVE	General repair is not a necessary institutional support use.
45	Commercial services	Medical, dental, and health practitioner	P	KEEP WITH LIMITATIONS	Can support hospitals, universities, and other institutional campuses, but independent practices should not turn INS into general commercial zoning.
46	Commercial services	Non-depository personal credit institution	SR	REMOVE	General financial service is not necessary to support an institutional campus.
47	Commercial services	Office	SR	KEEP WITH LIMITATIONS	Specifically identified as a supporting use, but must remain subordinate and campus-serving.
48	Commercial services	Personal services	P	KEEP WITH LIMITATIONS	May serve campus populations but should not function as independent general commercial activity.
49	Commercial services	Bar or other drinking place	P	REMOVE	Not a necessary institutional support use and may create noise, traffic, and compatibility concerns.
50	Commercial services	Restaurant	P	KEEP WITH LIMITATIONS	Eating establishments are specifically identified as supporting uses.
51	Commercial services	Restaurant, Carry-out	P	KEEP WITH LIMITATIONS	Can support campus users but should not operate as independent general commercial activity.
52	Commercial services	Restaurant, Drive-through	P	REMOVE	Can function as standalone commercial development and conflicts with the campus-style/subordinate-support concept.
53	Recreation/Entertainment	Arena, stadium, or outdoor theater	P	KEEP WITH LIMITATIONS	Large campuses may include athletic, cultural, and event facilities serving the community or region.
54	Recreation/Entertainment	Commercial recreation, Indoor	P	REMOVE / LIMIT	Standalone commercial recreation is not an institutional use.
55	Recreation/Entertainment	Commercial recreation, Outdoor	SR	REMOVE / LIMIT	Standalone outdoor commercial recreation can create impacts inconsistent with INS.

Proposed Institutional District (INS) Updates
Land Use Types

	Use Classification	Land Use Type	Current Status	Recommendation	Justification / Planning Rationale
56	Recreation/Entertainment	Fitness or training center/studio	P	KEEP WITH LIMITATIONS	Can be integral to educational, healthcare, or institutional campuses.
57	Recreation/Entertainment	Golf course	SR	REMOVE	Not a typical institutional/civic campus use and can be a substantial standalone recreation use.
58	Recreation/Entertainment	Marina	P	REMOVE	Specialized recreational/transportation use is not inherent to the institutional campus concept.
59	Recreation/Entertainment	Performing arts center	P	KEEP	Major cultural/institutional facility consistent with community or regional service.
60	Recreation/Entertainment	Shooting range, Indoor	P	REMOVE	Specialized recreation is not necessary to achieve the INS purpose.
61	Recreation/Entertainment	Smoking place	SR	REMOVE	Not a defining institutional or campus-support use.
62	Retail Sales	Bakery	P	KEEP WITH LIMITATIONS	Can function as ancillary food retail serving a campus.
63	Retail Sales	Consumer goods store	SR	KEEP WITH LIMITATIONS	Limited retail is contemplated, but it must remain ancillary and primarily campus-serving.
64	Retail Sales	Convenience store	P	KEEP WITH LIMITATIONS	May support campus users but could otherwise become general commercial development.
65	Retail Sales	Drugstore	P	KEEP WITH LIMITATIONS	Can support hospitals, universities, and other large campuses.
66	Retail Sales	Farmers' market	P	KEEP WITH LIMITATIONS	Can support a campus/community function but should remain subordinate to the institution.
67	Retail Sales	Grocery/Food store	P	KEEP WITH LIMITATIONS	Can serve a large campus population but should not turn INS into a general retail district.
68	Traveler Accommodations	Hotel or motel	P	KEEP WITH LIMITATIONS	Can support universities, hospitals, research facilities, and governmental campuses when primarily serving campus visitors/users.
69	Vehicle Sales and Services	Parking, Commercial	P	REMOVE	Standalone commercial parking is not an institutional campus use.

Proposed Institutional District (INS) Updates

Land Use Types

	Use Classification	Land Use Type	Current Status	Recommendation	Justification / Planning Rationale
70	Industrial	Recycling collection station	P	REMOVE	Waste collection is not a principal institutional/civic campus use and may create operational impacts.
71	Industrial	Recycling sorting facility	P	REMOVE	Industrial waste-processing activity is inconsistent with the institutional campus purpose.

Suggested Additions

	Land Use Type	Why Add It	Recommended Approach	Definition
1	Research facility / research campus	The revised purpose expressly identifies research campuses, while the table only specifically identifies an agriculture research facility.	Add a defined principal research facility/campus use.	A land-use designation that permits buildings and grounds to be used for scientific, medical, technological, or industrial research, development, and testing. These areas are specifically designed to accommodate a mix of administrative offices, laboratories, and prototype manufacturing.
2	Institutional campus	The revised purpose depends on the concept of a principal campus and subordinate supporting uses.	Define an institutional campus concept or establish a campus/master-plan standard.	A large-scale public, non-profit, or private educational, medical, and governmental complex. Supportive commercial on-site dining, retail, housing, or parking facilities that primarily serve students, patients, staff, and visitors; and recreational/athletic facilites as accessory uses are permitted.

Rural Crossroads (RC)

Current Purpose Description

This district provides rural lands of the County a limited range of commercial uses, such as small-scale food stores, gasoline stations, produce stands, small feed stores, restaurants, and limited personal services, in order to meet the needs of residents in the surrounding rural community. This district is designed to be located at major intersections so as to prevent the spreading of commercial uses along the major corridors or into the surrounding countryside.

Proposed Purpose Description

The Rural Crossroads (RC) District is intended to provide a limited range of small-scale commercial and service uses that meet the everyday needs of residents in rural, countryside, and other low-density areas of the County where access to goods and services may be limited. Appropriate uses include neighborhood-serving retail, convenience stores, produce stands, feed stores, restaurants, gasoline stations, and personal service establishments that are compatible with the surrounding rural character.

The district is intended to accommodate these uses at appropriate locations along collector or arterial roadways, particularly where transportation routes converge or where commercial services can efficiently serve the surrounding community. Development within the RC District should be designed to function as small-scale commercial nodes that support nearby residents while avoiding the proliferation of commercial strip development along road corridors or the encroachment of commercial uses into surrounding agricultural, countryside, or rural residential areas.

The RC District is intended to preserve the character of the surrounding area by encouraging appropriately scaled development that provides needed services without promoting more intensive commercial activity better suited for other commercial zoning districts.

Accomplished Objectives

Based on the current purpose statement and the Planning Commission's comments, the revised description should accomplish several objectives:

- Preserve the original intent of providing neighborhood-scale commercial services in rural areas.
- Remove or clarify the "major intersections" requirement, which members found confusing and overly restrictive.
- Use terminology that aligns with the County's updated Comprehensive Plan, particularly the distinction between Countryside and other low-density place types.
- Emphasize that development should occur along appropriate roadway classifications (collector or arterial) rather than relying on subjective terms such as "major."
- Reinforce that the district is intended to prevent strip commercial development while allowing appropriately located rural-serving businesses.

Planning Commission Comments

Planning Commission Comment	Addressed by
Intended for small commercial uses serving rural communities	Emphasizes "limited range of small-scale commercial and service uses" and "everyday needs."
Remove confusing "major intersections" language	Replaces with "appropriate locations along collector or arterial roadways" and "where transportation routes converge."

Clarify appropriate location	Identifies roadway classification rather than subjective terms such as "major."
Better align with Comprehensive Plan terminology	References "rural, countryside, and other low-density areas" rather than using "rural" and "countryside" interchangeably.
Prevent strip commercial development	Retains the original policy objective of discouraging corridor strip development.
Maintain rural character	Adds language emphasizing compatible scale and protecting agricultural and rural residential areas.

Results Achieved

The proposed revisions maintain the original purpose of the RC District while enhancing clarity, reducing ambiguity, and better aligning the district's purpose with the terminology and policy framework of the updated Comprehensive Plan.

Approach

To establish a clear hierarchy among the commercial districts:

- RC = rural/countryside, small-scale, everyday/rural-serving goods and services
- MU1 = neighborhood-scale/mixed-use commercial activity
- MU2/MU3 = increasingly larger or more intensive commercial/activity-center functions
- GC = larger-scale/general commercial activity
- Industrial districts = production, warehousing, distribution, intensive service, and similar activities

That approach makes the revised RC purpose statement more meaningful, because the use table—not the purpose statement alone - establishes the intended scale and intensity for development.

Scale Standards

Some uses should remain but be limited by scale.
For example:

- Grocery/food store — small-scale
- Building supply sales — limited floor area/outdoor storage
- Outdoor power equipment — limited floor area/outdoor display
- Vehicle parts — limited floor area
- Restaurant — limited building size
- Drive-through — appropriate access/site design
- Veterinary clinic — no large boarding/kennel component
- Contractor's office — prohibit or limit outdoor storage

This allows the RC district to provide for the actual needs of rural communities without becoming a catch-all commercial district.

Bottom Line

Keep: agriculture/rural-support uses, everyday retail, convenience/grocery/food uses, restaurants, personal/professional services, small-scale rural-serving automotive services, and selected community-serving services.

Remove: institutional uses, regional transportation uses, major recreation/entertainment, hotels, intensive vehicle uses, self-storage, warehousing, manufacturing, recycling, and other uses that either generate substantial impacts or are better located in MU/GC/industrial districts.

Proposed Rural Crossroads (RC) Updates
Land Use Types

	Use Category	Land Use Type	Current Status	Recommendation	Justification / Planning Rationale
1	Agricultural	Community garden	SR	KEEP	Supports rural/community-oriented activity and is consistent with the district's rural-serving purpose.
2	Agricultural	Agritourism	P	KEEP	Can support rural character and provide a rural-serving activity without requiring intensive commercial development.
3	Agricultural	Produce stand	P	KEEP	Directly supports the stated purpose of providing rural-oriented goods and services.
4	Agricultural	Veterinary services (livestock)	P	KEEP	Provides an essential rural-serving service, particularly for agricultural and countryside areas.
5	Agricultural	Agricultural / feed supply store	Not listed	ADD	The current RC purpose specifically identifies feed stores as an appropriate use, but the use table does not clearly provide for this use.
6	Residential	Dwelling, Live-Work	SR	KEEP WITH LIMITATIONS	Can provide a small-scale mixed residential/commercial function appropriate to a rural crossroads if limited in scale.
7	Residential	Children's residential care home	P	REMOVE	This is not a rural-serving commercial use and is better addressed through residential or institutional districts.
8	Residential	Group home, Large	SE	REMOVE	Institutional/residential care use is not central to the purpose of RC and may create impacts inconsistent with a small commercial node.

Proposed Rural Crossroads (RC) Updates
Land Use Types

	Use Category	Land Use Type	Current Status	Recommendation	Justification / Planning Rationale
9	Residential	Rooming or boarding house	SE	REMOVE	Higher-intensity residential lodging use does not directly support the district's rural-serving commercial purpose.
10	Public/Civic/Institutional	Community food services	P	KEEP	Provides a community-serving function that can complement a rural crossroads.
11	Public/Civic/Institutional	Community recreation center	SR	REMOVE	Not a defining rural-serving commercial use; may be more appropriately located in institutional or recreation districts.
12	Public/Civic/Institutional	Cultural facility	P	REMOVE	Not specifically tied to the rural crossroads purpose and broad inclusion could expand RC beyond its intended role.
13	Public/Civic/Institutional	Day care facility	SR	REMOVE	Institutional service use is not central to the district's stated commercial purpose.
14	Public/Civic/Institutional	Government office	P	REMOVE	General government offices do not need to be established as a defining RC use.
15	Public/Civic/Institutional	Hospital	P	REMOVE	Scale and intensity are inconsistent with a small-scale commercial node.
16	Public/Civic/Institutional	Library	P	REMOVE	Civic/institutional use is not necessary to achieve the district's stated purpose.
17	Public/Civic/Institutional	Membership organization facility	P	REMOVE	Not a specifically rural-serving use and may introduce broad institutional activity.
18	Public/Civic/Institutional	Nursing care facility	P	REMOVE	Generally larger/intensive institutional use is inconsistent with the intended scale of RC.
19	Public/Civic/Institutional	Place of worship	SR	REMOVE	Civic/institutional use is not central to the district purpose; may be accommodated through broader institutional provisions.

Proposed Rural Crossroads (RC) Updates
Land Use Types

	Use Category	Land Use Type	Current Status	Recommendation	Justification / Planning Rationale
20	Public/Civic/Institutional	Public recreation facility	SR	REMOVE	Not a defining rural-serving commercial use.
21	Public/Civic/Institutional	Public safety facility	P	REMOVE	Public safety facilities do not need to be tied to RC as a commercial district use.
22	Public/Civic/Institutional	College or university	P	REMOVE	Scale and intensity are inconsistent with the small-scale rural crossroads concept.
23	Public/Civic/Institutional	Elementary, middle, or high school	P	REMOVE	Schools are institutional uses and are not central to the purpose of RC.
24	Public/Civic/Institutional	School, business or trade	SR	REMOVE	Institutional use is not central to the district purpose.
25	Public/Civic/Institutional	Cemetery	SR	REMOVE	Not a rural-serving commercial use and does not need to be specifically permitted in RC.
26	Public/Civic/Institutional	Funeral home or mortuary	P	REMOVE	Could be accommodated in other service/commercial districts; not necessary to define RC.
27	Public/Civic/Institutional	Arboretum or botanical garden	P	REMOVE	Not a typical small-scale crossroads service use.
28	Public/Civic/Institutional	Park or greenway	SR	REMOVE	Public open-space uses need not be district-defining commercial uses.
29	Transportation	Transit stop	SR	REMOVE	A transit stop is a transportation facility that can occur independently of the underlying commercial district.
30	Transportation	Fleet terminal	P	REMOVE	Fleet-terminal activity can generate traffic and operational impacts inconsistent with a small-scale commercial node.
31	Transportation	Passenger terminal, surface transportation	P	REMOVE	Terminal uses are more intensive than the intended rural-serving crossroads function.

Proposed Rural Crossroads (RC) Updates
Land Use Types

	Use Category	Land Use Type	Current Status	Recommendation	Justification / Planning Rationale
32	Utilities/Communication	Antenna	P	REMOVE FROM DISTRICT-SPECIFIC TABLE	Utility and communication facilities are not representative of the commercial uses intended for the RC district.
33	Utilities/Communication	Broadcasting studio	P	REMOVE	Not a rural-serving use and may introduce activities unrelated to the district purpose.
34	Utilities/Communication	Communication tower	SE	KEEP	Bridges the digital divide, improves public safety, and supports economic growth in remote communities.
35	Utilities/Communication	Utility, minor	SR	KEEP	Minor utilities are generally necessary across zoning districts.
36	Commercial / Animal Services	Kennel	SR	REMOVE	Kennel activity can create noise, odor, traffic, and outdoor-use impacts inconsistent with a small rural commercial node.
37	Commercial / Animal Services	Pet grooming	SR	KEEP	Small-scale personal/animal service can meet local needs and is compatible with the district's service-oriented purpose.
38	Commercial / Animal Services	Veterinary hospital/clinic	SR	KEEP	Provides a needed local service and can be compatible if appropriately scaled.
39	Commercial Services	Artist studio	P	KEEP	Small-scale service/creative activity can fit within a rural commercial node.
40	Commercial Services	Auction house	P	REMOVE	Potential traffic, parking, outdoor display, and event intensity are inconsistent with the intended small-scale node.
41	Commercial Services	Bank, Retail	SR	KEEP	Provides an everyday local service consistent with rural-serving commercial needs.
42	Commercial Services	Catering	P	KEEP	Small-scale food service business can serve surrounding residents and businesses.

Proposed Rural Crossroads (RC) Updates
Land Use Types

	Use Category	Land Use Type	Current Status	Recommendation	Justification / Planning Rationale
43	Commercial Services	Commercial services	P	KEEP WITH CLARIFICATION	Broad category may capture appropriate local services but could undermine the limited-purpose intent if undefined too broadly.
44	Commercial Services	Consumer goods repair	SR	KEEP	Provides a local service consistent with the district's everyday-service purpose.
45	Commercial Services	Contractor’s office	P	KEEP WITH LIMITATIONS	Can serve local rural areas but may generate outdoor storage or vehicle activity.
46	Commercial Services	Lawn, tree, or pest control services	P	KEEP WITH LIMITATIONS	Can serve surrounding rural/countryside properties but may involve vehicles and outdoor storage.
47	Commercial Services	Medical, dental, and health practitioner	P	KEEP	Provides essential local services and can function at small scale.
48	Commercial Services	Non-depository personal credit institution	SR	REMOVE	Not a necessary rural-serving use and does not reinforce the intended character of RC.
49	Commercial Services	Office	SR	KEEP WITH LIMITATIONS	Small professional offices can provide local services without requiring intensive commercial development.
50	Commercial Services	Personal services	P	KEEP	Directly supports everyday local service needs.
51	Commercial Services	Rental center	SR	REMOVE	Potentially higher-intensity equipment storage and vehicle activity are not central to the district purpose.
52	Commercial Services	Self-service storage facility	SR	REMOVE	Large building footprints, limited active storefront function, and vehicle activity are inconsistent with the small-scale commercial-node concept.

Proposed Rural Crossroads (RC) Updates
Land Use Types

	Use Category	Land Use Type	Current Status	Recommendation	Justification / Planning Rationale
53	Commercial Services	Sightseeing tour services	P	REMOVE	Not a necessary everyday rural-serving use and may create activity inconsistent with the district's limited purpose.
54	Commercial Services	Tattoo/body piercing facility	SR	REMOVE	Not specifically tied to the rural-serving purpose and is better suited to broader commercial districts.
55	Commercial Services	Bar or other drinking place	SR	REMOVE	Nighttime activity, noise, and traffic may conflict with surrounding rural/residential character.
56	Commercial Services	Restaurant	SR	KEEP	Specifically identified in the RC purpose and can provide an important local service.
57	Commercial Services	Restaurant, Carry-out	P	KEEP	Small-scale food service is consistent with rural-serving commercial needs.
58	Commercial Services	Restaurant, Drive-through	P	KEEP WITH LIMITATIONS	Can serve rural residents but can encourage automobile-oriented development if not controlled.
59	Recreation/Entertainment	Arena, stadium, or outdoor theater	SR	REMOVE	Scale, traffic, and event impacts are inconsistent with a small-scale rural crossroads.
60	Recreation/Entertainment	Commercial recreation, Indoor	P	REMOVE	Not necessary to meet the district's limited rural-serving purpose.
61	Recreation/Entertainment	Commercial recreation, Outdoor	SR	REMOVE	Potential noise, traffic, lighting, and outdoor activity impacts are inconsistent with the intended scale.
62	Recreation/Entertainment	Fitness or training center/studio	P	REMOVE	Could be compatible, but is not necessary to define RC and is better addressed in broader commercial districts.
63	Recreation/Entertainment	Marina	P	REMOVE	Specialized and potentially intensive use is not a typical rural crossroads service.

Proposed Rural Crossroads (RC) Updates
Land Use Types

	Use Category	Land Use Type	Current Status	Recommendation	Justification / Planning Rationale
64	Recreation/Entertainment	Shooting range, Indoor	P	REMOVE	Specialized use with potential noise/security/traffic concerns is not central to the district purpose.
65	Recreation/Entertainment	Smoking place	SR	REMOVE	Not a rural-serving everyday service and may conflict with surrounding character.
66	Retail Sales	Bakery	P	KEEP	Neighborhood-scale food retail directly supports everyday needs.
67	Retail Sales	Building supply sales	P	KEEP WITH LIMITATIONS	Can serve rural property owners but can become intensive if large-scale or accompanied by extensive outdoor storage.
68	Retail Sales	Consumer goods store	SR	KEEP	Directly supports the district's everyday retail function.
69	Retail Sales	Convenience store	P	KEEP	Specifically identified in the RC purpose as an appropriate use.
70	Retail Sales	Drugstore	P	KEEP	Provides an everyday community-serving retail service.
71	Retail Sales	Farmers' market	P	KEEP	Supports rural/agricultural character and local access to goods.
72	Retail Sales	Flea market	P	REMOVE	Potentially creates larger-scale/event-oriented activity inconsistent with a limited commercial node.
73	Retail Sales	Garden center or retail nursery	P	KEEP	Compatible with rural/countryside character and can serve local property owners.
74	Retail Sales	Grocery/Food store	P	KEEP	Directly serves everyday needs of surrounding residents.

Proposed Rural Crossroads (RC) Updates
Land Use Types

	Use Category	Land Use Type	Current Status	Recommendation	Justification / Planning Rationale
75	Retail Sales	Manufactured home sales	SR	REMOVE	Large outdoor display areas and vehicle access needs can conflict with the intended small-scale commercial-node character.
76	Retail Sales	Outdoor power equipment store	P	KEEP WITH LIMITATIONS	Can directly serve rural/countryside residents and is consistent with rural-serving commerce.
77	Retail Sales	Pawnshop	P	REMOVE	Not specifically rural-serving and does not reinforce the district's intended character.
78	Traveler Accommodations	Bed and breakfast	SR	KEEP	Could be compatible in some rural settings, although lodging may central to the stated RC purpose.
79	Traveler Accommodations	Hotel or motel	P	REMOVE	Generally more intensive than the intended small-scale rural crossroads function.
80	Vehicle Sales and Services	Car wash	SR	REMOVE	Traffic, access, stormwater, lighting, and site-design impacts can be inconsistent with a small-scale node.
81	Vehicle Sales and Services	Parking, Commercial	P	REMOVE	Standalone commercial parking does not provide the rural-serving goods/services contemplated by the district.
82	Vehicle Sales and Services	Vehicle fueling station	P	KEEP	Specifically identified in the RC purpose as an appropriate use and provides an essential rural-serving service.
83	Vehicle Sales and Services	Vehicle parts/accessories store	P	KEEP WITH LIMITATIONS	Can provide needed local vehicle-related goods in rural areas.
84	Vehicle Sales and Services	Vehicle repair, minor	P	KEEP WITH LIMITATIONS	Provides a local service but can create noise, vehicle storage, and outdoor-activity impacts.

Proposed Rural Crossroads (RC) Updates
Land Use Types

	Use Category	Land Use Type	Current Status	Recommendation	Justification / Planning Rationale
85	Vehicle Sales and Services	Vehicle sales/rental	SR	REMOVE	Large display areas and vehicle circulation are generally inconsistent with the intended small-scale node.
86	Vehicle Sales and Services	Vehicle towing	SR	REMOVE	Tow-truck operations and vehicle storage can create traffic, outdoor-storage, and visual impacts inconsistent with RC.
87	Industrial	Warehouse/Distribution facility	SR	REMOVE	Warehouse/distribution is inconsistent with small-scale rural-serving commerce and can generate substantial truck traffic.
88	Industrial	Artisan goods production	SR	REMOVE / CONSIDER LIMITED ACCESSORY USE	Small-scale production could be compatible in some settings, but it is not necessary to define RC and may blur the line with industrial districts.
89	Industrial	Manufacturing, assembly, fabrication, Light	P	REMOVE	Industrial activity is inconsistent with the intended commercial-node function.
90	Industrial	Manufacturing, assembly, fabrication, General	SR	REMOVE	General manufacturing is substantially more intensive than the district's intended purpose.
91	Industrial	Manufacturing, assembly, fabrication, Intensive	SR	REMOVE	Intensive industrial activity is clearly inconsistent with RC's rural-serving, small-scale purpose.
92	Industrial	Recycling collection station	P	REMOVE	Potential traffic, outdoor storage, noise, and operational impacts are inconsistent with the intended small-scale commercial node.

General Commercial (GC)

Current Purpose Description

The GC: General Commercial District provides lands for a broad range of commercial uses, characterized primarily by retail, office, and service establishments, in a primarily automobile-oriented environment along corridors. Allowed uses include retail sales, personal and business services, recreation/entertainment, eating and drinking establishments, lodging, vehicle sales and services, and multi-family residential development.

Proposed Purpose Description

The General Commercial (GC) District is intended to accommodate a broad range of commercial uses that serve local and regional markets, including retail sales, offices, personal and business services, restaurants, lodging, recreation and entertainment, and vehicle-related commercial uses. The district is designed to support larger-scale commercial development and commercial centers while allowing complementary residential and institutional uses where they are compatible with the surrounding development pattern. District standards are intended to promote coordinated site design, safe and efficient access, connectivity between adjacent properties, and development that contributes to the long-term economic vitality and character of commercial corridors and activity centers.

Accomplished Objectives

The revised description should better define the intended role of the General Commercial (GC) District, distinguish it from the mixed-use districts, remove outdated references to automobile-oriented development, and align with the Comprehensive Plan's emphasis on connected, well-designed commercial centers.

Planning Commission Comments

Planning Commission Comment	Addressed by
GC is intended for large-scale commercial and big-box retail.	Identifies the district as supporting larger-scale commercial development and commercial centers, distinguishing it from neighborhood- and mixed-use districts.
The current description is a catch-all for commercial uses.	Clarifies that the district serves local and regional markets while identifying the principal commercial activities expected in the district.
"Primarily automobile-oriented environment" is outdated and conflicts with the Comprehensive Plan.	Removes the reference to automobile-oriented development and instead emphasizes safe and efficient access, connectivity, and coordinated site design, which accommodate multiple travel modes without excluding vehicle access.
Allowing multifamily appears inconsistent with an automobile-oriented commercial district.	Describes residential uses as complementary and appropriate only where they are compatible with the surrounding development pattern, rather than defining them as a primary function of the district.
Commercial corridors should not conflict with compact development goals.	Broadens the district's purpose to include commercial corridors and activity centers, recognizing that commercial development can support more connected, coordinated growth consistent with the Comprehensive Plan.

GC is intended for large-scale commercial and big-box retail.	Identifies the district as supporting larger-scale commercial development and commercial centers, distinguishing it from neighborhood- and mixed-use districts.

Results Achieved

The updated purpose description maintains the purpose of the GC District while providing clearer direction on its intended role as the County's primary district for larger-scale commercial development. The revised language removes outdated references to automobile-oriented development, clarifies that residential and institutional uses are complementary rather than primary, and emphasizes coordinated site design, connectivity, compatibility, and long-term economic vitality in a manner that is consistent with current planning practices and the goals of the updated Comprehensive Plan.

Approach

To establish a clear role for the General Commercial district:

- **GC =** broad-scale commercial development serving local and regional markets, including larger-scale commercial uses, big-box retail, commercial centers, and commercial corridors and activity centers
- **Principal commercial uses =** retail sales, offices, personal and business services, restaurants, lodging, recreation and entertainment, and vehicle-related commercial uses that establish the commercial function of the district
- **Supporting uses =** limited institutional, civic, service, recreation, and other complementary uses that support the commercial center without displacing its principal commercial role
- **Residential uses =** complementary multifamily and other residential development where compatible with the surrounding development pattern and appropriately integrated with commercial activity
- **MU1/MU2/MU3 =** mixed-use districts that place greater emphasis on neighborhood-scale, corridor mixed-use, or high-intensity activity-center development and a more integrated mix of uses
- **Industrial districts =** production, warehousing, distribution, intensive service, and other activities with greater industrial or freight impacts

This makes the revised GC purpose statement more meaningful, because the use table — not the purpose statement alone — establishes the distinction between principal commercial uses and supporting uses and reinforces the intended role of GC as the County's broad commercial district for larger-scale commercial centers and local- and regional-serving activity.

Commercial Center & Scale Standards

Some uses should remain but be limited to their role as supporting commercial-center uses.
For example:

- **Retail sales** — a broad range of retail uses, including large-format and big-box retail, should remain central to GC and may serve local and regional markets
- **Restaurants/food service** — local- and regional-serving dining uses that contribute to active commercial centers; drive-throughs may remain but should meet access, stacking, pedestrian, and connectivity standards
- **Offices and personal services** — employment and service uses that support the commercial center and surrounding community
- **Vehicle sales and services** — vehicle-oriented commercial uses are appropriate to GC, including sales, rental, fueling, repair, and related services, subject to access, circulation, buffering, and site-design standards
- **Recreation/entertainment** — commercial recreation and entertainment uses that serve local and regional markets, including larger destination uses where traffic, parking, noise, and event impacts can be appropriately managed
- **Hotels/lodging** — visitor-serving accommodations that support regional commerce and activity centers
- **Institutional and civic uses** — selected community-serving facilities that can function as complementary anchors within commercial centers
- **Residential uses** — complementary multifamily or other residential development may be appropriate where integrated with or adjacent to commercial development and compatible with the surrounding development pattern

- **Parking** — accessory and shared parking should support commercial centers; standalone commercial parking should not become a principal land use
- **Transportation, utilities, and communication facilities** — facilities that support access and commercial activity, subject to applicable standards

This allows the GC district to accommodate the broad range and larger scale of uses needed to support viable commercial centers and corridors without becoming a catch-all commercial, mixed-use, residential, institutional, transportation, or industrial district.

Bottom Line

Keep: retail, including large-format and big-box retail; offices; personal and business services; restaurants; lodging; recreation and entertainment; vehicle sales and services; and selected institutional, civic, and residential uses that serve or complement commercial centers and local- and regional-serving markets.

Remove: uses that are primarily agricultural, land-intensive, industrial/freight-oriented, or otherwise not central to the commercial-center role, including warehouse/distribution, standalone commercial parking, self-service storage, cemeteries, and other uses better located in mixed-use, institutional, industrial, transportation, or open-space districts.

Proposed General Commercial (GC) Updates

Land Use Types

	Use Classification	Land Use Type	Current Status	Recommendation	Justification / Planning Rationale
1	Agricultural	Community garden	SE	REMOVE / RELOCATE	Not central to GC's commercial role and is better addressed in parks, open-space, or neighborhood-oriented districts.
2	Agriculture and Forestry Related	Farm supply and machinery sales and service	P	KEEP WITH STANDARDS	Can serve local and regional markets and is a legitimate larger-scale commercial use, but outdoor storage, display, truck access, and buffering should be controlled.
3	Agriculture and Forestry Related	Produce stand	P	KEEP	Small-scale retail that can complement commercial centers and provide locally oriented goods.
4	Residential / Household Living	Dwelling, Live-Work	SR	REMOVE / RECONSIDER	Live-work is more directly aligned with mixed-use districts; GC should allow residential primarily as complementary development rather than as an individual mixed-use form.
5	Residential / Household Living	Dwelling, Multi-family	P	KEEP WITH LIMITATIONS	The proposed purpose allows complementary residential uses where compatible with the surrounding development pattern; multifamily can be appropriate when integrated into or adjacent to a commercial center and buffered from higher-impact commercial activity.
6	Group Living	Group home, Large	SE	REMOVE / RECONSIDER	Not a primary GC function and may be better located in residential or institutional districts unless specifically integrated into a compatible mixed-use setting.
7	Group Living	Rooming or boarding house	P	REMOVE	Does not advance the district's large-scale commercial-center role and is better addressed in residential or mixed-use districts.
8	Public, Civic, and Institutional	Animal shelter	SR	REMOVE / RECONSIDER	Specialized institutional use is not necessary to achieve GC's commercial-center role and may create operational impacts better addressed in civic/institutional settings.
9	Public, Civic, and Institutional	Community food services	P	KEEP WITH LIMITATIONS	Can support community activity, but should remain complementary to the commercial center rather than become a stand-alone institutional campus.
10	Public, Civic, and Institutional	Community recreation center	P	KEEP	Community-serving use can function as an anchor or complementary destination in a large commercial center.
11	Public, Civic, and Institutional	Cultural facility	P	KEEP	Supports community activity and can contribute to the vitality of commercial centers and activity nodes.
12	Public, Civic, and Institutional	Day care facility	SR	KEEP	A useful service for workers, shoppers, and residents and compatible with a broad commercial district.
13	Public, Civic, and Institutional	Government office	P	KEEP WITH LIMITATIONS	Can support employment and community services; site design should remain compatible with the commercial-center environment.
14	Public, Civic, and Institutional	Hospital	P	KEEP WITH LIMITATIONS	Can be a major employment and service anchor, but access, traffic, parking, and site scale should be coordinated with surrounding commercial development.
15	Public, Civic, and Institutional	Library	P	KEEP	Community-serving anchor that can contribute to an active commercial center.

Proposed General Commercial (GC) Updates

Land Use Types

	Use Classification	Land Use Type	Current Status	Recommendation	Justification / Planning Rationale
16	Public, Civic, and Institutional	Membership organization facility	P	KEEP WITH LIMITATIONS	Can support community activity, but should remain compatible with the commercial-center role.
17	Public, Civic, and Institutional	Nursing care facility	P	KEEP WITH LIMITATIONS	May provide a complementary community service and housing option, subject to compatibility, access, and site-design standards.
18	Public, Civic, and Institutional	Place of worship	P	KEEP WITH LIMITATIONS	Community-serving use can be appropriate in GC, but large sites should address parking, circulation, and compatibility with surrounding commercial uses.
19	Public, Civic, and Institutional	Public recreation facility	SR	KEEP	Can serve as a community amenity and destination within or near commercial centers.
20	Public, Civic, and Institutional	Public safety facility	P	KEEP	Appropriate community-serving use and potential anchor for a commercial/activity center.
21	Public, Civic, and Institutional	Short-term or transitional housing	SE	REMOVE / RECONSIDER	Not central to GC's commercial function and generally better addressed through residential, institutional, or mixed-use districts.
22	Education	College or university	P	REMOVE / RECONSIDER	Large campus development is not consistent with GC's primary commercial-center role and is better addressed in an institutional district.
23	Education	Elementary, middle, or high school	P	REMOVE / RECONSIDER	Schools are important community uses but are not a core GC commercial use and are better addressed through institutional/school siting policies.
24	Education	School, business or trade	P	KEEP WITH LIMITATIONS	Can support employment and workforce services in a commercial center when scaled and designed compatibly.
25	Funeral and Mortuary Services	Cemetery	SR	REMOVE	Land-intensive use is inconsistent with large-scale commercial-center development and long-term economic use of GC sites.
26	Funeral and Mortuary Services	Funeral home or mortuary	P	KEEP WITH LIMITATIONS	A commercial service that can serve local/regional markets, provided access, parking, loading, and frontage are compatible.
27	Parks and Open Space	Arboretum or botanical garden	P	REMOVE / RECONSIDER	Large land-consuming open-space use is not central to GC; smaller landscaping/amenity areas can be incorporated into commercial-center design.
28	Parks and Open Space	Park or greenway	SR	KEEP	Supports connected commercial centers, public amenities, and compatibility with surrounding development.
29	Parks and Open Space	Zoo	SR	REMOVE / RECONSIDER	Regional destination use can generate substantial traffic, parking, and land demand beyond the intended commercial-center role.
30	Transportation	Transit stop	SR	KEEP	Supports connected commercial centers and multiple travel modes while retaining efficient vehicle access.
31	Transportation	Fleet terminal	P	REMOVE	Transportation terminal use is not a principal commercial-center function and may introduce operational and circulation impacts better handled in transportation/industrial settings.

Proposed General Commercial (GC) Updates

Land Use Types

	Use Classification	Land Use Type	Current Status	Recommendation	Justification / Planning Rationale
32	Transportation	Passenger terminal, surface transportation	P	KEEP WITH LIMITATIONS	Can support a regional commercial center when appropriately located and designed, but terminal traffic and circulation should be managed.
33	Utilities and Communication	Antenna	P	KEEP WITH STANDARDS	Necessary infrastructure that can be accommodated with appropriate siting and visual-impact standards.
34	Utilities and Communication	Broadcasting studio	P	KEEP	Employment-generating commercial/media use compatible with GC.
35	Utilities and Communication	Communication tower	SE	KEEP WITH STANDARDS	Necessary communications infrastructure; require appropriate siting and mitigation of visual impacts.
36	Utilities and Communication	Utility, minor	SR	KEEP	Necessary supporting infrastructure.
37	Commercial / Animal Services	Kennel	SR	KEEP WITH LIMITATIONS	Can serve local/regional markets, but noise, odor, outdoor activity, and buffering require standards.
38	Commercial / Animal Services	Pet grooming	P	KEEP	Community-serving personal service use compatible with GC.
39	Commercial / Animal Services	Veterinary hospital or clinic	SR	KEEP	Commercial service use that serves local markets and complements nearby retail and services.
40	Commercial / Commercial Services	Artist studio	P	KEEP	Small business/creative use that contributes to commercial diversity.
41	Commercial / Commercial Services	Auction house	P	KEEP WITH LIMITATIONS	Can serve regional markets, but loading, parking, outdoor storage, and traffic should be managed.
42	Commercial / Commercial Services	Bank, Retail	P	KEEP	Core commercial service appropriate to GC.
43	Commercial / Commercial Services	Catering	P	KEEP	Commercial service compatible with the district.
44	Commercial / Commercial Services	Commercial services	P	KEEP	Broad service category directly supporting GC's commercial function.
45	Commercial / Commercial Services	Consumer goods repair	SR	KEEP	Community-serving service use compatible with commercial centers.
46	Commercial / Commercial Services	Contractor's office	P	KEEP WITH LIMITATIONS	Can provide employment and business services; control vehicle/equipment storage and dispatch.
47	Commercial / Commercial Services	Lawn, tree, or pest control services	P	KEEP WITH LIMITATIONS	Commercial service that can serve local/regional markets, but outdoor storage and vehicle activity should be controlled.

Proposed General Commercial (GC) Updates

Land Use Types

	Use Classification	Land Use Type	Current Status	Recommendation	Justification / Planning Rationale
48	Commercial / Commercial Services	Linen or uniform supply	P	KEEP	Business service compatible with GC.
49	Commercial / Commercial Services	Medical, dental, and health practitioner	P	KEEP	Major commercial/service use that supports local and regional markets.
50	Commercial / Commercial Services	Non-depository personal credit institution	SR	KEEP WITH LIMITATIONS	Commercial service may remain, but should be subject to the same site and design standards as other commercial uses.
51	Commercial / Commercial Services	Office	SR	KEEP	Core commercial/employment use and an important component of commercial centers.
52	Commercial / Commercial Services	Personal services	P	KEEP	Core service use serving local and regional markets.
53	Commercial / Commercial Services	Rental center	SR	KEEP WITH LIMITATIONS	Can serve regional customers but may require loading, vehicle access, and outdoor storage controls.
54	Commercial / Commercial Services	Self-service storage facility	SR	REMOVE	Low-employment, land-intensive use can create inactive frontage and does not contribute strongly to the desired commercial-center environment.
55	Commercial / Commercial Services	Sightseeing tour services	P	KEEP WITH LIMITATIONS	Can serve regional markets and support visitor activity, subject to parking and operational standards.
56	Commercial / Commercial Services	Tattoo or body piercing facility	SR	KEEP	Small-scale personal service compatible with GC.
57	Commercial	Bar or other drinking place	SR	KEEP WITH LIMITATIONS	Can contribute to commercial-center activity, but hours, noise, outdoor activity, and compatibility with nearby residential uses should be addressed.
58	Commercial	Restaurant	SR	KEEP	Core commercial use serving local and regional markets.
59	Commercial	Restaurant, Carry-out	P	KEEP	Appropriate food-service use in commercial centers.
60	Commercial	Restaurant, Drive-through	P	KEEP WITH STANDARDS	Drive-throughs are consistent with the district's broad commercial role, but access, stacking, pedestrian circulation, frontage, and connectivity standards should prevent them from undermining connected commercial-center design.
61	Commercial / Recreation/Entertainment	Arena, stadium, or outdoor theater	SR	KEEP WITH LIMITATIONS	Potential regional commercial/entertainment anchor, but event traffic, noise, parking, and access require strong standards.
62	Commercial / Recreation/Entertainment	Commercial recreation, Indoor	P	KEEP	Appropriate destination use for larger commercial centers.
63	Commercial / Recreation/Entertainment	Commercial recreation, Outdoor	SR	KEEP WITH LIMITATIONS	Can serve regional markets, but outdoor activity, noise, lighting, and land consumption should be controlled.

Proposed General Commercial (GC) Updates

Land Use Types

	Use Classification	Land Use Type	Current Status	Recommendation	Justification / Planning Rationale
64	Commercial / Recreation/Entertainment	Fitness or training center/studio	P	KEEP	Strong complementary commercial use.
65	Commercial / Recreation/Entertainment	Golf course	SR	REMOVE / RECONSIDER	Highly land-intensive use does not advance compact commercial-center development and is better addressed as a recreation/open-space use.
66	Commercial / Recreation/Entertainment	Marina	P	REMOVE / RECONSIDER	Location-dependent waterfront recreation use is not central to GC's general commercial role.
67	Commercial / Recreation/Entertainment	Performing arts center	P	KEEP	Can function as a regional commercial/cultural anchor and contribute to center vitality.
68	Commercial / Recreation/Entertainment	Sexually Oriented Business	SR	KEEP WITH LIMITATIONS	If retained, should remain subject to separation, buffering, and other applicable standards rather than being treated as a core commercial-center use.
69	Commercial / Recreation/Entertainment	Shooting range, Indoor	P	REMOVE / RECONSIDER	Specialized use with noise, safety, and building/site requirements that are not central to the intended commercial-center role.
70	Commercial / Recreation/Entertainment	Smoking place	SR	REMOVE / RECONSIDER	Specialized use is not necessary to achieve the district's commercial-center role and may create compatibility concerns.
71	Commercial / Retail Sales	Bakery	P	KEEP	Core retail/food use.
72	Commercial / Retail Sales	Building supply sales	P	KEEP	Larger-scale retail/service use serving local and regional markets.
73	Commercial / Retail Sales	Consumer goods store	SR	KEEP	Core retail use.
74	Commercial / Retail Sales	Consumer goods store, Large	P	KEEP	Directly supports GC's stated role for larger-scale commercial and big-box retail.
75	Commercial / Retail Sales	Convenience store	P	KEEP	Common commercial service supporting local markets.
76	Commercial / Retail Sales	Drugstore	P	KEEP	Community-serving retail use.
77	Commercial / Retail Sales	Farmers' market	P	KEEP WITH LIMITATIONS	Can contribute to commercial-center activity and local commerce; should be coordinated with circulation and parking.
78	Commercial / Retail Sales	Flea market	P	KEEP WITH LIMITATIONS	Can serve regional markets but requires standards for parking, circulation, outdoor activity, and visual impacts.
79	Commercial / Retail Sales	Garden center or retail nursery	P	KEEP	Appropriate retail use, with outdoor display/storage standards.

Proposed General Commercial (GC) Updates

Land Use Types

	Use Classification	Land Use Type	Current Status	Recommendation	Justification / Planning Rationale
80	Commercial / Retail Sales	Grocery/Food store	P	KEEP	Core commercial use serving local and regional markets.
81	Commercial / Retail Sales	Manufactured home sales	SR	KEEP WITH LIMITATIONS	Can be a regional commercial use, but outdoor display, access, landscaping, and buffering should be addressed.
82	Commercial / Retail Sales	Outdoor power equipment store	P	KEEP WITH LIMITATIONS	Regional retail use appropriate to GC, with controls for outdoor display, service activity, and noise.
83	Commercial / Retail Sales	Pawnshop	P	KEEP WITH LIMITATIONS	Commercial retail/service use can remain, subject to standard commercial-center design requirements.
84	Commercial / Traveler Accommodations	Bed and breakfast	SR	KEEP WITH LIMITATIONS	Lodging can serve local/regional markets, but small-format lodging should remain compatible with surrounding commercial development.
85	Commercial / Traveler Accommodations	Campground	P	REMOVE / RECONSIDER	Land-intensive visitor accommodation is not consistent with the desired large-scale commercial-center pattern.
86	Commercial / Traveler Accommodations	Home-based lodging	SR	REMOVE / RECONSIDER	More appropriately addressed through residential and lodging regulations than as a GC commercial-center use.
87	Commercial / Traveler Accommodations	Hotel or motel	P	KEEP	Directly supports regional commercial activity and visitor-serving markets.
88	Commercial / Vehicle Sales and Services	Car wash	P	KEEP	Common commercial use serving local and regional vehicle trips.
89	Commercial / Vehicle Sales and Services	Heavy vehicle wash	P	KEEP WITH LIMITATIONS	Can serve regional markets but should be located and designed to manage noise, drainage, circulation, and heavy-vehicle impacts.
90	Commercial / Vehicle Sales and Services	Parking, Commercial	P	REMOVE AS PRINCIPAL USE	Standalone commercial parking consumes land and can create inactive frontage; shared/accessory parking should remain permitted to support commercial centers.
91	Commercial / Vehicle Sales and Services	Vehicle fueling station	P	KEEP WITH STANDARDS	Consistent with GC's broad commercial and vehicle-service role, but access, stacking, pedestrian connections, landscaping, and site design should be regulated.
92	Commercial / Vehicle Sales and Services	Vehicle parts and accessories store	P	KEEP	Appropriate commercial retail/service use.
93	Commercial / Vehicle Sales and Services	Vehicle repair, minor	P	KEEP	Appropriate commercial service use with standard noise, storage, and access controls.
94	Commercial / Vehicle Sales and Services	Vehicle sales and rental	P	KEEP	A principal GC vehicle-oriented commercial use serving local and regional markets.
95	Commercial / Vehicle Sales and Services	Vehicle towing	SR	KEEP WITH LIMITATIONS	Can support regional vehicle services, but outdoor storage, dispatch, vehicle queuing, and visual impacts require standards.

Proposed General Commercial (GC) Updates

Land Use Types

	Use Classification	Land Use Type	Current Status	Recommendation	Justification / Planning Rationale
96	Industrial / Extraction	Warehouse/Distribution facility	SR	REMOVE	Industrial/freight-oriented use is not a principal GC function and can generate truck traffic and large, low-employment sites better suited to industrial districts.
97	Industrial / Production of Goods	Artisan goods production	SR	KEEP WITH LIMITATIONS	Small-scale production can complement retail and provide local employment when impacts are limited.
98	Industrial / Production of Goods	Manufacturing, assembly, and fabrication, Light	P	REMOVE / RELOCATE	Although low-impact, light manufacturing is more directly aligned with the Employment district; retaining it in GC blurs the distinction between commercial and employment/industrial districts.
99	Industrial / Waste and Recycling Facilities	Recycling collection station	P	KEEP WITH LIMITATIONS	May provide a community-serving service, but should be carefully sited and designed to avoid visual, traffic, and operational conflicts with commercial centers.

Employment (EMP)

Current Purpose Description

The EMP: Employment District provides lands for a mix of light industrial services, light production and processing, and office uses integrated with or adjacent to complementary commercial uses and/or medium- and high-intensity residential uses. District standards are intended to ensure that industrial services, light production and processing, and office uses are developed in a way that is complementary to commercial and residential uses in the area and provides for access by and movement of vehicles associated with the industrial and commercial uses.

Proposed Purpose Description

The Employment (EMP) District is intended to accommodate employment-generating uses, including office, research and development, light industrial services, light manufacturing, production, and processing activities that have limited impacts on surrounding properties. The district encourages development that integrates these uses with complementary commercial uses and, where appropriate, compatible medium- and high-density residential development as part of a coordinated, mixed-use employment environment.

Development within the district should be designed to support business and employment opportunities while maintaining compatibility with adjacent properties through high-quality site design, building orientation, access management, landscaping, buffering, and other measures that minimize visual, operational, and environmental impacts. Uses with significant noise, emissions, odors, vibration, heavy truck traffic, or other adverse external effects are not intended for this district unless specifically mitigated in accordance with this Code.

The district is intended to provide an efficient transportation network that accommodates passenger vehicles, service vehicles, and freight movement while promoting safe internal circulation and appropriate connections to surrounding development.

Accomplished Objectives

Based on the current purpose statement and the Planning Commission's comments, the revised description should accomplish several objectives:

- Preserve the district's focus on employment-generating uses.
- Emphasize compatibility between light industrial, office, and complementary commercial uses.
- Clarify that only low-impact industrial activities are appropriate.
- Better describe the desired development pattern and site design.
- Remove redundant language while remaining flexible enough to align with the updated Comprehensive Plan.
- Recognizes that residential uses may be appropriate where thoughtfully integrated and designed.

Planning Commission Comments

Planning Commission Comment	Addressed by
Should focus on low-impact industrial uses with office and potentially residential uses.	Clarifies that the district is intended for low-impact employment uses, including office, research and development, light industrial, and compatible residential uses where appropriate.
Should remain consistent with its existing purpose.	Retains the district's original focus on employment-generating uses while providing clearer language.

Should primarily serve employment uses rather than retail.	Emphasizes employment-generating uses as the primary purpose, with commercial uses serving a complementary role.
Better describe the intended development pattern.	Adds guidance on coordinated mixed-use development, site design, and integration of office and industrial uses.
Better describe the desired character of development.	Includes expectations for compatibility through landscaping, buffering, building orientation, and access management.
Clarify how the district is compatible with nearby development.	Explains that compatibility is achieved through thoughtful site design and measures that minimize impacts on surrounding properties.
Reduce redundant language.	Condenses the original purpose statement into clearer, more concise language while maintaining its intent.
Address more intensive industrial uses.	Clarifies that uses with significant impacts are not intended unless appropriately mitigated under the Land Development Code.

Results Achieved

The proposed purpose statement preserves the original intent of the Employment District while providing clearer direction on the types of uses allowed, the desired development pattern, compatibility with surrounding areas, and the expectation that industrial uses be low-impact.

Approach

To establish a clear role for the Employment district:

- EMP = employment-generating development focused on office, research and development, light industrial services, light manufacturing, production, and processing activities with limited impacts on surrounding properties
- Principal employment uses = office, research, light industrial services, light manufacturing, production, and processing uses that establish the employment function of the district
- Supporting uses = limited commercial, service, dining, recreation, lodging, civic, and residential uses that complement and support the principal employment uses
- Residential uses = compatible medium- and high-density residential development that is thoughtfully integrated with employment uses and designed to maintain compatibility with adjacent properties
- MU1/MU2/MU3/GC = commercial and mixed-use districts that accommodate broader standalone commercial and mixed-use activity
- Industrial districts = heavier production, warehousing, distribution, freight, intensive service, and other activities with greater external impacts

This makes the revised EMP purpose statement more meaningful, because the use table—not the purpose statement alone—establishes the distinction between principal employment uses and supporting uses and reinforces the intended low-impact employment character of the district.

Employment & Scale Standards

Some uses should remain but be limited to their role as supporting employment-district uses.
For example:

- Commercial services — limited and primarily serving employees, businesses, and the employment area rather than establishing a general commercial center
- Restaurants/food service — employee- and employment-area-serving uses that complement the principal employment function; drive-through and other auto-oriented formats should be limited or removed where they conflict with site design objectives
- Offices and professional services — principal employment uses that can be integrated with light industrial and production activities
- Research and development — encouraged as an employment-generating use that complements office, technology, production, and light manufacturing activities
- Residential uses — compatible medium- and high-density housing may be allowed where thoughtfully integrated, buffered, and designed to maintain compatibility with employment operations
- Recreation and fitness — limited employee - or community-serving uses that do not create significant noise, traffic, or other external impacts
- Hotels/lodging — limited facilities that support business travel, employees, and the employment area
- Parking — accessory or shared parking that supports employment uses rather than standalone commercial parking as a principal use
- Transportation, utilities, and communication facilities — facilities that support the employment area and efficient movement of passenger, service, and freight vehicles, subject to applicable standards
- Industrial uses — light, low-impact production and processing should be central to EMP, while intensive manufacturing, heavy freight, large vehicle repair, and other high-impact activities should be directed to more appropriate industrial districts

This allows the EMP district to provide the range of uses needed to support a productive employment environment without becoming a catch-all commercial, residential, transportation, or industrial district.

Bottom Line

Keep: office, research and development, light industrial services, light manufacturing, low-impact production and processing, workforce development, and selected commercial, service, civic, lodging, recreation, and residential uses when they support or are thoughtfully integrated with the principal employment function.

Remove: uses that are primarily rural, visitor-oriented, heavy freight, high-impact industrial, land-intensive, or strongly automobile-oriented and do not support the intended low-impact employment environment, including general/intensive manufacturing, motor freight facilities, contractor's yards, large vehicle and equipment repair, warehouse/distribution, recycling sorting, self-service storage, standalone commercial parking, and similar uses better located in more intensive industrial, commercial, or transportation districts.

Proposed Employment (EMP) Updates

Land Use Types

	Use Classification	Land Use Type	Current Status	Recommendation	Justification / Planning Rationale
1	Agricultural / Agriculture and Forestry	Agriculture	P	REMOVE	General agriculture is not an employment-district use that advances the proposed focus on office, research, light industrial services, light manufacturing, production, and processing.
2	Agricultural / Agriculture and Forestry	Community garden	SE	REMOVE / RECONSIDER	Community gardens are compatible with some mixed-use settings but are not an employment-generating use central to EMP; they are better addressed through open-space or community-oriented districts.
3	Agriculture and Forestry Related	Agriculture research facility	P	KEEP	Directly supports research, employment, and innovation and is consistent with the district's proposed research-and-development role.
4	Agriculture and Forestry Related	Agritourism	P	REMOVE	Primarily visitor/recreation-oriented rather than employment-center or light-industrial in function and can introduce traffic and site patterns not contemplated by EMP.
5	Agriculture and Forestry Related	Farm distribution hub	P	REMOVE	Distribution hubs can generate significant freight traffic, loading, and site impacts inconsistent with the district's low-impact employment focus.
6	Agriculture and Forestry Related	Rural retreat	SR	REMOVE	Not an employment-generating use and does not support the proposed employment-center role.
7	Residential / Household Living	Dwelling, Multi-family	SE	KEEP WITH LIMITATIONS	The proposed purpose allows compatible medium- and high-density residential development when thoughtfully integrated; standards should address buffering, access, and compatibility with employment uses.
8	Residential / Household Living	Dwelling, Townhouse	SE	ADD / CLARIFY	Townhouses provide a compatible medium-density housing option and support integrated mixed-use employment environments while offering a transition to adjacent neighborhoods.
9	Residential / Household Living	Group home, Family	SE	KEEP WITH LIMITATIONS	Residential use may be appropriate where integrated with the employment environment; apply compatibility and site-design standards.
10	Group Living	Rooming or boarding house	SE	REMOVE	Less consistent with the intended medium/high-density, coordinated employment environment and may create management, parking, and compatibility issues.
11	Public, Civic, and Institutional	Community recreation center	SR	KEEP WITH LIMITATIONS	Can support employees and nearby residents, but should remain compatible with the employment-center role and not become a regional destination that overwhelms the district.
12	Public, Civic, and Institutional	Day care facility	SR	KEEP	Directly supports employees and employers and is a logical complementary service in an employment district.
13	Public, Civic, and Institutional	Government office	P	KEEP	Core employment-generating office use consistent with the district purpose.
14	Public, Civic, and Institutional	Public recreation facility	SR	KEEP WITH LIMITATIONS	Can provide employee/community-serving amenities, provided scale and access remain compatible with the employment environment.

Proposed Employment (EMP) Updates
Land Use Types

	Use Classification	Land Use Type	Current Status	Recommendation	Justification / Planning Rationale
15	Public, Civic, and Institutional	Public safety facility	P	KEEP	Employment-generating civic use that can function within the district.
16	Public, Civic, and Institutional	Short-term or transitional housing	SE	KEEP WITH LIMITATIONS	Can provide housing options for workers and residents if appropriately integrated and buffered from incompatible operations.
17	Education	College or university	P	KEEP WITH LIMITATIONS	Can support research, innovation, education, and employment, but large campus development should be coordinated with EMP's employment and transportation functions.
18	Education	School, business or trade	P	KEEP	Directly supports workforce development and employment-generating activity.
19	Parks and Open Space	Park or greenway	SR	KEEP	Provides an important buffer and amenity and can improve employee access and site compatibility.
20	Transportation	Transit stop	SR	KEEP	Supports access to employment and reduces dependence on automobile travel.
21	Transportation	Fleet terminal	P	KEEP WITH LIMITATIONS	Consistent with the district's explicit transportation role when limited to passenger/service fleets and designed to manage circulation and external impacts.
22	Transportation	Passenger terminal, surface transportation	P	KEEP WITH LIMITATIONS	Can support an employment center, but terminal scale and traffic should be compatible with the surrounding development pattern.
23	Utilities and Communication	Antenna	P	KEEP WITH LIMITATIONS	Necessary infrastructure; location and design should minimize impacts on adjoining properties.
24	Utilities and Communication	Broadcasting studio	P	KEEP	Employment-generating office/production activity with limited external impacts when properly designed.
25	Utilities and Communication	Communication tower	SR	KEEP WITH LIMITATIONS	May be necessary infrastructure; apply siting and visual-impact standards.
26	Utilities and Communication	Utility, minor	SR	KEEP	Necessary supporting infrastructure.
27	Utilities and Communication	Wind energy conversion system, Large scale	SE	REMOVE	Large-scale infrastructure is not inherently employment-generating and may create visual, noise, safety, or operational impacts inconsistent with the low-impact intent unless addressed in a broader utility framework.
28	Commercial / Animal Services	Pet grooming	SR	KEEP WITH LIMITATIONS	A small complementary service can support employees and nearby residents; limit scale and outdoor activity.
29	Commercial / Commercial Services	Artist studio	P	KEEP	Small-scale employment-generating production/creative use compatible with a low-impact employment environment.

Proposed Employment (EMP) Updates
Land Use Types

	Use Classification	Land Use Type	Current Status	Recommendation	Justification / Planning Rationale
30	Commercial / Commercial Services	Bank, Retail	P	KEEP	Complementary commercial service that can support employees and businesses.
31	Commercial / Commercial Services	Commercial services	P	KEEP	Supports the employment district's business-service function when uses are low-impact.
32	Commercial / Commercial Services	Consumer goods repair	SR	KEEP	Small-scale repair service can provide employment without significant external impacts.
33	Commercial / Commercial Services	Contractor's office	P	KEEP WITH LIMITATIONS	Office component is appropriate, but vehicle/equipment storage and dispatch should be controlled.
34	Commercial / Commercial Services	Medical, dental, and health practitioner	P	KEEP	Employment-generating office/service use compatible with the district.
35	Commercial / Commercial Services	Non-depository personal credit institution	SR	REMOVE	Provides limited support to the district's employment/production role and is not necessary to achieve the proposed EMP purpose.
36	Commercial / Commercial Services	Office	SR	KEEP	Core employment use expressly identified in the proposed purpose.
37	Commercial / Commercial Services	Personal services	P	KEEP WITH LIMITATIONS	Useful complementary services for employees and businesses, provided they remain secondary to the employment function.
38	Commercial / Commercial Services	Self-service storage facility	SR	REMOVE	Low-employment, land-intensive use can create inactive frontage and does not support the intended employment-generating development pattern.
39	Commercial	Bar or other drinking place	P	REMOVE / RECONSIDER	A bar as a principal use is not central to the employment/industrial role and may create late-hour, noise, and compatibility impacts; limited employee-serving food/drink uses are preferable.
40	Commercial	Restaurant	P	KEEP WITH LIMITATIONS	Provides a complementary service to employees and businesses, but should remain subordinate to the employment role.
41	Commercial	Restaurant, Carry-out	P	KEEP WITH LIMITATIONS	Useful employee-serving food service; control access and site design to avoid auto-oriented impacts.
42	Commercial	Restaurant, Drive-through	P	REMOVE	Drive-through development prioritizes automobile circulation and can create site conflicts with the desired high-quality, compatible employment environment.
43	Commercial / Recreation/Entertainment	Commercial recreation, Indoor	P	KEEP WITH LIMITATIONS	Can provide employee/community-serving activity if low-impact and appropriately scaled.
44	Commercial / Recreation/Entertainment	Commercial recreation, Outdoor	SR	REMOVE	Outdoor recreation can generate noise, lighting, traffic, and land-use impacts that are difficult to reconcile with adjacent employment operations.
45	Commercial / Recreation/Entertainment	Fitness or training center/studio	P	KEEP WITH LIMITATIONS	Can serve employees and nearby residents; retain where scale and hours are compatible with surrounding employment uses.

Proposed Employment (EMP) Updates
Land Use Types

	Use Classification	Land Use Type	Current Status	Recommendation	Justification / Planning Rationale
46	Commercial / Recreation/Entertainment	Smoking place	SR	REMOVE	Not necessary to support the employment role and may create compatibility concerns.
47	Commercial / Retail Sales	Bakery	P	KEEP WITH LIMITATIONS	Small complementary retail/food use that can serve employees and businesses.
48	Commercial / Retail Sales	Consumer goods store	SR	KEEP WITH LIMITATIONS	Limited retail can complement employment uses, but should not displace the district's employment-generating role or create a retail center.
49	Commercial / Retail Sales	Convenience store	P	KEEP WITH LIMITATIONS	Useful employee-serving convenience use; access, scale, and frontage should be controlled.
50	Commercial / Retail Sales	Drugstore	P	KEEP WITH LIMITATIONS	Can serve employees and nearby residents as a complementary use.
51	Commercial / Retail Sales	Farmers' market	P	KEEP WITH LIMITATIONS	Can provide a limited community/employee amenity, but should not become the dominant land use.
52	Commercial / Retail Sales	Grocery/Food store	P	KEEP WITH LIMITATIONS	Can support employees and mixed-use areas, but larger retail should remain complementary rather than establish a general retail center.
53	Commercial / Traveler Accommodations	Home-based lodging	SR	REMOVE / RECONSIDER	Not central to the employment function and may create residential compatibility issues; lodging is better addressed through more intentional employment-center standards.
54	Commercial / Traveler Accommodations	Hotel or motel	P	KEEP WITH LIMITATIONS	Can support business travel and employment activity, but should be integrated with the employment environment and not dominate the district.
55	Commercial / Vehicle Sales and Services	Car wash	P	REMOVE	Auto-oriented use can create traffic, queuing, noise, water-management, and site-design impacts inconsistent with the proposed low-impact employment environment.
56	Commercial / Vehicle Sales and Services	Heavy vehicle wash	P	REMOVE	Heavy vehicle activity and associated traffic/operational impacts conflict with the stated compatibility objectives.
57	Commercial / Vehicle Sales and Services	Parking, Commercial	P	REMOVE AS PRINCIPAL USE	Standalone commercial parking is not employment-generating and can create inefficient, inactive land use; accessory/shared parking should remain available.
58	Commercial / Vehicle Sales and Services	Vehicle fueling station	P	REMOVE AS PRINCIPAL USE	Primarily auto-oriented and not an employment-generating use; fueling may be accommodated as an accessory or integrated service where appropriate.
59	Commercial / Vehicle Sales and Services	Vehicle repair, major	P	REMOVE	Significant vehicle movement, noise, odors, outdoor activity, and operational impacts are inconsistent with the proposed low-impact industrial/employment focus unless substantially mitigated.
60	Industrial / Extraction	Warehouse/Distribution facility	P	REMOVE	Large-scale warehousing/distribution can generate substantial freight traffic, loading, and site impacts beyond the intended low-impact employment environment.
61	Industrial / Extraction	Motor freight facility	P	REMOVE	Heavy freight operations are inconsistent with the district's emphasis on limited external impacts and should be directed to more intensive industrial/freight districts.

Proposed Employment (EMP) Updates
Land Use Types

	Use Classification	Land Use Type	Current Status	Recommendation	Justification / Planning Rationale
62	Industrial / Industrial Service	Contractor's yard	P	REMOVE	Outdoor storage, equipment, vehicle traffic, and operational activity can create visual and compatibility impacts inconsistent with high-quality employment-center development.
63	Industrial / Industrial Service	Large vehicle and commercial and industrial equipment repair	P	REMOVE	High-intensity vehicle/equipment activity can generate noise, vibration, traffic, and other external impacts inconsistent with EMP.
64	Industrial / Production of Goods	Artisan goods production	SR	KEEP	Low-impact production is directly consistent with the proposed light industrial and employment-generating role.
65	Industrial / Production of Goods	Manufacturing, assembly, and fabrication, Light	P	KEEP	Core use expressly supported by the proposed purpose, provided external impacts remain limited.
66	Industrial / Production of Goods	Manufacturing, assembly, and fabrication, General	P	KEEP WITH LIMITATIONS	Can support employment and production, but should be permitted only where impacts are demonstrably limited and compatible with adjacent uses.
67	Industrial / Production of Goods	Manufacturing, assembly, and fabrication, Intensive	SR	REMOVE	Noise, emissions, odors, vibration, traffic, and other potential external effects conflict with the district's stated low-impact intent.
68	Industrial / Waste and Recycling Facilities	Recycling collection station	P	KEEP WITH LIMITATIONS	Can support employment and sustainability goals if small-scale and designed to control traffic, storage, noise, and visual impacts.
69	Industrial / Waste and Recycling Facilities	Recycling sorting facility	P	REMOVE	Sorting operations can involve noise, odors, truck traffic, outdoor storage, and other impacts inconsistent with the low-impact EMP environment.

Suggested Addition

	Land Use Type	Recommendation	Justification
70	Research and development facility	ADD	The proposed purpose expressly identifies research and development as an intended employment-generating use; adding it makes that role explicit in the use table.
71	Dwelling, Townhouse	ADD / CLARIFY	Provides a medium-density housing option that can be thoughtfully integrated with employment uses and can serve as a transition to adjacent neighborhoods.

Proposed Employment (EMP) Updates

Land Use Types

	Use Classification	Land Use Type	Current Status	Recommendation	Justification / Planning Rationale
72	Dwelling, Duplex	ADD / CONSIDER	Provides a compatible lower-intensity residential option where integrated with an employment center and appropriate buffering is provided.		
73	Mixed-use employment building / development	ADD / CLARIFY	Makes the intended coordinated relationship among office, research, light industrial, commercial, and residential uses explicit rather than relying on individual use permissions.		
74	Light industrial services	ADD / CLARIFY	The proposed purpose expressly identifies light industrial services; an explicit category would make the district's core role clearer.		
75	Employee-serving commercial / amenity uses	ADD / CLARIFY	A defined category for limited food, retail, personal service, childcare, and similar employee-serving uses would distinguish appropriate complementary commercial activity from general commercial development.		

Neighborhood Mixed-Use (MU1)

Current Purpose Description

The Neighborhood Mixed-Use (MU1) provides lands for moderate-intensity, neighborhood-scale commercial that supports the common day-to-day demands of the surrounding neighborhood for goods and services. This district allows a mix of commercial uses such as grocery stores, restaurants and bars, personal services, small-scale retail, and offices, as well as moderate-intensity multi-family residential development in close proximity to and with convenient access to shopping and employment within the district. District standards are intended to ensure uses, development intensities, and development forms supports development that:

- Is oriented toward and provides enhanced visual character on the major streets within the district;
- Provides safe and convenient vehicular, bicycle, and pedestrian access from surrounding neighborhoods; and
- Is well-integrated in terms of access and circulation, complementary uses, and compatible design.

Proposed Purpose Description

The Neighborhood Mixed-Use (MU1) District is intended to accommodate neighborhood-scale mixed-use development that provides goods, services, employment, and a variety of housing options in locations that are convenient and accessible to surrounding neighborhoods. The district supports a mix of small-scale retail, restaurants, offices, personal services, and residential uses, including duplexes, townhouses, and multifamily development, arranged in a compact, walkable pattern. District standards are intended to promote coordinated site design, connected pedestrian, bicycle, and vehicle access, and development that is compatible with surrounding neighborhoods and creates an attractive neighborhood center.

Accomplished Objectives

Based on the current purpose statement and the Planning Commission's comments, the revised description should clarify that the MU1 District is intended to serve nearby neighborhoods with a mix of small-scale commercial and residential uses, remove the potential conflict regarding location on "major streets," broaden the description of residential development, and simplify the overall language while remaining consistent with the district's original intent.

Planning Commission Comments

Planning Commission Comment	Addressed by
MU1 should function as a neighborhood mixed-use center.	Clearly identifies the district as accommodating neighborhood-scale mixed-use development that serves surrounding neighborhoods.
Conflict between serving neighborhoods and being located on major streets.	Removes the reference to major streets and instead emphasizes locations that are convenient and accessible to surrounding neighborhoods, allowing flexibility based on context.
Multifamily is too narrow a description of residential uses.	Broadens the residential component to include duplexes, townhouses, and multifamily development, reflecting a wider range of neighborhood housing types.
Clarify the type of residential development that is appropriate.	Specifies a variety of residential forms without prescribing a particular building type or intensity.
Shorten the description.	Condenses the purpose into a concise narrative without bullet points while retaining the district's key objectives.

MU1 should function as a neighborhood mixed-use center.	Clearly identifies the district as accommodating neighborhood-scale mixed-use development that serves surrounding neighborhoods.

Results Achieved

The proposed revisions maintain the original purpose of MU1 District while providing clearer guidance on its role as a neighborhood-serving mixed-use district. The revised language removes the potentially conflicting reference to major streets, broadens the description of appropriate residential development to include a wider range of housing types, and emphasizes walkability, connectivity, compatibility, and neighborhood accessibility. These revisions better reflect current planning practices and the goals of the updated Comprehensive Plan.

Approach

To establish a clear role for the Neighborhood Mixed-Use district:

- MU1 = neighborhood-scale mixed-use development that provides goods, services, employment, and a variety of housing options in locations convenient and accessible to surrounding neighborhoods
- Neighborhood-serving uses = small-scale commercial, residential, community, and service uses that primarily serve nearby neighborhoods
- Principal commercial uses = small-scale retail, restaurants, offices, personal services, medical services, and other neighborhood-serving businesses that help establish an attractive neighborhood center
- Residential uses = a range of neighborhood-scale housing types, including duplexes, townhouses, and multifamily development, along with compatible live-work and other residential forms
- MU2/MU3/GC = commercial and mixed-use districts that accommodate broader or more intensive standalone commercial activity
- Industrial districts = production, warehousing, distribution, intensive service, and similar activities

This makes the revised MU1 purpose statement more meaningful, because the use table—not the purpose statement alone—establishes the distinction between neighborhood-serving uses and uses that are better located in other districts, and reinforces the intended compact, walkable, and neighborhood-compatible character of the district.

Center & Scale Standards

Some uses should remain but be limited to their role as neighborhood-serving uses.
For example:

- Retail sales — limited in scale and oriented toward the day-to-day needs of surrounding neighborhoods
- Restaurants/food service — neighborhood-serving and compatible with surrounding residential areas, with appropriate controls for hours, noise, parking, and outdoor activity
- Offices and personal services — primarily serving nearby residents and providing local employment
- Residential uses — provide a range of housing types, including duplexes, townhouses, and multifamily development, in a neighborhood-compatible form
- Recreation and fitness — neighborhood-serving and limited in scale and operational impacts
- Lodging — limited to small-scale accommodations that are compatible with the neighborhood setting
- Parking — accessory to permitted development rather than a standalone commercial use
- Vehicle-oriented uses — generally excluded where they conflict with compact, walkable development or create disproportionate traffic and access impacts
- Utilities and communication facilities — subject to applicable general standards and designed to be compatible with the district

This allows the MU1 district to provide the range of uses needed to support surrounding neighborhoods without becoming a catch-all commercial, residential, transportation, industrial, or utility district.

Bottom Line

Keep: neighborhood-serving retail, restaurants, offices, personal and medical services, community-serving uses, parks and greenways, transit stops, and compatible small-scale commercial activities; and a broader range of housing including duplexes, townhouses, and multifamily development.

Remove: uses that are regional-serving, industrial, land-intensive, strongly automobile-oriented, or otherwise inconsistent with a compact, walkable neighborhood center, including warehouse/distribution, self-service storage, vehicle fueling stations, passenger terminals, standalone commercial parking, cemeteries, and other uses better located in commercial, mixed-use, transportation, or industrial districts.

Proposed Neighborhood Mixed-Use (MU1) Updates

Land Use Types

	Use Classification	Land Use Type	Current Status	Recommendation	Justification / Planning Rationale
1	Agricultural	Community garden	SR	KEEP	Supports neighborhood-serving activity and can contribute to an attractive neighborhood center.
2	Agriculture and Forestry Related	Produce stand	P	KEEP	Neighborhood-serving sale of locally produced goods; compatible with small-scale commercial activity.
3	Residential	Dwelling, Live-Work	SR	KEEP	Directly supports the mixed-use concept by combining housing and employment.
4	Residential	Dwelling, Multi-family	P	KEEP	Explicitly supported by the revised MU1 description.
5	Residential	Group home, Family	SR	KEEP	Small-scale residential use that can function compatibly within a neighborhood.
6	Residential	Children's residential care home	P	KEEP	Residential/community-serving use that can be compatible with neighborhood development.
7	Residential	Continuing care community	SR	REMOVE	Potentially campus-scale and institutional; may be inconsistent with neighborhood-scale housing and compact development.
8	Residential	Group home, Large	SE	REMOVE	Larger group-living facilities may be more intensive than the neighborhood-scale residential pattern contemplated for MU1.
9	Residential	Rooming or boarding house	SE	REMOVE	Less consistent with the revised emphasis on conventional housing choices such as duplexes, townhouses, and multifamily development.
10	Community Service	Community food services	P	KEEP	Directly serves nearby residents and supports the community-serving purpose.
11	Community Service	Community recreation center	SR	KEEP	Neighborhood-serving recreational use consistent with a mixed-use center.
12	Community Service	Cultural facility	P	KEEP	Supports neighborhood activity, services, and community identity.
13	Community Service	Day care facility	SR	KEEP	Directly serves nearby households and supports neighborhood needs.
14	Community Service	Government office	P	KEEP	Provides employment and neighborhood-serving services.
15	Community Service	Library	P	KEEP	Strong community-serving use compatible with a walkable neighborhood center.
16	Community Service	Membership organization facility	P	KEEP	Can provide neighborhood/community services and activity.
17	Community Service	Nursing care facility	P	KEEP WITH LIMITATIONS	Community-serving use, but scale, access, parking, and compatibility should be controlled.
18	Community Service	Place of worship	P	KEEP	Community-serving use that can function within a neighborhood center.
19	Community Service	Public recreation facility	SR	KEEP	Supports neighborhood recreation and walkability.

Proposed Neighborhood Mixed-Use (MU1) Updates

Land Use Types

	Use Classification	Land Use Type	Current Status	Recommendation	Justification / Planning Rationale
20	Community Service	Public safety facility	P	KEEP WITH LIMITATIONS	Community-serving use; scale, access, and site design should be compatible with surrounding neighborhoods.
21	Community Service	Short-term or transitional housing	SE	KEEP WITH LIMITATIONS	Residential/community-serving function, but operational and compatibility standards may be appropriate.
22	Education	College or university	P	REMOVE / RECONSIDER	Potential scale and intensity may exceed a neighborhood-scale center; retain only if small satellite facilities are intentionally desired.
23	Education	Elementary, middle, or high school	P	KEEP	Neighborhood-serving institutional use with strong local-service function.
24	Education	School, business or trade	SR	KEEP	Provides local education and employment services; compatible if neighborhood-scale.
25	Funeral and Mortuary Services	Cemetery	SR	REMOVE	Land-intensive use that does not contribute to compact mixed-use development.
26	Funeral and Mortuary Services	Funeral home or mortuary	P	REMOVE / RECONSIDER	More institutional and event-oriented than the typical neighborhood-serving commercial uses envisioned for MU1.
27	Parks and Open Space	Arboretum or botanical garden	P	KEEP	Supports open space, neighborhood identity, and an attractive center.
28	Parks and Open Space	Park or greenway	SR	KEEP	Strongly supports walkability and connected neighborhood development.
29	Transportation	Transit stop	SR	KEEP	Directly supports convenient access and connected, walkable development.
30	Transportation	Passenger terminal, surface transportation	SE	REMOVE	Potentially regional-serving and vehicle-intensive, unlike a neighborhood transit stop.
31	Utilities and Communication	Antenna	P	KEEP WITH LIMITATIONS	Infrastructure can support development; appropriate siting and design standards should apply.
32	Utilities and Communication	Communication tower	SE	REMOVE	Infrastructure use is not a neighborhood mixed-use activity; better addressed through broader telecommunications standards.
33	Utilities and Communication	Utility, minor	SR	KEEP	Necessary supporting infrastructure and generally compatible when appropriately designed.
34	Commercial / Animal Services	Kennel	SR	KEEP WITH LIMITATIONS	Can serve nearby residents but may create noise, odor, and vehicle impacts; scale and operations should be controlled.
35	Commercial / Animal Services	Pet grooming	SR	KEEP	Neighborhood-serving personal service.
36	Commercial / Animal Services	Veterinary hospital or clinic	SR	KEEP WITH LIMITATIONS	Strong neighborhood service, with standards for outdoor activity, scale, and traffic.
37	Commercial / Commercial Services	Artist studio	P	KEEP	Supports local employment, small business, and neighborhood activity.

Proposed Neighborhood Mixed-Use (MU1) Updates

Land Use Types

	Use Classification	Land Use Type	Current Status	Recommendation	Justification / Planning Rationale
38	Commercial / Commercial Services	Bank, Retail	SR	KEEP	Neighborhood-serving financial service.
39	Commercial / Commercial Services	Catering	P	KEEP	Small-scale service/employment use compatible with mixed-use development.
40	Commercial / Commercial Services	Commercial services	P	KEEP	Broad neighborhood-serving commercial category consistent with the revised purpose.
41	Commercial / Commercial Services	Consumer goods repair	SR	KEEP	Neighborhood-serving service and local employment use.
42	Commercial / Commercial Services	Medical, dental, and health practitioner	P	KEEP	Strong neighborhood-serving service.
43	Commercial / Commercial Services	Non-depository personal credit institution	SR	REMOVE	Less directly tied to the stated neighborhood-serving purpose than core retail and service uses; can be accommodated elsewhere.
44	Commercial / Commercial Services	Office	SR	KEEP	Provides employment and services and fits the mixed-use concept.
45	Commercial / Commercial Services	Personal services	P	KEEP	Core neighborhood-serving commercial use.
46	Commercial / Commercial Services	Rental center	SR	REMOVE	May generate vehicle trips, loading, and outdoor storage and is less consistent with compact walkable development.
47	Commercial / Commercial Services	Self-service storage facility	SR	REMOVE	Land-intensive, low-employment use that can produce blank facades and vehicle-oriented development.
48	Commercial / Commercial Services	Tattoo or body piercing facility	SR	KEEP WITH LIMITATIONS	Can function as a small-scale personal service; operational standards may be appropriate.
49	Commercial	Bar or other drinking place	SE	KEEP WITH LIMITATIONS	Can serve a neighborhood but should address hours, noise, outdoor activity, and parking.
50	Commercial	Restaurant	SR	KEEP WITH LIMITATIONS	Core neighborhood-serving use; scale and operational impacts should be controlled.
51	Commercial	Restaurant, Carry-out	P	KEEP	Neighborhood-serving food service consistent with the district purpose.
52	Commercial / Recreation/Entertainment	Commercial recreation, Indoor	SR	KEEP WITH LIMITATIONS	Can provide neighborhood activity if limited in scale and impact.
53	Commercial / Recreation/Entertainment	Fitness or training center/studio	P	KEEP	Neighborhood-serving service and activity use.
54	Commercial / Recreation/Entertainment	Smoking place	SR	REMOVE	Specialized use that does not directly advance the stated goods, services, employment, or housing objectives.
55	Commercial / Retail Sales	Bakery	P	KEEP	Neighborhood-serving retail/food use.
56	Commercial / Retail Sales	Consumer goods store	SR	KEEP	Core small-scale neighborhood retail.

Proposed Neighborhood Mixed-Use (MU1) Updates

Land Use Types

	Use Classification	Land Use Type	Current Status	Recommendation	Justification / Planning Rationale
57	Commercial / Retail Sales	Convenience store	P	KEEP	Provides common day-to-day neighborhood goods.
58	Commercial / Retail Sales	Drugstore	SR	KEEP	Strong neighborhood-serving retail/service use.
59	Commercial / Retail Sales	Farmers' market	P	KEEP	Neighborhood-serving retail and community activity.
60	Commercial / Retail Sales	Garden center or retail nursery	P	KEEP WITH LIMITATIONS	Can serve nearby residents; outdoor display/storage should be controlled.
61	Commercial / Retail Sales	Grocery/Food store	P	KEEP	Strongly consistent with the neighborhood-serving purpose.
62	Commercial / Retail Sales	Pawnshop	P	REMOVE	Not essential to achieving the district's stated neighborhood-center purpose; commercial capacity should prioritize everyday goods and services.
63	Commercial / Traveler Accommodations	Bed and breakfast	SR	KEEP WITH LIMITATIONS	Small-scale lodging can be compatible with neighborhood character.
64	Commercial / Vehicle Sales and Services	Parking, Commercial	P	REMOVE AS STANDALONE USE	Standalone commercial parking conflicts with compact, walkable development; parking should generally support permitted development.
65	Commercial / Vehicle Sales and Services	Vehicle fueling station	P	REMOVE	Primarily automobile-oriented and inconsistent with the compact, walkable neighborhood-center concept.
66	Industrial / Extraction	Warehouse/Distribution facility	SR	REMOVE	Industrial/logistics use that can generate truck traffic, loading, and large-scale development inconsistent with MU1.
67	Industrial / Production of Goods	Artisan goods production	SR	KEEP WITH LIMITATIONS	Can support local employment and mixed-use activity if genuinely small-scale and low-impact.

Suggested Addition			
Land Use Type	Why Add It	Recommended Approach	Suggested Treatment/Notes

Proposed Neighborhood Mixed-Use (MU1) Updates

Land Use Types

	Use Classification	Land Use Type	Current Status	Recommendation	Justification / Planning Rationale
1	Dwelling, Duplex	ADD	Directly identified in the revised MU1 description as an appropriate housing option and provides a lower-intensity transition within the district.		Add as a residential use; establish dimensional/form standards as appropriate.
2	Dwelling, Townhouse	ADD	Directly identified in the revised MU1 description and supports compact, walkable, neighborhood-scale housing.		Add as a residential use; establish dimensional/form standards as appropriate.
3	Mixed-use development/building	ADD / CONSIDER	Makes the district's mixed-use purpose explicit rather than relying solely on separate residential and commercial permissions.		If the LDC permits an explicit mixed-use use, add it with standards for integration, access, parking, and transitions.

MU2: Corridor Mixed-Use

Current Purpose Description

The MU2: Corridor Mixed-Use District provides lands for walkable, mixed-use development along major corridors in the County. This district allows a mix of retail sales, personal and business services, recreation/entertainment, office, high-intensity multi-family residential, and institutional land uses. District standards are intended to ensure uses, development intensities, and development forms support development that is:

- Multi-story, mixed-use, and pedestrian-friendly;
- Oriented toward the major road corridor or otherwise laid out to establish a traditional main street character;
- Provides enhanced visual character along the corridor; and
- Is well-integrated in terms of access and circulation, complementary uses, and compatible design.

Proposed Purpose Description

The Corridor Mixed-Use (MU2) District is intended to accommodate compact, mixed-use development along designated activity corridors that serve as centers of commerce, employment, housing, and community activity. The district encourages development organized around a walkable, main street-style environment that integrates retail, office, residential, institutional, entertainment, and service uses in a coordinated development pattern. District standards are intended to promote buildings and public spaces that support pedestrian activity, create an attractive streetscape, and provide safe, interconnected access for pedestrians, bicycles, and vehicles while maintaining compatibility with surrounding development.

Accomplished Objectives

Based on the current purpose statement and the Planning Commission's comments, the revised description should accomplish several objectives:

- Clarify that the district is intended to create a main street-style mixed-use environment, rather than simply allowing a mixture of uses along a highway.
- Remove or soften the apparent conflict between major road corridors and pedestrian-oriented development by acknowledging that development occurs along corridors while emphasizing an internal walkable development pattern.
- Eliminate subjective or outdated terminology such as "traditional main street."
- Reduce the number of bullet points and rely on concise, objective language.
- Focus on the desired development form rather than attempting to describe uncommon examples or cultural references.

Planning Commission Comments

Planning Commission Comment	Addressed by
MU2 should read as a main street district.	Describes the district as encouraging a walkable, main street-style environment rather than simply a collection of uses along a corridor.
Conflict between major road corridors and pedestrian-friendly/traditional main street.	Focuses on development along designated activity corridors while emphasizing that the development itself should be walkable and internally connected, avoiding the implication that the arterial roadway must function like a small-town main street.
Make the purpose statement shorter and reduce bullet points.	Consolidates the purpose into a concise narrative without bullet points.

"Traditional main street" is outdated and subjective.	Replaces it with the more objective term main street-style environment, which describes the intended development pattern without relying on historical references.
Better describe the desired development form.	Clearly emphasizes compact, mixed-use, walkable development, interconnected access, attractive streetscapes, and integration of complementary land uses.
MU2 should read as a main street district.	Describes the district as encouraging a walkable, main street-style environment rather than simply a collection of uses along a corridor.

Results Achieved

This version better aligns with contemporary planning terminology and the goals of the Comprehensive Plan by emphasizing compact mixed-use development, multimodal connectivity, placemaking, and compatible urban design, rather than focusing primarily on the types of land uses permitted.

Approach

To establish a clear role for the Corridor Mixed-Use district:

- MU2 = compact, mixed-use development along designated activity corridors that serves as a center of commerce, employment, housing, and community activity
- Principal commercial uses = retail, restaurants, offices, personal services, medical services, and other commercial uses that contribute to an active corridor center
- Mixed-use development = a coordinated pattern of commercial, office, residential, institutional, entertainment, and service uses organized around a walkable, main street-style environment
- Residential uses = a range of housing types, including multifamily development, live-work, duplexes, and townhouses, integrated into the corridor development pattern
- MU1/MU3/GC = commercial and mixed-use districts that accommodate neighborhood-serving, broader, or more intensive standalone commercial activity
- Industrial districts = production, warehousing, distribution, intensive service, and similar activities

This makes the revised MU2 purpose statement more meaningful, because the use table - not the purpose statement alone - establishes which uses are appropriate to a corridor mixed-use center and reinforces the intended compact, walkable, main street-style development pattern.

Corridor & Scale Standards

Some uses remain but are limited to their role in supporting a compact, walkable corridor center.
For example:

- Retail sales — active, corridor-serving uses that contribute to pedestrian activity and are appropriately scaled to the mixed-use environment
- Restaurants/food service — active commercial uses that support a main street environment, with appropriate controls for hours, noise, outdoor activity, and residential compatibility
- Offices and personal services — employment and service uses that support corridor activity and can be integrated with other uses
- Residential uses — a variety of housing types, including multifamily, live-work, duplexes, and townhouses, arranged in a compact and compatible form
- Recreation/entertainment — neighborhood- and corridor-serving activities that contribute to an active center without creating regional-scale traffic, noise, or parking impacts
- Institutional and civic uses — community-serving uses that can function as anchors or supporting uses within the corridor
- Lodging — facilities that support corridor activity and employment when designed as part of the walkable development pattern
- Parking — accessory to permitted development rather than a standalone commercial use
- Transportation, utilities, and communication facilities — facilities that support the corridor and multimodal access, subject to applicable standards

This allows the MU2 district to provide the range of uses needed to support a corridor center without becoming a catch-all commercial, institutional, residential, transportation, industrial, or utility district.

Bottom Line

Keep: retail, restaurants, offices, personal and medical services, compatible recreation and entertainment, community and civic uses, transit, multifamily and live-work housing, and other uses that contribute to an active, mixed-use corridor.

Remove: uses that are regional-serving, industrial, land-intensive, strongly automobile-oriented, create inactive street frontage, or otherwise conflict with the compact and walkable corridor environment, including warehouse/distribution, self-service storage, vehicle fueling stations, standalone commercial parking, large event venues, passenger terminals, cemeteries, and other uses better located in commercial, transportation, or industrial districts.

Proposed Corridor Mixed-Use (MU2) Updates

Land Use Types

	Use Classification	Land Use Type	Current Status	Recommendation	Justification / Planning Rationale
1	Agricultural	Community garden	SE	KEEP WITH LIMITATIONS	Supports community activity and open-space character; keep small-scale.
2	Agriculture and Forestry Related	Farm supply and machinery sales and service	P	REMOVE	Vehicle- and land-intensive; inconsistent with compact, walkable main-street development.
3	Agriculture and Forestry Related	Produce stand	P	KEEP	Neighborhood/corridor-serving retail.
4	Residential	Dwelling, Live-Work	SR	KEEP	Directly supports integrated housing and employment.
5	Residential	Dwelling, Multi-family	P	KEEP	Core MU2 housing use.
6	Residential	Group home, Family	SR	KEEP	Small-scale residential use compatible with mixed-use development.
7	Group Living	Continuing care community	SR	REMOVE / RECONSIDER	Can become campus-like and conflict with compact main-street development.
8	Group Living	Rooming or boarding house	SE	REMOVE	Less consistent with the intended housing forms and mixed-use pattern.
9	Community Service	Community food services	P	KEEP	Supports community activity.
10	Community Service	Community recreation center	P	KEEP	Community-serving use; appropriate when scaled to the corridor.
11	Community Service	Cultural facility	P	KEEP	Supports activity and community identity.
12	Community Service	Day care facility	SR	KEEP	Needed service for residents and employees.
13	Community Service	Government office	P	KEEP	Provides employment and community services.
14	Community Service	Library	P	KEEP	Strong civic anchor for a walkable center.
15	Community Service	Membership organization facility	P	KEEP	Provides community services and activity.
16	Community Service	Nursing care facility	P	KEEP WITH LIMITATIONS	Useful service, but scale, access and parking should be controlled.
17	Community Service	Place of worship	P	KEEP WITH LIMITATIONS	Can serve corridor populations; site design should support walkability.
18	Community Service	Public recreation facility	SR	KEEP	Supports community activity and public space.
19	Community Service	Public safety facility	P	KEEP WITH LIMITATIONS	Important service; design and scale should fit surrounding development.
20	Community Service	Short-term or transitional housing	SE	KEEP WITH LIMITATIONS	Housing option that warrants operational and compatibility standards.
21	Education	College or university	P	REMOVE / RECONSIDER	A full campus may be too large/campus-oriented for the compact corridor role.
22	Education	Elementary, middle, or high school	SR	KEEP WITH LIMITATIONS	Community anchor, but site and traffic impacts need coordination.

Proposed Corridor Mixed-Use (MU2) Updates

Land Use Types

	Use Classification	Land Use Type	Current Status	Recommendation	Justification / Planning Rationale
23	Education	School, business or trade	SR	KEEP	Education and employment use can fit a corridor setting.
24	Funeral and Mortuary Services	Cemetery	SR	REMOVE	Land-intensive and incompatible with compact mixed-use development.
25	Funeral and Mortuary Services	Funeral home or mortuary	P	KEEP WITH LIMITATIONS	Can function as a corridor service, but parking/site impacts need controls.
26	Parks and Open Space	Arboretum or botanical garden	P	REMOVE / RECONSIDER	Typically land-intensive; only an urban-scale version would fit.
27	Parks and Open Space	Park or greenway	SR	KEEP	Strongly supports pedestrian activity and public spaces.
28	Transportation	Transit stop	SR	KEEP	Directly supports multimodal corridor access.
29	Transportation	Passenger terminal, surface transportation	P	REMOVE	Potentially regional-serving and inconsistent with intended scale.
30	Utilities and Communication	Antenna	P	KEEP WITH LIMITATIONS	Necessary infrastructure if appropriately sited and designed.
31	Utilities and Communication	Broadcasting studio	P	REMOVE / RECONSIDER	Specialized use not inherently supportive of the main-street role.
32	Utilities and Communication	Communication tower	SE	REMOVE	Not a mixed-use activity; address through general telecommunications standards.
33	Utilities and Communication	Utility, minor	SR	KEEP	Necessary supporting infrastructure.
34	Commercial / Animal Services	Kennel	SR	REMOVE	Noise, odor, outdoor activity and vehicle impacts can conflict with pedestrian-oriented development.
35	Commercial / Animal Services	Pet grooming	SR	KEEP	Neighborhood-serving personal service.
36	Commercial / Animal Services	Veterinary hospital or clinic	SR	KEEP WITH LIMITATIONS	Useful service but may require traffic/outdoor-activity controls.
37	Commercial / Commercial Services	Artist studio	P	KEEP	Supports local employment and active mixed-use development.
38	Commercial / Commercial Services	Bank, Retail	P	KEEP	Appropriate corridor-serving service.
39	Commercial / Commercial Services	Catering	P	KEEP	Small-scale business/service use.
40	Commercial / Commercial Services	Commercial services	P	KEEP	Consistent with the commercial role of MU2.
41	Commercial / Commercial Services	Consumer goods repair	SR	KEEP	Neighborhood/corridor-serving service.
42	Commercial / Commercial Services	Contractor's office	P	KEEP WITH LIMITATIONS	Retain if vehicle/equipment impacts are controlled.
43	Commercial / Commercial Services	Medical, dental, and health practitioner	P	KEEP	Strong employment and service use.
44	Commercial / Commercial Services	Non-depository personal credit institution	SR	REMOVE	Not essential to the desired main-street/community-activity role.

Proposed Corridor Mixed-Use (MU2) Updates
Land Use Types

	Use Classification	Land Use Type	Current Status	Recommendation	Justification / Planning Rationale
45	Commercial / Commercial Services	Office	SR	KEEP	Core employment use.
46	Commercial / Commercial Services	Personal services	P	KEEP	Core corridor-serving use.
47	Commercial / Commercial Services	Rental center	SR	REMOVE	Vehicle trips, loading and outdoor storage can undermine walkability.
48	Commercial / Commercial Services	Self-service storage facility	SR	REMOVE	Low-employment, land-intensive and can create inactive frontage.
49	Commercial / Commercial Services	Sightseeing tour services	P	KEEP WITH LIMITATIONS	Can support corridor activity if small-scale.
50	Commercial / Commercial Services	Tattoo or body piercing facility	SR	KEEP	Small-scale personal service compatible with a main street.
51	Commercial	Bar or other drinking place	SR	KEEP WITH LIMITATIONS	Can add activity but needs controls for hours, noise and residential compatibility.
52	Commercial	Restaurant	SR	KEEP	Core main-street/mixed-use use.
53	Commercial	Restaurant, Carry-out	P	KEEP	Neighborhood/corridor-serving food use.
54	Commercial / Recreation/Entertainment	Arena, stadium, or outdoor theater	SR	REMOVE	Regional/event-scale traffic, parking and noise conflict with intended scale.
55	Commercial / Recreation/Entertainment	Commercial recreation, Indoor	P	KEEP WITH LIMITATIONS	Can add activity if scale, noise, hours and access are controlled.
56	Commercial / Recreation/Entertainment	Commercial recreation, Outdoor	SR	REMOVE	Land, noise, lighting and parking impacts conflict with compact development.
57	Commercial / Recreation/Entertainment	Fitness or training center/studio	P	KEEP	Supports an active mixed-use environment.
58	Commercial / Recreation/Entertainment	Performing arts center	P	KEEP WITH LIMITATIONS	Potential anchor; event traffic and scale should be managed.
59	Commercial / Recreation/Entertainment	Smoking place	SR	REMOVE	Specialized use does not materially advance the district's stated role.
60	Commercial / Retail Sales	Bakery	P	KEEP	Strong small-scale main-street retail/food use.
61	Commercial / Retail Sales	Consumer goods store	SR	KEEP	Core retail use; maintain appropriate scale.
62	Commercial / Retail Sales	Convenience store	P	KEEP WITH LIMITATIONS	Provides daily goods; access, lighting and circulation should support pedestrians.
63	Commercial / Retail Sales	Drugstore	SR	KEEP	Neighborhood/corridor-serving retail.
64	Commercial / Retail Sales	Farmers' market	P	KEEP	Supports community activity and small-scale retail.
65	Commercial / Retail Sales	Garden center or retail nursery	P	KEEP WITH LIMITATIONS	Useful retail, but outdoor display/storage should not undermine compact form.
66	Commercial / Retail Sales	Grocery/Food store	P	KEEP	Core retail use supporting daily needs.

Proposed Corridor Mixed-Use (MU2) Updates

Land Use Types

	Use Classification	Land Use Type	Current Status	Recommendation	Justification / Planning Rationale
67	Commercial / Traveler Accommodations	Bed and breakfast	SR	KEEP WITH LIMITATIONS	Small-scale lodging can complement corridor activity.
68	Commercial / Traveler Accommodations	Home-based lodging	SR	KEEP WITH LIMITATIONS	Can provide limited lodging; protect residential compatibility.
69	Commercial / Traveler Accommodations	Hotel or motel	P	KEEP WITH LIMITATIONS	Can support visitors and employment if designed as pedestrian-oriented corridor development.
70	Commercial / Vehicle Sales and Services	Parking, Commercial	P	REMOVE AS STANDALONE USE	Standalone parking creates inactive frontage; allow accessory parking.
71	Commercial / Vehicle Sales and Services	Vehicle fueling station	P	REMOVE	Primarily automobile-oriented and difficult to reconcile with the desired main-street environment.
72	Industrial / Freight Movement, Warehousing, and Wholesale Distribution	Warehouse/Distribution facility	SR	REMOVE	Truck traffic, loading and large sites are inconsistent with compact corridor mixed-use development.
73	Industrial / Production of Goods	Artisan goods production	SR	KEEP WITH LIMITATIONS	Can support local employment if small-scale and low-impact.

Suggested Addition

	Land Use Type	Recommendation	Justification
1	Dwelling, Duplex	ADD	Expands housing choice and provides a lower-intensity form that can transition between corridor development and nearby neighborhoods.
2	Dwelling, Townhouse	ADD	Supports housing variety and compact, pedestrian-oriented development.
3	Mixed-use development / mixed-use building	ADD / CONSIDER	Makes the coordinated mixed-use pattern explicit and reinforces the main-street concept.
4	Multifamily residential integrated within mixed-use buildings	ADD / CLARIFY	Clarifies that multifamily housing can be integrated vertically or horizontally with commercial uses.

Community Mixed-Use (MU3)

Current Purpose Description

The MU3: Community Mixed-Use District provides lands for walkable mixed-use centers that include a mix of commercial and institutional uses serving residents of the community generally, and neighborhoods surrounding the district, as well as high-intensity residential uses. Development allowed in this district includes a broad range of uses at different scales, such as large and small format retail uses, grocery stores, restaurants and bars, personal service uses, professional offices, stand-alone multi-family residential development, and multi-family residential development in buildings containing nonresidential uses on the ground floor. District standards are intended to ensure uses, development intensities, and development forms that supports development that:

- Is oriented toward the major road corridor or otherwise establishes a traditional main street character;
- Provides enhanced visual character on the major streets within the center;
- Includes public open space accessible to those who live in, work in, and visit the center; and
- Is well-integrated in terms of access and circulation, complementary uses, and compatible design.

Proposed Purpose Description

The Community Mixed-Use (MU3) District is intended to accommodate compact, high-intensity mixed-use development within identified activity centers that serve surrounding neighborhoods and the broader community. The district supports a mix of commercial, office, institutional, entertainment, and residential uses, including integrated and stand-alone multifamily housing, arranged in a walkable development pattern. District standards are intended to promote coordinated site design, public gathering spaces, interconnected pedestrian, bicycle, and vehicle access, and development that creates vibrant, mixed-use centers compatible with surrounding development.

Accomplished Objectives

Based on the current purpose statement and the Planning Commission's comments, the revised description should shift the emphasis from corridor-oriented development to activity center-oriented development, clarify the district's role as the County's highest-intensity mixed-use district, simplify the language, and align with the Comprehensive Plan's goals for compact, walkable development.

Planning Commission Comments

Planning Commission Comment	Addressed by
MU3 is intended to be the County's highest-intensity mixed-use district.	Identifies the district as accommodating compact, high-intensity mixed-use development that serves both surrounding neighborhoods and the broader community.
The district should function as a town center or activity center, not a corridor.	Replaces references to major road corridors with identified activity centers, emphasizing compact, center-oriented development.
"Major road corridor" and "traditional main street" are conflicting concepts.	Removes both references and instead focuses on creating walkable mixed-use centers, eliminating the conflicting terminology.
The language should shift from corridor-oriented to center-oriented.	Reorients the purpose around identified activity centers, consistent with the Comprehensive Plan's vision for compact development.
The purpose statement is too long and repetitive.	Consolidates the district's purpose into a concise narrative without bullet points while preserving its primary objectives.

Clarify residential development.	Recognizes both integrated mixed-use residential and stand-alone multifamily housing without making either the defining feature of the district.

Results Achieved

The proposed revisions maintain the original purpose of the MU3 District while providing clearer guidance on its role as the County's primary district for compact, high-intensity mixed-use development. The revised language removes outdated references to corridor-oriented development and traditional main streets, shifts the focus to identified activity centers, and emphasizes walkability, connectivity, public gathering spaces, and coordinated site design. These revisions better align with current planning practices and the goals of the updated Comprehensive Plan.

Approach

To establish a clear role for the Community Mixed-Use district:

- MU3 = the County's highest-intensity mixed-use district, accommodating compact, walkable activity centers that serve surrounding neighborhoods and the broader community
- Principal mixed-use activities = retail, restaurants, offices, institutional, entertainment, and residential uses that together establish a vibrant activity center
- Supporting uses = community-serving, civic, service, lodging, recreation, and other uses that complement the principal mixed-use activities and contribute to activity-center function
- Residential uses = high-intensity multifamily and other compatible housing types, including integrated and stand-alone residential development
- MU1/MU2/GC = commercial and mixed-use districts that accommodate neighborhood-serving, corridor-oriented, or broader standalone commercial activity at lower or different intensities
- Industrial districts = production, warehousing, distribution, intensive service, and similar activities

This makes the revised MU3 purpose statement more meaningful, because the use table - not the purpose statement alone - establishes the distinction between principal mixed-use activities and supporting uses and reinforces the intended compact, high-intensity, walkable activity-center character of the district.

Activity Center & Scale Standards

Some uses remain but are limited to their role as supporting activity-center uses.
For example:

- Retail sales — a broad range of retail uses may be appropriate, including larger-format retail and grocery uses, when integrated into a compact, mixed-use development pattern
- Restaurants/food service — community- and regional-serving dining uses that contribute to an active center, with appropriate controls for drive-throughs, hours, noise, outdoor activity, and residential compatibility
- Offices and personal services — employment and service uses that contribute to the center's role as a community and regional destination
- Residential uses — high-intensity multifamily and other compatible housing forms, both integrated with nonresidential uses and in stand-alone residential buildings
- Institutional and civic uses — major community-serving facilities that can function as anchors within the activity center
- Recreation/entertainment — uses that contribute to a vibrant center, including larger entertainment and cultural uses where scale, access, parking, and event impacts can be appropriately managed
- Lodging — hotels and other visitor-serving accommodations that support the broader community and activity center
- Public gathering spaces — parks, greenways, plazas, and other spaces that provide opportunities for gathering and support pedestrian activity
- Parking — accessory or shared parking that supports the mixed-use center rather than standalone commercial parking as a principal land use
- Transportation, utilities, and communication facilities — facilities that support the activity center and multimodal access, subject to applicable standards

This allows the MU3 district to accommodate the broad range and higher intensity of uses expected in a major activity center without becoming a catch-all commercial, residential, transportation, industrial, or utility district.

Bottom Line

Keep: a broad range of retail, restaurants, offices, personal and medical services, institutional and civic uses, entertainment, lodging, multifamily housing, live-work housing, parks and public gathering spaces, transit, and other uses that contribute to a vibrant, compact, high-intensity mixed-use activity center.

Remove: uses that are primarily industrial, land-intensive, inactive-frontage, or strongly automobile-oriented and do not contribute to an activity-center environment, including warehouse/distribution, self-service storage, standalone commercial parking, vehicle fueling stations, drive-through restaurants, cemeteries, kennels, and other uses better located in industrial, transportation, or lower-intensity commercial districts.

Proposed Community Mixed-Use (MU3) Updates

Land Use Types

	Use Classification	Land Use Type	Current Status	Recommendation	Justification / Planning Rationale
1	Agricultural	Community garden	SE	KEEP WITH LIMITATIONS	Supports community activity and public/open-space objectives, but should remain small-scale and integrated into the activity-center pattern.
2	Agriculture and Forestry Related	Farm supply and machinery sales and service	P	REMOVE	Land- and vehicle-intensive use is not consistent with a compact, high-intensity mixed-use activity center.
3	Agriculture and Forestry Related	Produce stand	P	KEEP WITH LIMITATIONS	Can provide local goods and contribute to an active center, but should be integrated into the pedestrian-oriented development pattern.
4	Residential	Dwelling, Live-Work	SR	KEEP	Directly supports mixed-use development by combining housing and employment.
5	Residential	Dwelling, Multi-family	P	KEEP	Core MU3 use and appropriate to the district's highest-intensity residential role.
6	Residential	Group home, Family	SR	KEEP	Provides housing choice and can be compatible with mixed-use development.
7	Group Living	Continuing care community	SR	KEEP WITH LIMITATIONS	Can provide an important housing/service option, but larger campus-style facilities should be designed to fit the compact activity-center pattern.
8	Group Living	Rooming or boarding house	SE	KEEP WITH LIMITATIONS	Can provide additional housing choice, but should meet standards for building form, management, parking, and compatibility.
9	Public, Civic, and Institutional	Community food services	P	KEEP	Supports community activity and complements a mixed-use center.
10	Public, Civic, and Institutional	Community recreation center	P	KEEP	Community-serving anchor that can contribute to a vibrant activity center.
11	Public, Civic, and Institutional	Cultural facility	P	KEEP	Supports community identity, gathering, and activity.
12	Public, Civic, and Institutional	Day care facility	SR	KEEP	Provides an important service for residents and workers and can support mixed-use activity.
13	Public, Civic, and Institutional	Government office	P	KEEP	Provides employment and community services appropriate to a major activity center.
14	Public, Civic, and Institutional	Hospital	P	KEEP	A major employment and community-serving use that is appropriate to a high-intensity activity center, subject to coordinated access and site design.
15	Public, Civic, and Institutional	Library	P	KEEP	Strong civic anchor and public gathering use.
16	Public, Civic, and Institutional	Membership organization facility	P	KEEP	Supports community activity and services.

Proposed Community Mixed-Use (MU3) Updates

Land Use Types

	Use Classification	Land Use Type	Current Status	Recommendation	Justification / Planning Rationale
17	Public, Civic, and Institutional	Nursing care facility	P	KEEP WITH LIMITATIONS	Provides housing/service opportunities but should be compatible with compact development and multimodal access.
18	Public, Civic, and Institutional	Place of worship	P	KEEP WITH LIMITATIONS	Can serve the broader community; site design, parking, and access should reinforce the activity-center pattern.
19	Public, Civic, and Institutional	Public recreation facility	SR	KEEP	Supports community activity and public-space objectives.
20	Public, Civic, and Institutional	Public safety facility	P	KEEP	Important community-serving use appropriate to a major activity center; site design should support the surrounding walkable pattern.
21	Public, Civic, and Institutional	Short-term or transitional housing	SE	KEEP	Supports housing choice and community services and can be incorporated into a mixed-use center with appropriate standards.
22	Education	College or university	P	KEEP WITH LIMITATIONS	Can be a major activity-center anchor, but large campus-style development should be coordinated with compact urban form and multimodal access.
23	Education	Elementary, middle, or high school	SR	KEEP WITH LIMITATIONS	Important community anchor, but large sites, drop-off circulation, and access should be coordinated with the walkable center.
24	Education	School, business or trade	SR	KEEP	Provides education and employment and can fit within a high-intensity mixed-use center.
25	Funeral and Mortuary Services	Cemetery	SR	REMOVE	Land-intensive and generally incompatible with compact, high-intensity mixed-use development.
26	Funeral and Mortuary Services	Funeral home or mortuary	P	KEEP WITH LIMITATIONS	Can serve the broader community, but site design, parking, loading, and frontage should support the activity-center pattern.
27	Parks and Open Space	Arboretum or botanical garden	P	KEEP WITH LIMITATIONS	Can provide public gathering/open-space value, but should be scaled and designed as an urban activity-center amenity rather than a large land-consuming facility.
28	Parks and Open Space	Park or greenway	SR	KEEP	Directly supports public gathering spaces, walkability, and connectivity.
29	Transportation	Transit stop	SR	KEEP	Essential to the district's emphasis on interconnected multimodal access.
30	Transportation	Passenger terminal, surface transportation	P	KEEP WITH LIMITATIONS	A transit/transportation anchor can support a major activity center, but regional terminal functions should be managed for scale, circulation, and pedestrian safety.
31	Utilities and Communication	Antenna	P	KEEP WITH LIMITATIONS	Necessary infrastructure when appropriately integrated and designed to minimize impacts on public spaces and development form.
32	Utilities and Communication	Broadcasting studio	P	KEEP	Can provide employment and active commercial/office activity in a high-intensity center when building and operational impacts are compatible.

Proposed Community Mixed-Use (MU3) Updates

Land Use Types

	Use Classification	Land Use Type	Current Status	Recommendation	Justification / Planning Rationale
33	Utilities and Communication	Communication tower	SE	KEEP WITH LIMITATIONS	May be necessary infrastructure; location and design should protect the activity-center streetscape.
34	Utilities and Communication	Utility, minor	SR	KEEP	Necessary supporting infrastructure when integrated into development.
35	Commercial / Animal Services	Kennel	SR	REMOVE	Noise, odor, outdoor activity, and site/vehicle requirements can conflict with compact, high-intensity mixed-use development.
36	Commercial / Animal Services	Pet grooming	SR	KEEP	Neighborhood- and community-serving personal service compatible with an active center.
37	Commercial / Animal Services	Veterinary hospital or clinic	SR	KEEP	Provides a useful service and can fit a major mixed-use center with appropriate operational/site standards.
38	Commercial / Commercial Services	Artist studio	P	KEEP	Supports local employment, small business, and an active mixed-use environment.
39	Commercial / Commercial Services	Bank, Retail	P	KEEP	Appropriate commercial/service use for a community-scale activity center.
40	Commercial / Commercial Services	Catering	P	KEEP	Small business/service use compatible with mixed-use development.
41	Commercial / Commercial Services	Commercial services	P	KEEP	Broad category of services that supports the district's commercial and employment role.
42	Commercial / Commercial Services	Consumer goods repair	SR	KEEP	Community-serving service that can contribute to an active center.
43	Commercial / Commercial Services	Contractor's office	P	KEEP WITH LIMITATIONS	Can provide employment but associated vehicles/equipment should not undermine pedestrian-oriented form.
44	Commercial / Commercial Services	Medical, dental, and health practitioner	P	KEEP	Core employment and service use appropriate to a major activity center.
45	Commercial / Commercial Services	Non-depository personal credit institution	SR	REMOVE	Not essential to the district's activity-center role and does little to support the desired mix of community-serving, employment, residential, and active commercial uses.
46	Commercial / Commercial Services	Office	SR	KEEP	Core employment use for a high-intensity mixed-use center.
47	Commercial / Commercial Services	Personal services	P	KEEP	Core community-serving commercial use.
48	Commercial / Commercial Services	Rental center	SR	REMOVE	Vehicle trips, loading, and potential outdoor storage conflict with compact, walkable development.

Proposed Community Mixed-Use (MU3) Updates

Land Use Types

	Use Classification	Land Use Type	Current Status	Recommendation	Justification / Planning Rationale
49	Commercial / Commercial Services	Self-service storage facility	SR	REMOVE	Land-intensive, low-employment use can create inactive frontage and does not support a vibrant mixed-use center.
50	Commercial / Commercial Services	Sightseeing tour services	P	KEEP WITH LIMITATIONS	Can contribute to visitor activity and employment, provided it remains small-scale and does not operate as a terminal.
51	Commercial / Commercial Services	Tattoo or body piercing facility	SR	KEEP	Small-scale personal service compatible with an active center.
52	Commercial	Bar or other drinking place	SR	KEEP WITH LIMITATIONS	Can support an active evening economy, but hours, noise, outdoor activity, and compatibility with nearby housing require standards.
53	Commercial	Restaurant	SR	KEEP	Core use supporting activity throughout the day and evening.
54	Commercial	Restaurant, Carry-out	P	KEEP	Compatible food-service use for an active center.
55	Commercial	Restaurant, Drive-through	SR	REMOVE	The drive-through model prioritizes automobile circulation and can create inactive frontage and conflicts with the walkable, public-space-oriented form intended for MU3.
56	Commercial / Recreation/Entertainment	Arena, stadium, or outdoor theater	SR	KEEP WITH LIMITATIONS	As the County's highest-intensity mixed-use district, MU3 may accommodate major entertainment anchors, but event traffic, noise, parking, and pedestrian circulation require strong standards.
57	Commercial / Recreation/Entertainment	Commercial recreation, Indoor	P	KEEP	Can contribute to a vibrant, active center and support broader community activity.
58	Commercial / Recreation/Entertainment	Commercial recreation, Outdoor	SR	KEEP WITH LIMITATIONS	Can support activity and public life, but should be urban-scale and designed to avoid excessive land consumption, noise, and inactive edges.
59	Commercial / Recreation/Entertainment	Fitness or training center/studio	P	KEEP	Supports active mixed-use development and community activity.
60	Commercial / Recreation/Entertainment	Performing arts center	P	KEEP	Strong activity-center anchor supporting culture, entertainment, and public gathering.
61	Commercial / Recreation/Entertainment	Smoking place	SR	REMOVE	Specialized use does not materially advance the district's stated activity-center role and may conflict with a broad, community-oriented mix of uses.
62	Commercial / Retail Sales	Bakery	P	KEEP	Strong small-scale retail/food use for an active center.
63	Commercial / Retail Sales	Consumer goods store	SR	KEEP	Core retail use; appropriate scale and frontage standards should reinforce the center.

Proposed Community Mixed-Use (MU3) Updates

Land Use Types

	Use Classification	Land Use Type	Current Status	Recommendation	Justification / Planning Rationale
64	Commercial / Retail Sales	Convenience store	P	KEEP WITH LIMITATIONS	Provides daily goods but access, lighting, parking, and building orientation should reinforce walkability.
65	Commercial / Retail Sales	Drugstore	SR	KEEP	Community-serving retail and health-related use.
66	Commercial / Retail Sales	Farmers' market	P	KEEP	Supports public gathering, local commerce, and an active center.
67	Commercial / Retail Sales	Garden center or retail nursery	P	KEEP WITH LIMITATIONS	Can provide useful retail and public activity, but outdoor storage/display should not consume excessive land or undermine active frontage.
68	Commercial / Retail Sales	Grocery/Food store	P	KEEP	Core commercial use serving residents and the broader community.
69	Commercial / Traveler Accommodations	Bed and breakfast	SR	KEEP WITH LIMITATIONS	Small-scale lodging can support the center and visitors while remaining compatible with mixed-use development.
70	Commercial / Traveler Accommodations	Home-based lodging	SR	KEEP WITH LIMITATIONS	Can provide lodging within residential forms; apply standards to protect residential compatibility.
71	Commercial / Traveler Accommodations	Hotel or motel	P	KEEP	Appropriate to a major activity center serving the broader community, particularly when integrated into a walkable development pattern.
72	Commercial / Vehicle Sales and Services	Parking, Commercial	P	REMOVE AS A PRINCIPAL USE	Standalone commercial parking consumes land, creates inactive frontage, and conflicts with the compact, high-intensity development pattern; accessory/shared parking should remain allowed.
73	Commercial / Vehicle Sales and Services	Vehicle fueling station	P	REMOVE	Primarily automobile-oriented and difficult to reconcile with the desired walkable activity-center form.
74	Industrial / Freight Movement, Warehousing, and Wholesale Distribution	Warehouse/Distribution facility	SR	REMOVE	Truck traffic, loading, and large single-purpose sites are inconsistent with compact, high-intensity mixed-use development.
75	Industrial / Production of Goods	Artisan goods production	SR	KEEP WITH LIMITATIONS	Can provide local employment and an active mixed-use component when small-scale, low-impact, and compatible with nearby housing and commercial uses.

Suggested Addition

	Land Use Type	Recommendation	Justification
1	Dwelling, Duplex	ADD	Adds housing choice and provides a moderate-intensity residential form that can transition to surrounding development while remaining compatible with MU3.

Proposed Community Mixed-Use (MU3) Updates

Land Use Types

	Use Classification	Land Use Type	Current Status	Recommendation	Justification / Planning Rationale
2	Dwelling, Townhouse	ADD	Adds a compact housing type that supports the district's variety of housing options and walkable development pattern.		
3	Mixed-use development / mixed-use building	ADD / CLARIFY	The revised purpose specifically emphasizes coordinated mixed-use activity centers; an explicit use or development option would reinforce that intent.		
4	Public plaza / civic gathering space	ADD / CLARIFY	The revised purpose emphasizes public gathering spaces. A defined plaza/gathering-space category or standard would make that objective more explicit than relying only on parks and greenways.		

RICHLAND COUNTY COUNCIL
ZONING PUBLIC HEARING
AGENDA
Tuesday, October 27, 2026
2020 Hampton Street, Columbia, SC 29204
7:00 PM

1. **STAFF:**
   Synithia Williams ..... Community Planning and Development Director
   Geonard Price ..... Deputy CP&D Director
   Thomas DeLage ..... Zoning Administrator
   Matthew T. Smith ..... Comprehensive Planner
   Marc Ridlehoover ..... Comprehensive Planner

2. **CALL TO ORDER** ..... The Honorable Jesica Mackey
   Chair of Richland County Council

3. **ADDITIONS / DELETIONS TO THE AGENDA** ..... The Honorable Jesica Mackey

4. **WITHDRAWALS / DEFERRALS** ..... The Honorable Jesica Mackey

5. **ADOPTION OF THE AGENDA** ..... The Honorable Jesica Mackey

6. **OPEN / CLOSE PUBLIC HEARING/ FIRST READING** ..... The Honorable Jesica Mackey

   a. MAP AMENDMENTS

   1. Case # 26-014 MA — District 7
   Jatin Patel — The Honorable Gretchen D. Cooper
   HM to GC (32.21 acres)
   S/S Killian Road
   TMS# R14600-03-05
   Planning Commission: Disapproved (5-2)
   Comprehensive Plan: Non-Compliant
   Approved by County Council: 10-0

   2. Case # 26-027 MA — District 7
   Luke Boatright — The Honorable Gretchen D. Cooper
   AG to R3 (133.75 acres)
   E/S Winnsboro Road
   TMS# R10000-02-06
   Planning Commission: Approval (7-1)
   Comprehensive Plan: Compliant
   Approved by County Council: 9-1

   3. Case # 26-029 MA — District 2
   Lucky Detty — The Honorable Derrek Pugh
   R6 to MU1 (0.18 acres)
   100 Beatty Downs Road
   TMS# R06106-01-28
   Planning Commission: Approval (7-1)
   Comprehensive Plan: Compliant
   Approved by County Council: 10-0

4. Case # 26-030 MA — District 7
Hance Jones — The Honorable Gretchen D. Cooper
EMP to GC (1.89 acres)
10141 Wilson Blvd
TMS# R14800-05-11p
Planning Commission: Approval (8-0)
Comprehensive Plan: Compliant
Approved by County Council: 10-0

5. Case # 26-031 MA — District 1
John Rowe Jr. — The Honorable Jason Branham
HM to R3 (24.60 acres)
W/S Koon Road
TMS# R03400-02-15;17;18 & 19
Planning Commission: Approval (7-1)
Comprehensive Plan: Compliant
Deferred by County Council: 10-0

6. Case # 26-032 MA — District 7
Frances Ashley — The Honorable Gretchen D. Cooper
RT/HM to R3 (25.77 acres)
N/S Big Bear Road and S/S Big Bear Road
TMS# R12334-03-16;19;23-24 and 26-29
Planning Commission: Approval (8-0)
Comprehensive Plan: Compliant
Approved by County Council: 9-1

7. Case # 26-033 MA — District 7
Fil Mabry — The Honorable Gretchen. D. Cooper
HM to R3 (9.2 acres)
W/S Torwood Drive
TMS# R11913-01-08
Planning Commission: Approval (8-0)
Comprehensive Plan: Compliant
Deferred by County Council: 10-0

8. Case # 26-034 MA — District 8
Alex and Vanessa English — The Honorable Tish Dozier Alleyne
AG to RT (47.88 acres)
596 Rimer Pond Road
TMS# R20500-04-05
Planning Commission: Approval (8-0)
Comprehensive Plan: Non-Compliant
Approved by County Council: 10-0

9. Case # 26-035 MA — District 1
Jerry Rye — The Honorable Jason Branham
HM to RC (5.07 acres)
11220 Broad River Road
TMS# R02600-04-23p
Planning Commission: Approval (8-0)
Comprehensive Plan: Compliant
Approved by County Council: 10-0

10. Case # 26-036 MA — District 8
Padi Reddy/ Satya Kadali — The Honorable Tish Dozier Alleyne
M1 to MU1 (12.27 acres)
W/S Two Notch Road
TMS # R19900-01-01p
Planning Commission: Approval (8-0)
Comprehensive Plan: Compliant
Approved by County Council: 10-0

11. Case # 26-037 MA — District 8
Kyle M. Clampitt, PE — The Honorable Tish Dozier Alleyne
INS to R6 (10.77 acres)
2312 Clemson Road
TMS # R20200-01-30
Planning Commission: Approval (8-0)
Comprehensive Plan: Compliant
Approved by County Council: 10-0

7. ADJOURNMENT 8:03 pm
