

RICHLAND COUNTY PLANNING COMMISSION

The February 2, 2026, Planning Commission meeting was canceled due to the forecast of inclement weather. The meeting was subsequently rescheduled and held on February 19, 2026.

February 2, 2026

***Council Chambers
2020 Hampton Street
Columbia, SC 29202***

Purpose and Use of the Future Land Use Map

Purpose of Future Land Use Map and Categories

The Future Land Use map and categories are used during rezoning requests to make recommendations and decisions regarding the appropriateness of different aspects of proposed developments. The Future Land Use map and categories provide guidance when making decisions about zoning and infrastructure investments by identifying the type and character of development that should occur in specific areas.

The Future Land Use categories and the Future Land Use map are provided solely with the intention of offering guidance to local decision-makers. This plan does not make formal recommendations to rezone properties to align with these Future Land use designations, but provides support for these Future Land Use designations during a rezoning case evaluation.

Using the Future Land Use Map and Categories

Each rezoning proposal needs to be evaluated using the land use category, goals and implementation strategies outlined in this Comprehensive Plan. Because this is a Comprehensive Plan and not intended to provide site level guidance with regard to development decisions, discretion should be used when evaluating a proposed rezoning using the Future Land Use Map and related categories.

Future Land Use category lines were developed by considering development character, utility service areas, lines of natural features, and roadways. Particularly for areas near or on the boundaries of Future Land Use categories, discretion by the Richland County Planning Department staff is needed to determine the appropriate Future Land Use category that should be applied based on:

- Existing development context of property
- Environmental context of the property
- Development activity or proposed activity occurring within a sphere of influence of the property
- Future plans to construct utility infrastructure, roadways, or other public facilities

Ultimately, rezoning decisions are legislative decisions made by the County Council. This means that the decisions are a policy choice, and that the Comprehensive Plan helps to inform these choices.

RICHLAND COUNTY PLANNING COMMISSION

Monday, February 2, 2026
Agenda
6:00 PM
2020 Hampton Street
2nd Floor, Council Chambers

Chairman - Christopher Yonke

Pages [60 - 61]

10. ADJOURNMENT

MEETING FORMAT

The Planning Commission uses the consent agenda to approve non-controversial or routine matters by a single motion and vote. If a member of the Planning Commission, the Planning Staff or the general public wants to discuss an item on the consent agenda (at the beginning of the meeting), that item is removed from the consent agenda and considered during the meeting. The Planning Commission then approves the remaining consent agenda items.

Persons wishing to speak on an agenda item are requested to sign the item's sign-in sheet located at the back of County Council Chambers. Meeting attendees are usually given two (2) minutes to speak; the time limit is at the discretion of the Chair of the meeting and may be limited when appropriate.

Speakers' comments should be addressed to the full body. Requests to engage a Commission Member, County staff or applicants in conversation will not be honored. Abusive language is inappropriate.

After persons have spoken, the hearing is closed and brought back to Commission level for discussion and action. There is no further comment permitted from the audience unless requested by the Commission.

ZONING PUBLIC HEARING

The Planning Commission is a recommending body to Richland County Council. Recommendations for “Approval” or “Disapproval” are forwarded to County Council for their consideration at the next Zoning Public Hearing. The Zoning Public Hearing is another opportunity to voice your opinion for or against a rezoning or amendment to the Land Development Code and is open to the public. The County Council Zoning Public Hearing is usually scheduled for the 4th Tuesday of the month at 7:00 p.m. Check the County’s website for dates and times.

Street Name Review Case Summary

PLANNING COMMISSION MEETING

February 2, 2026

6:00 pm

Pursuant to SC Code 6-29-1200 (a), a local planning commission shall, by proper certificate, approve and authorize the name of a street or road laid out within the territory over which the commission has jurisdiction.

Development:	Magnolia Crossing
Applicant:	Bolden Land Holdings, LLC
Tax Map Number:	TMS# R17301-01-01 , R17301-01-02 , R17302-01-01 , & R17302-01-02
Proposed Use:	Residential
Proposed Street Name (s):	Carolina Wren Way; Lowood Lane; Birckmyer Court; Seven Oaks Drive; Chesford Road; and Chervil Drive
Staff Review:	The proposed street names are compliant with the E9-1-1 Road Naming Standards.
Staff Recommendation:	Approval
Council District:	Honorable Gretchen D. Cooper (7)

APPLICANT: Richland County

LOCATION: S/S Montgomery Road

TAX MAP NUMBER: R06600-02-17 (P)
ACREAGE: 63.07
EXISTING ZONING: AG
PROPOSED ZONING: HI

PC SIGN POSTING: January 12, 2026

Comprehensive Plan Recommendation

Not Compliant

Background

Zoning History

The original zoning as adopted September 7, 1977 was Rural District (RU). With the adoption of the 2023 Land Development Code, the subject parcel was rezoned to Agricultural District (AG)

Zoning History for the General Area

Case	Zoning at Request	Proposed Zoning	CC Action	PC Rec.	Comp Plan Compliance
11-010 MA	Rural (RU)	Heavy Industrial (HI)	Approval	Approval	Compliant (2009)
20-033 MA	Rural (RU)	Heavy Industrial (HI)	Approval	Approval	Non-compliant (2015)
25-034 MA	Agricultural (AG)	Heavy Industrial (HI)	Withdrawn	Disapproval	Non-compliant (2015)

Zoning District Summary

The Heavy Industrial District (HI) provides lands for intense industrial development that generally involves greater potential for adverse impacts on the environment and surrounding lands, such as dust, fumes, smoke, odor, noise, and vibration, and that may involve large-scale activities requiring extensive movement of vehicles, materials, and goods. Development allowed in this district includes resource extraction, heavy production and processing, outdoor storage, warehouse distribution, major utility facilities, and other similar industrial uses.

Direction	Existing Zoning	Use
<u>North:</u>	AG	Undeveloped
<u>South:</u>	HI	C&D Landfill
<u>East:</u>	HI	C&D Landfill
<u>West:</u>	N/A	RR ROW

Discussion

Parcel/Area Characteristics

The subject site is a large, wooded and undeveloped parcel. The site appears to have a utility easement across the site.

Public Services

The subject parcel is within the boundaries of Richland School District One. Water and sewer service would be provided by well and septic. There is a fire hydrant located on Caughman Road N. which is southeast of the subject parcel. The Upper Richland fire station (number 17) is located 1.55 miles northeast of the subject parcel on Campground Road.

Being within a service area is not a guarantee that services are available to the parcel.

Plans & Policies

The 2015 Richland County Comprehensive Plan, ***“PUTTING THE PIECES IN PLACE”***, designates this area as ***Neighborhood (Low-Density)***.

Land Use and Character

Areas where low-density residential is the primary use. These areas serve as a transition between Rural and Neighborhood (Medium-Density) areas, and are opportunities for low-density traditional neighborhood development and open space developments that preserve open spaces and natural features. Commercial development should be located within nearby Neighborhood Activity Centers, and may be considered for location along main road corridors and within a contextually-appropriate distance from the intersection of a primary arterial. Places of worship and parks are appropriate institutional uses, but should be designed to mitigate impacts on surrounding neighborhoods. Industrial development with significant community impacts (i.e., noise, exhaust, odor, heavy truck traffic) is discouraged in these areas.

Desired Development Pattern

Lower-density, single-family neighborhood developments are preferred. Open space developments that provide increased densities in trade for the protection of open spaces and recreational areas are also encouraged (see Desired Pattern for Rural areas for more information on open space developments). Residential developments that incorporate more open spaces and protection of natural areas through the use of natural stormwater management techniques, such as swales, are encouraged. Homes in neighborhoods can be supported by small-scale neighborhood commercial establishments located at primary arterial intersections, preferably within Neighborhood Commercial Activity Centers

Traffic Characteristics

There are no traffic count stations along Montgomery Road. The 2024 SCDOT traffic count (Station #251) located east of the subject parcel on Monticello Road identifies 3,300 Average Daily Trips (ADTs). Monticello Road is classified as a two lane undivided minor arterial road, maintained by SCDOT with a design capacity of 10,800 ADTs. This portion of Monticello Road is currently operating at Level of Service (LOS) "A".

There are no planned or programmed improvements for this section of Monticello Road through the County Penny Sales Tax program or through SCDOT.

There is a Rehab & Resurfacing project currently underway for Montgomery Road through SCDOT. There is no anticipated completion date for this project.

Conclusion

The request is **not compliant** with the objectives and recommendations of the Neighborhood (Low-Density) designation of the Comprehensive Plan.

The Comprehensive Plan recommends that areas within this designation, "...serve as a transition between Rural and Neighborhood (Medium-Density) areas, and are opportunities for low-density traditional neighborhood development and open space developments that preserve open spaces and natural features."

However, approval of the proposed map amendment would provide for a zoning designation that is compatible with the adjacent parcels.

APPLICANT: Heather Leigh

LOCATION: 11020 Two Notch Road

TAX MAP NUMBER: R29000-02-46 (portion of)
ACREAGE: 2 acres
EXISTING ZONING: RU
PROPOSED ZONING: GC

PC SIGN POSTING: January 12, 2026

Staff Recommendation

Not Compliant

Background

Zoning History

The original zoning as adopted September 7, 1977 was Rural (RU) District.

Zoning History for the General Area

Case	Zoning at Request	Proposed Zoning	CC Action	PC Rec.	Comp Plan Compliance
00-003 MA	RG-2	General Commercial (GC)	Approval	Approval	Compliant (1995)
20-008 MA	Rural (RU)	Neighborhood Commercial (NC)	Approval	Approval	Non-Compliant (2015)
22-041 MA	Rural (RU)	General Commercial (GC)	Withdrawn	Deferred	Non-Compliant (2015)

Zoning District Summary

The General Commercial (GC) District is intended to accommodate a variety of commercial and non-residential uses characterized primarily by retail, office, and service establishments oriented primarily to major traffic arteries or extensive areas of predominantly commercial usage and characteristics.

No minimum lot area, except as required by DHEC. The maximum allowed density for residential uses is sixteen (16) dwelling units per acre.

Based upon a gross density calculation, the maximum number of units for this site is approximately: 32 dwelling units*.

*Site characteristics, site restrictions and land used for infrastructure (which can amount to 20-30% of the site) are not taken into consideration in calculating gross density

Direction	Existing Zoning	Use
<u>North:</u>	HM / GC	Residence/ Minor Automobile Repair
<u>South:</u>	PD	Residential Subdivision
<u>East:</u>	HM / AG	Undeveloped
<u>West:</u>	HM	Undeveloped/ Undeveloped

Discussion

Parcel/Area Characteristics

The subject site is comprised of a cemetery with frontage along Two Notch Road, a two-lane undivided primary arterial without streetlights or sidewalks. The immediate area consists of scattered residences of a rural nature and large tracts of agricultural, residential or undeveloped uses with scattered commercial zonings. Adjacent properties south of Two Notch Road are zoned HM and AG. A parcel to the north is zoned GC.

Public Services

The Northeast fire station (station number 4) is located on Spears Creek Church Road, approximately 2.9 miles south of the subject site. Bookman Road Elementary School is located 1.58 miles northwest of the subject parcel on Kelly Mill Road. Records indicate that the parcel is currently served via septic for sewer and well for water. The subject site is within the Palmetto Utilities service area for sewer.

Being within a service area is not a guarantee that services are available to the parcel.

Plans & Policies

The Comprehensive Plan, ***“PUTTING THE PIECES IN PLACE”***, designates this area as ***Neighborhood (Medium-Density)***.

Land Use and Design

Areas include medium-density residential neighborhoods and supporting neighborhood commercial scale development designed in a traditional neighborhood format. These neighborhoods provide a transition from Neighborhood (Low-Density) to more intense Mixed Residential (High-Density) urban environments. Multi-family development should occur near activity centers and within Priority Investment Areas with access to roadways with adequate capacity and multimodal transportation options. Non-residential development may be considered for location along main road corridors and within a contextually-appropriate distance from the intersection of a primary arterial.

Desired Development Pattern

The primary use within this area is medium density residential neighborhoods designed to provide a mix of residential uses and densities within neighborhoods. Neighborhoods should be connected and be designed using traditional grid or modified grid designs. Non-residential uses should be designed to be easily accessible to surrounding neighborhoods via multiple transportation modes.

Traffic Characteristics

The 2024 SCDOT traffic count (Station #119) located west of the subject parcel on Two Notch Road identifies 11,900 Average Daily Trips (ADTs). This section of Two Notch Road is classified as a two-lane undivided primary arterial road, maintained by SCDOT with a design capacity of 14,600 ADTs. This segment of Two Notch Road is currently operating at Level of Service (LOS) "C".

The ADTs are the total volume of traffic passing a point on a roadway during a 24-hour period. ADTs data is collected by SCDOT.

There are no programs or projects along this section of Two Notch Road through SCDOT Transportation Penny Program.

Conclusion

The proposed rezoning is **not compliant** with the objectives of the Neighborhood (Medium Density) designation in the Comprehensive Plan.

Per the plan, non-residential development within the Neighborhood (Medium-Density) designation "may be considered for location along main road corridors and within a contextually-appropriate distance from the intersection of a primary arterial." The proposed request is not located along a main road corridor within an appropriate distance from the intersection of a primary arterial.

Additionally, the Plan states that commercial uses "should be located within Neighborhood Activity Centers" and that commercial land uses "should not result in strip commercial development or fragmented 'leapfrog' development patterns along corridors." The proposed request does not fall within a Neighborhood Activity Center. A rezoning such as this could be viewed as leapfrog development.

Background

Zoning History

The original zoning as adopted September 7, 1977 was Light Industrial District (M-1). With the adoption of the November 16, 2021 Lane Development Code and the accompanying zoning district map in 2023, the subject property remained M-1.

Sec. 26-3.8 (h). NCOMV1-O: Olympia Mill Village Neighborhood Character Overlay District Applicability.

- a. The overlay standards are applicable for renovations and demolitions to historic structures as determined by architectural type, as referenced in the Olympia Architectural Overlay Style Guide (Style Guide), and date of construction within the period of significance. The standards also apply to new construction and major renovations of non-historic structures within the overlay district.
 - (1) Old Hill Period of Significance: 1900-1903, 1914-1915
 - (2) New Hill Period of Significance: 1940s
- b. The overlay standards are applicable to any structure permitted after adoption of these standards.
- c. Overlay standards are applicable to features of parcel that are visible from the public right-of-way.
- d. The boundaries of the overlay include all unincorporated parcels within the boundaries of the Olympia Mill Village Historic District, as defined by the National Register of Historic Places.
- e. Any standards not addressed by the overlay shall defer to the standards of the underlying zoning district.

Zoning History for the General Area

There is no zoning history in the immediate area to reference.

Zoning District Summary

The R5: Residential 5 District provides lands for a broad range of high-intensity residential housing options, with good access and connectivity for vehicles, bicycles, and pedestrians. Development allowed in this district includes multi-family and attached dwellings, such as apartments, condos, and townhouse dwellings, as well as public, civic, and institutional uses that support surrounding residential development.

There is no minimum lot area except as determined by DHEC. The maximum density standard: no more than 12 dwelling units per acre.

Direction	Existing Zoning	Use
<u>North:</u>	City of Columbia	Residential
<u>South:</u>	R5	Multi-family Residential
<u>East:</u>	M-1	Sprint Communications
<u>West:</u>	City of Columbia	Palmetto Construction

Discussion

Parcel/Area Characteristics

The parcel has fifty (50) feet of frontage along Heyward Street. The site contains a residence with moderate slopes, no sidewalks and some streetlights along Heyward Street. The immediate area is primarily characterized by residential, industrial and multi-family land uses; however, the majority of the area is within the City of Columbia. Contiguous east of the subject parcel is a communications hub. West of the site is a contractor office. North of the site is the City of Columbia, residential structures. South of the site are multifamily residences.

Public Services

The subject parcel is within the boundaries of School District One. The Olympia Learning Center is located 0.50 miles south of the subject parcel. The Olympia fire station (number 2) is located 0.38 miles southeast of the subject parcel on Ferguson Street. There is a fire hydrant located 236 feet east on Heyward Street. The proposed map amendment would not negatively impact public services or traffic. Water and sewer is provided by the City of Columbia.

Plans & Policies

The Comprehensive Plan, ***“PUTTING THE PIECES IN PLACE”***, designates this area as ***Mixed Residential (High Density)***.

Land Use and Design

Areas include much of the urban and suburban developed areas in the County as well as edge areas adjacent to other jurisdictions in the County. These are densely developed urban and suburban areas, or opportunities for dense suburban development. Mixed residential areas include the full range of uses supportive of neighborhood, community, and regional commercial and employment needs. Residential single-family, multi-family, office and institutional, general and neighborhood commercial, and recreational uses are appropriate for this area. Some light industrial uses are also found today in these areas, but additional industrial development with

significant community impacts (i.e., noise, exhaust, odor, heavy truck traffic) is discouraged, unless the area is identified specifically for these uses. Schools, churches, parks, and other institutional uses help support the full service nature of Mixed Residential areas

Desired Development Pattern

Developments should reinforce the guiding principle of making neighborhoods and communities in Richland County more livable. Mixed Residential areas should provide a mix of housing opportunities within individual developments, preferably organized around a neighborhood center or public space. To the extent possible, commercial and office development should be located in Activity Centers and in Mixed Use Corridors. High density residential uses should be located proximate to or incorporated within Activity Centers, increasing existing and future opportunities for transit service to these locations. Grid and modified grid development patterns are preferred over curvilinear and cul-de-sac designs to support connectivity.

Traffic Characteristics

There are no traffic counts along this section of Heyward Street. The 2024 SCDOT traffic count (Station #618) located northwest of the subject parcel on Whaley Street, identifies 21,900 Average Daily Trips (ADT's). This segment of Whaley Street is classified as a four-lane undivided principal arterial road, maintained by SCDOT with a design capacity of 33,600 ADT's. Whaley Street is currently operating at Level of Service (LOS) "B".

There is an Operational & Safety project along this section of Heyward Street through SCDOT. It is currently in the design phase with no anticipated completion date. There is a Rehab & Resurfacing project along this section of Whaley Street through SCDOT. It is currently in the design phase with no anticipated completion date. There are not programs or project through the Richland County Penny Program.

Conclusion

The proposed rezoning is **compliant** with the objectives of the Neighborhood (Medium Density) designation in the Comprehensive Plan.

The Mixed Residential (High Density) Land Use designation recommends Residential single-family, multi-family, office and institutional, general and neighborhood commercial, and recreational uses for this area.

Map Amendment Staff Report

PC MEETING DATE: February 2, 2026
RC PROJECT: 26-002 MA
APPLICANT: Brad Shell

LOCATION: 10141 Wilson Boulevard

TAX MAP NUMBER: R14800-05-11
ACREAGE: 19.83 acres
EXISTING ZONING: HM
PROPOSED ZONING: EMP

PC SIGN POSTING: January 12, 2026

Staff Recommendation

Not Compliant

Background

Zoning History

The original zoning as adopted September 7, 1977 was Rural District (RU).

With the adoption of the November 16, 2021 Lane Development Code and the accompanying zoning district map in 2023, the subject property was rezoned to Homestead (HM) District.

Zoning District Summary

The EMP: Employment District provides lands for a mix of light industrial services, light production and processing, and office uses integrated with or adjacent to complementary commercial uses and/or medium- and high-intensity residential uses. District standards are intended to ensure that industrial services, light production and processing, and office uses are developed in a way that is complementary to commercial and residential uses in the area and provides for access by and movement of vehicles associated with the industrial and commercial uses.

The minimum lot area is 10,000 square feet for multi-family and there is not minimum lot area for all other uses, except as required by DHEC. The maximum allowed density for residential uses is sixteen (20) dwelling units per acre.

Based upon a gross density calculation, the maximum number of units for this site is approximately: 396 dwelling units*.

*In calculating the maximum number of dwelling units, site characteristics, restrictions, land used for installation of infrastructure (which often amounts to 20-30% of the site) are not taken into consideration.

Direction	Existing Zoning	Use
<u>North:</u>	GC	Undeveloped
<u>South:</u>	PDD/ PDD	Undeveloped/ PDD
<u>East:</u>	PDD	Undeveloped
<u>West:</u>	AG	Undeveloped

Discussion

Parcel/Area Characteristics

The parcel has frontage along Wilson Boulevard. Wilson Boulevard is a two-lane undivided minor arterial without sidewalks and streetlights along this section. The area is primarily characterized by undeveloped parcels, and residential properties. The immediate properties contiguous to the site are currently undeveloped.

Public Services

The subject parcels are within the boundaries of Richland School District Two. Westwood High School is located approximately .79 miles southwest of the subject parcel on Sharpe Road West. Records indicate that the parcel is in the City of Columbia's water and sewer service areas. There is a fire hydrant located north of the site on Jenkins Brothers Road. The Killian fire station (station number 27) is located on Farrow Road, approximately 3.2 miles southeast of the subject parcel.

Being within a service area is not a guarantee that services are available to the parcel.

Plans & Policies

The 2015 Richland County Comprehensive Plan, ***"PUTTING THE PIECES IN PLACE"***, designates this area as ***Neighborhood (Low Density)***.

Land Use and Design

Areas where low-density residential is the primary use. These areas serve as a transition between Rural and Neighborhood (Medium-Density) areas, and are opportunities for low-density traditional neighborhood development and open space developments that preserve open spaces and natural features. Commercial development should be located within nearby Neighborhood Activity Centers, and may be considered for location along main road corridors and within a contextually-appropriate distance from the intersection of a primary arterial. Places of worship and parks are appropriate institutional uses, but should be designed to mitigate impacts on surrounding neighborhoods. Industrial development with significant community impacts (i.e., noise, exhaust, odor, heavy truck traffic) is discouraged in these areas.

Desired Development Pattern

Lower-density, single-family neighborhood developments are preferred. Open space developments that provide increased densities in trade for the protection of open spaces and recreational areas are also encouraged. Residential developments that incorporate more open spaces and protection of natural areas through the use of natural stormwater management techniques, such as swales, are encouraged. Homes in neighborhoods can be supported by small-scale neighborhood commercial establishments located at primary arterial intersections, preferably within Neighborhood Commercial Activity Centers.

Traffic Characteristics

The 2024 SCDOT traffic count (Station #137) located north of the subject parcel on Wilson Boulevard identifies 16,400 Average Daily Trips (ADTs). This section of Wilson Boulevard is classified as a five lane undivided Major Collector, maintained by SCDOT with a design capacity of 19,600 ADTs. Wilson Boulevard is currently operating at Level of Service (LOS) "C".

The ADT's are the total volume of traffic passing a point on a roadway during a 24-hour period. ADT's data is collected by SCDOT.

There are no planned or programmed improvements for this section of Wilson Blvd through the County Penny Sales Tax program or SCDOT.

Conclusion

The proposed rezoning is **not compliant** with the objectives of the Neighborhood Low-Density designation in the Comprehensive Plan.

Although the proposed map amendment would allow for retail and commercial uses along a primary road, the subject site is not located within a Priority Investment Area and is not within a contextually-appropriate distance from an intersection, as prescribed by the Comprehensive Plan.

While the parcel falls within the Neighborhood Low-Density designation on the Future Land Use map, the approval of the recent rezoning of the parcel north of the subject site to General Commercial occurs within the sphere of influence of the parcel in question. Therefore, viewing the subject parcel as within the adjacent Economic Development Corridor may be more contextually appropriate, rather than Neighborhood Low-Density.

a. Permitted Uses

A "P" indicates that the use is allowed by right in the zoning district at the head of that column.

b. Special Requirements Uses

An "SR" indicates that the use is allowed in the zoning district at the head of that column only if the Zoning Administrator determines the use complies with the use-specific standards.

c. Special Exception Uses

An "SE" indicates that the use is allowed in the zoning district only if the Board of Zoning Appeals approves a special exception permit for the use.

MU2 Corridor Mixed-Use District – Informational Update

- At the September 23 Development and Services Committee meeting, a motion was made to amend the MU2 district by:
 - Removing references to high-intensity, multi-family residential
 - Eliminating the following permitted uses:
 - Dwelling, Multi-Family
 - Passenger Terminal, Surface Transportation
 - Kennel; Hotel/Motel; Vehicle Fueling Station
 - Warehouse Distribution Facility
- The Committee sent this review back to the Planning Commission, noting staff may provide recommendations, but the Commission may recommend differently to Council.
- Purpose of this update:

Allow the Planning Commission to evaluate whether the MU2 district’s general description aligns with its current density, dimensional standards, and permitted uses, as some uses may be more intense than intended.
- Focus for Planning Commission review:
 - Are density and dimensional standards consistent with the district’s description?
 - Do permitted uses support the corridor’s pedestrian-oriented, mixed-use character?
 - Are additional mixed-use development standards needed for integrated residential and nonresidential development?

(e) MU2: Corridor Mixed-Use District

General Description

The MU2: Corridor Mixed-Use District provides lands for walkable, mixed-use development along major corridors in the County. This district allows a mix of retail sales, personal and business services, recreation/entertainment, office, high-intensity multi-family residential, and institutional land uses. District standards are intended to ensure uses, development intensities, and development forms support development that is:

- Multi-story, mixed-use, and pedestrian-friendly;
- Oriented toward the major road corridor or otherwise laid out to establish a traditional main street character;
- Provides enhanced visual character along the corridor; and
- Is well-integrated in terms of access and circulation, complementary uses, and compatible design.

Concept

Use Standards

Allowed uses and use-specific standards for principal, accessory, and temporary uses are established in Article 26-4: Use Regulations.

Density and Dimensional Standards

Standard	Multi-family (not mixed-use)	All Other Uses
Density, max. (du/ac) ^[1]	20	20
1 Lot Area, min. (sf)	10,000	5,000
Lot Width, min.	None	None
Floor Area Ratio (FAR), max. ^[2]	None	2.0
2 Build-to Line, min. max. (ft) ^{[3][4]}	None 20	None 20
Building width in build-to zone, min. (% of lot width) ^[5]	50	50
Side Yard Setback, min.	None	None
3 Rear Yard Setback, min. (ft)	10	10
4 Building Height, max. (ft)	50	50

NOTES:

[1] Applicable to residential development and the residential component of mixed-use development.

[2] Applicable to nonresidential development and the nonresidential component of mixed-use development.

[3] The maximum build-to line may be increased by up to 15 feet for up to 50 percent of its length to accommodate outdoor dining areas, plazas, or civic spaces.

- [4] Where an existing building along a street frontage is located behind a required build-to zone, the building may not be extended to the rear or side by more than 30 percent of the building's existing gross floor area unless the building is first extended frontwards to comply with the maximum build-to line standard and the minimum building width in the build-to zone standard.
- [5] The build-to zone is the area between the minimum and maximum build-to lines that extends the width of the lot. Buildings shall be located such that the minimum percentage of the lot width in the build-to zone is occupied by building façades. The remaining build-to zone width may be occupied by building façades, outdoor gathering spaces, walkways, landscaped areas, stormwater management facilities, driveways, or surface parking.

Form and Design Standards

a. Off-street Parking

1. Along any street frontage, all proposed new or additional accessory parking area shall be located to the rear or side of the development's principal building(s).
2. Where the façade of a parking structure abuts or faces a street frontage, the façade shall be articulated through use of at least three of the following features:
 - (a) Windows;
 - (b) Masonry columns;
 - (c) Decorative wall insets or projections;
 - (d) Awnings;
 - (e) Changes in color or texture of exterior materials;
 - (f) Integrated vegetation (hanging or along trellises); or
 - (g) Similar features.

b. Sidewalks

Along any street frontage, a sidewalk having a minimum width of seven feet shall be provided. A street protective yard (see Sec. 26-5.3(e)) having a minimum width of 5 feet shall be located between the street and the sidewalk and shall contain street trees planted between every 40 to 50 feet on center. In the alternative, in high-traffic

pedestrian areas, 5-foot by 8-foot street tree planting areas may be provided for location of the street trees.

c. Connectivity

1. The internal vehicular, bicycle, and pedestrian circulation systems of development shall be designed to allow vehicular, bicycle, and pedestrian cross-access between the internal system and any internal vehicular, bicycle, and pedestrian circulation systems of existing or allowable future development on adjoining lots.
2. Easements allowing vehicular, bicycle, or pedestrian cross-access between adjoining lots, along with agreements defining maintenance responsibilities of the property owners, shall be recorded with the Register of Deeds.
3. The Zoning Administrator may waive or modify the requirement for cross-access on determining that such cross-access is impractical or infeasible due to safety concerns about through traffic routes complicating law enforcement or the presence any of the following at the point(s) where through connections would otherwise be required: topographic conditions, natural features, visual obstructions or parking space locations that create traffic hazards, or the existence of mature or protected landscaping.
